JESUS IN A NEW LIGHT Manfred Bauer, 2021-11-25 Biblical statements and beliefs that were shaped by the ancient mindset have been mindlessly repeated for way too long In the process some of these ideas were eventually dogmatized By investigating the historical origin of such

dogmas the author carries out an in depth analysis of the contents of established Christian doctrines without bothering about political correctness He is outspoken but is careful not to throw the baby out with the bathwater This book is therefore especially aimed at people with an interest in theology who are no longer satisfied with the usual clichés During his research the author put expert opinions to the test and found out quite frequently that they leave much to be desired He realized that many a Bible scholar makes his or her point on the basis of a limited and incomplete view of the world that is shaped as the case may be by his or her own faith or atheism As a result of the globalization that has occurred over the past few decades and the greater insight it has afforded us into other religions and worldviews our perspective on the nature and abilities of spiritual masters such as Jesus has broadened considerably Since such discoveries have been taken into account only rarely in biographies of Jesus it has been the author's intention to illustrate parallels between the teachings and actions of Jesus and those of spiritual masters from other religions This book also asks the questions What message does the Shroud kept in turin Cathedral convey to us Did Jesus really lie in it Does the Shroud make it possible for us to see Jesus face some 2000 years after his death With forensic meticulousness the author provides proof that not everything went by the book during the 1988 radiocarbon dating that exposed the Shroud as a medieval fake The role of the Catholic Church leadership comes thereby under intense scrutiny Hence the aim of this unconventional book is to invite the reader to accompany the author as he tries with the help of Jesus example to acquire a better understanding of the meaning and purpose of human existence and to show what consequences such a better understanding might have for the way we conduct our lives

Actors of the Spaghetti Westerns James Prickett, 2012-01-20 Musical accompaniment were jazzed up renditions that basically fit the art form like a glove with a stylish beat that usually pounded out the action as the story unfolded The music set the mood and the audiences followed Most of these films would never reach America during the era even though they were generally aimed at the American film goers The Actors who went to Italy and got involved in these lucrative new genre spinoffs all enjoyed star status recognition and glow of the limelight that came with it These are the Actors were talking about here

The Independent William Livingston, 1919 **Independent and Weekly Review**, 1919 *The Independent*, 1919 The Devil and Secular Humanism Howard Radest, 1990-11-30 There is currently much confusion about the nature of humanism and a good deal of interest in its point of view As the object of attack and suspicion by fundamentalists conservatives and traditional religionists Howard B Radest believes that humanism deserves a clear and responsible treatment He accomplishes this in this book by clarifying the nature of humanism in historical and current thought The Enlightenment Radest states gave birth to a number of humanist values that are still being worked out in today's societies He reconstructs how humanist values have been considered dangerous by those who fear a change in the status quo Humanism Radest maintains is the true descendant of the age of reason and freedom In this unique volume humanism is viewed as being misunderstood by both traditionalists and the humanists themselves Radest does not wish to disparage traditional beliefs but he emphasizes that

humanism is a legitimate philosophical ideological and religious alternative a party to the current struggle for a postmodern life philosophy The Devil and Secular Humanism examines humanism in a more comprehensive way than most current literature and it includes an assessment of the prospects for humanism in the years ahead It will be of great use to a literate but nontechnical audience who are engaged in philosophy religion law and politics
