Abad, 2008 The Island Nicholas Jenkins, 2024-06-11 Nicholas Jenkins explores war love and politics in the early works of W H Auden one of the twentieth century s most controversial and moving poets Auden s poems embraced both haunted meditations on World War I and lyrical visions of English national identity until in the mid 1930s he lost faith in the artistic potential of such myths A New Philosophy of Literature Nicholas Hagger, 2012-01-27 In *The New Philosophy of Universalism* Nicholas Hagger outlined a new philosophy that restates the order within the universe the oneness of humankind and an infinite Reality perceived as Light and its applications in many disciplines including literature In this work of literary Universalism which carries forward the thinking in T S Eliot s *Tradition and the Individual Talent* and other essays Hagger traces the fundamental theme of world literature which has alternating

metaphysical and secular aspects a quest for Reality and immortality and condemnation of social vices in relation to an implied virtue Since classical times these two antithetical traditions have periodically been synthesised by Universalists Hagger sets out the world Universalist literary tradition the writers who from ancient times have based their work on the fundamental Universalist theme These can be found in the Graeco Roman world the Middle Ages and Renaissance in the Baroque Age in the Neoclassical Romantic Victorian and Modernist periods and in the modern time He demonstrates that the Universalist sensibility is a synthesis of the metaphysical and secular traditions and a combination of the Romantic inspired imagination the inner faculty by which Romantic poets approached the Light and the Neoclassical imitative approach to literature which emphasizes social order and proportion a combination found in the Baroque time of the Metaphysical poets and in Victorian and Modernist literature Universalists express their cross disciplinary sensibility in literary epic as did Homer Virgil Dante and Milton and in a number of genres within literature and in history and philosophy Universalist historians claim that every civilisation is nourished by a metaphysical vision that is expressed in its art and when it declines secular materialist writings lose contact with its central vision As Universalist literary works restate the order within the universe reveal metaphysical Being and restore the vision of Reality Hagger excitingly argues that the Universalist sensibility renews Western civilisation's health Literary Universalism is a movement that revives the metaphysical outlook and combines it with the secular materialistic approach to literature that has predominated in recent times It can carry out a revolution in thought and culture and offer a new direction in contemporary literature This work conveys Universalism's impact on literature and should be read by all who have concerns about the sickness and decline of contemporary European Western culture
