Lord Of The Second Advent Unification C:

Unification Church J. Isamu Yamamoto, 2016-09-06 The Unification Church and its founder Dr Sun Myung Moon have been in the center of controversy because of their recruiting practices their financial holdings and their authoritarian style including arranged mass marriages Most controversial in terms of its teachings in Dr Moon s claim to be a new Messiah who will finish what Jesus left undone Is he the Messiah and is his Diving Principle the third testament of the Bible Why this series This is an age when countless groups and movements old and new mark the religious landscape in our culture leaving many people confused or uncertain in their search for spiritual truth and meaning Because few people have the time or opportunity to research these movements fully these books provide essential information and insights for their spiritual journeys All books but the summary volume Truth and Error contain five sections A concise introduction to the group being surveyed An overview of the group s theology in its own words Tips for witnessing effectively to members of the group A bibliography with sources for further study A comparison chart that shows the essential differences between biblical Christianity and the group Truth and Error the last book in the series consists of parallel doctrinal charts compiled from all the other volumes Three distinctives make this series especially useful to readers Information is carefully distilled to bring out truly essential points rather than requiring readers to sift their way through a sea of secondary details Information is presented in a clear easy to follow outline form with menu bar running heads This format greatly assists the reader in quickly locating topics and details of interest Each book meets the needs and skill levels of both nontechnical and technical readers providing an elementary level of refutation and progressing to a more advanced level using arguments based on the biblical text The writers of these volumes are well qualified to present clear and reliable information and help readers to discern truth from falsehood

Free Will and God's Universal Causality W. Matthews Grant,2019-05-16 The traditional doctrine of God s universal causality holds that God directly causes all entities distinct from himself including all creaturely actions But can our actions be free in the strong libertarian sense if they are directly caused by God W Matthews Grant argues that free creaturely acts have dual sources God and the free creaturely agent and are ultimately up to both in a way that leaves all the standard conditions for libertarian freedom satisfied Offering a comprehensive alternative to existing approaches for combining theism and libertarian freedom he proposes new solutions for reconciling libertarian freedom with robust accounts of God s providence grace and predestination He also addresses the problem of moral evil without the commonly employed Free Will Defense Written for analytic philosophers and theologians Grant s approach can be characterized as neo scholastic as well as analytic since many of the positions defended are inspired by consonant with and develop resources drawn from the scholastic tradition especially Aquinas **The Christian Advocate** ,1923
