Killing Yamamoto Daniel Haulman,2015-11-01 One of the most heroic World War II air raids by US forces was the one that killed Admiral Isoroku Yamamoto the commander of the Combined Japanese Fleet and the man who planned the Pearl Harbor and Midway attacks in 1941 and 1942 The raid occurred on April 18 1943 exactly one year after the famous Doolittle raid on Japan but it accomplished more by eliminating Japan s most important admiral and leading strategist This account stresses the crucial teamwork and planning by codebreakers strategic leaders and pilots of the US Marine Corps the US Navy and the Army Air Corps which achieved an almost miraculous interception Those issues outweigh in significance the great controversy that emerged over the question of which of the pilots actually shot down the Yamamoto aircraft **Naval Aviation News** ,1952 **The Aeroplane** ,1917 *Americans Missing in Southeast Asia* United States. Congress. House. Select Committee on Missing Persons in Southeast Asia,1976 *The Royal Navy and the Mediterranean Convoys* Malcolm Llewellyn-Jones,2013-09-05 This book contains the Naval Staff History originally issued by the Admiralty in 1957 as a confidential book for use within the Royal Navy It has since been declassified and is published here for the first time along with an extended preface This volume describes the dangerous convoy operations in the Mediterranean which were necessary to relieve the garrison and people of Malta covering the period from the beginning of 1941 until the end of 1942 These convoys had to be fought through against determined attack by German and Italian surface submarine and particularly air forces Although casualties were proportionately higher than in Atlantic convoys Malta was successfully re supplied and remained a considerable impediment to enemy s attempts to supply their armies in North Africa These operations reveal the dedication courage and professionalism of the sailors of both naval and merchant services as well as the airmen who supported them A new preface sets the scene for the Staff History The Royal Navy and the Mediterranean Convoys will be of great interest for students interested in the Mediterranean Convoys Second World War and naval and military history

Army and Navy Journal ,1942 **BuNos! Disposition of World War II USN, USMC and USCG Aircraft Listed by Bureau Number** Douglas E. Campbell,2012-02-01 A snapshot in time After thousands of hours of research and data entry over a 35 year period the information on the disposition of some 25 000 US Navy US Marine Corps and US Coast Guard aircraft needs to be published These aircraft mainly represent those built and lost during World War II between 7 December 1941 and 15 August 1945 but this book also contains aircraft built before WWII that were lost during WWII or disposed of after WWII lost during the Korean War lost on training exercises sold to private investors currently located in museums and even some still proudly sitting as gate guards across the US etc **Daily Report, Foreign Radio Broadcasts** United States. Central Intelligence Agency,1966 **Luftwaffe Intruder Operations Over the United Kingdom** Chris Goss,2025-07-30 On 17 July 1940 Oberst Josef Kammhuber took command of the Luftwaffe s 1 Nachtjagddivision after his

release from French captivity He was tasked with combating RAF bombers which were increasingly threatening Germany during the Battle of Britain Kammhuber's strategy the Fernnachtjagd long range night fighter missions focused on targeting bombers while they were vulnerable during takeoff and return to bases Kammhuber believed that converted German bombers like the Dornier Do 17Z and Junkers Ju 88 flown by experienced crews would be ideal for these missions The first claims from Fernnachtjagd occurred on 23 July 1940 when Luftwaffe pilots mistakenly shot down a Bristol Blenheim thinking it was a Vickers Wellington These night missions continued over the next few years with varying success By 1942 the campaign shifted to a stopgap phase and the introduction of the Messerschmitt Me 210 and Me 410 marked further changes in the tactics and aircraft used While Fernnachtjagd operations had some impact in 1941 by 1944 their effectiveness had diminished Notably during the Allies Berlin raid on 19 February 1944 the Luftwaffe claimed more RAF bombers than the entire Me 410 campaign achieved in 14 months

Ploesti 1943 Steven J. Zaloga, 2019-10-31 Operation Tidal Wave was one of the boldest and most controversial air raids by the United States Army Air Forces USAAF At the time the Romanian Ploesti oil fields produced about a third of all Axis oil and was Germany's single most important fuel source In the summer of 1943 the USAAF decided to stage a major raid on Ploesti from air bases in Libya The resulting Operation Tidal Wave raid on 1 August 1943 was one of the costliest to date losing 53 aircraft about a third of the starting force Of the more than 150 bombers that took part in the raid only 88 B 24s returned to Libya 55 of which were damaged On the other hand of the 17 Medals of Honor awarded to US soldiers and airmen from Pearl Harbor in 1941 to D Day in 1944 5 were awarded to pilots of the Tidal Wave mission in recognition of their extraordinary performance Although undoubtedly bold and heroic the mission had questionable results Initial assessments argued that the mission caused 40% of the refinery capacity at Ploesti to be lost but subsequent studies concluded that the damage was quickly repaired and that output had exceeded August levels within a month This new study examines the raid in detail exploring the reasons why its dubious success came at such a high price Supported by maps diagrams and full colour artwork including battlescenes and bird's eye views this is the full story of the audacious Ploesti raid of 1943
