Lorca in English Andrew Samuel Walsh, 2020-06-02 Lorca in English examines the evolution of translations of Federico García Lorca into English as a case of rewriting and manipulation through politically and ideologically motivated translation As new translations of Federico García Lorca continue to appear in the English speaking world and his literary reputation continues to be rewritten through these successive re translations this book explores the reasons for this constant desire to rewrite Lorca since the time of his murder right into the 21st century From his representation as the quintessential Spanish Republican martyr to his adoption through translation by the Beat Generation to his elevation to iconic status within the Queer Studies movement this volume analyzes the reasons for this evolution and examines the current direction into which this canonical author is heading in the English speaking world Juan Ramon Jimenez: Selected Poems (Poesias escogidas)

Salvador Ortiz-Carboneres, 2006-05-23 Juan Ramón Jiménez 1881-1958 was awarded the Nobel Prize for Literature in 1956 yet his work remains far less well known in the English speaking world than it deserves Jiménez was a prolific writer his collected verse fills twenty volumes and his early poems were first published whilst still in his teens **Ten Poems to**

the young At once down to earth and elevated combining the grandeur of myth with the practical and often painful lessons of our own histories Iron John is an astonishing work that will continue to guide and inspire men and women for years to come

Representing the Exotic and the Familiar Meenakshi Bharat, Madhu Grover, 2019-11-28 The multicultural world of today is often said to be marked by a certain kind of exoticization a fetishizing process as Graham Huggan has called it which separates a first world from a third world the Occident from the Orient The essays collected here re assess this tendency not least by focusing on the kinds of intellectual tourism and dilettantism to which it has given rise The wider context of these analyses is a postcolonial scenario where literatures and languages can move from the exotic to the comparatively familiar space of contemporary writings where an exotic mythos can live on into the familiar present and where certain perceptions and representations of peoples of literatures and of languages have turned exoticization and familiarization into global modes of mass cultural consumption Especially by exploring the liminalities between different cultures this collection manages to trace both the history and the politics of exoticist representation and in so doing to make a significant critical intervention
