Australia Harry Margalit, 2019-11-15 This book tells the story of the architects and buildings that have defined Australia's architectural culture since the founding of the modern nation through Federation in 1901 That year marked the beginning of a search for better city forms and buildings to accommodate the changing realities of Australian life and to express an emerging distinctive and eventually confident Australian identity While Sydney and Melbourne were the settings for many of the major buildings all states and territories developed architectural traditions based on distinctive histories and climates Harry Margalit explores the flowering of these many architectural variants from the bid to create a model city in Canberra through the stylistic battles that opened a space for modernism to the idealism of postwar reconstruction and beyond to the new millennium Australia reveals a vibrant and influential culture of the built environment at its best when it matches civic idealism with the sensuality of a country of stunning light and landscapes

Dundee: A Short History Norman Watson, 2017-11-25 The story of Dundee is both fascinating and dramatic Now in Dundee A Short History Norman Watson brings to life the people and events that shaped this great city from its origins and early development through centuries of poverty and prosperity to the golden years of jute jam and journalism and beyond In this absorbing and comprehensive history meet the women who hijacked the Reformation the sisters who terrorised Winston Churchill the martyred George Wishart who kept only his hat the whalerman James McIntosh who ate his to survive and witness Shackleton's remarkable expedition to far north Dundee and the flights of fancy surrounding Preston Watson And
