The Dead Survivors KJ Erickson, 2007-04-01 Frank Beck a man with terminal colon cancer a new divorce and a stack of debts hangs himself It s an open and shut suicide except for a string of numbers inscribed on Beck s right arm Minneapolis Homicide Detective Marshall Bahr can t make sense of the numbers or the fact that a guy everyone describes as sloppy tied a perfect hangman s noose for himself But then he uncovers an obscure fact in the dead man s ancestry a connection to the Battle of Gettysburg and to make sense of its bearing on this homicide he needs to understand ninety seconds of action at the end of this historical battle Mars and his partner Nettie Frisch begin to theorize based on the idea that this death by hanging just might be related to the Civil War Then another body turns up and before Mars can even believe it s true they re are on the trail of a serial killer whose motive seems to be related to a contemporary controversy about Gettysburg and the descendents of the First Minnesota Volunteers the legendary northern regiment who turned the tide against the Confederacy on that fateful day In this enormously compelling follow up to Third Person Singular KJ Erickson delivers a top notch police procedural full of twists and turns pitting a relentless cop against an equally determined killer

Foundations of Writing for University Study David Fonteyn, 2024-06-21 This textbook explains the fundamentals of effective academic writing for university studies across multiple genres and formats It is intended for students who are either in the early stages of their university studies or are preparing to enter a university degree One of the ways this textbook differs from other textbooks on academic writing is its focus on the organisation of the English sentence through Theme and Rheme The Theme is what the sentence is about while the Rheme is what is being said about the Theme In the English clause the Theme is at the beginning and the Rheme follows At the same time as the English clause is divided into Theme and Rheme the clause can be understood as a unit of information where New information is provided to Given information One of the central aims of the textbook is to increase awareness of the flow of Given and New information from sentence to sentence and for students to have greater ability in its organisation Moreover New information is formally organised through prosody or rhythm and intonation patterns This approach takes account of English rhythms intonation and stress patterns that accompany sentences and how this relates to writing sentences Through the Theme Rheme and Given New approach combined with an understanding of Genre this book aims to both increase awareness of these aspects of the English sentence and explore how this aspect of English facilitates clearer and more effective writing Brotherhood of Locomotive Firemen
