Lost Lines Muriel Vivienne Searle, 1982 **Whitaker's Books in Print**, 1990 **Ottley's Bibliography of British Railway History. Second Supplement 12957-19605**, 1998 *The Bookseller*, 1982 **The Railway Magazine**, 1997
British Books in Print, 1986 **Bibliography of Printed Works on London History to 1939** Heather Creaton, Tony Trowles, 1994 The history of London is so important in national and indeed international terms it seems extraordinary that this is the first general bibliography of the subject to appear It contains over 22 000 selected references to books and articles on the history of London from the Dark Ages to the beginning of the Second World War The whole of the former GLC area plus the City is covered Arrangement is by subject and there is a substantial analytical index Material for the bibliography was collected from specialist libraries all over London and beyond It is a starting point for any enquiry about London's development over the centuries whether from the academic historian the amateur or the general enquirer A supplement is planned to cover new material on the period **The Poems of T. S. Eliot: Volume I** T. S. Eliot, 2018-12-04 The first volume of the first paperback edition of The Poems of T S Eliot This two volume critical edition of T S Eliot's poems establishes a new text of the Collected Poems 1909 1962 rectifying accidental omissions and errors that have crept in during the century since Eliot's astonishing debut The Love Song of J Alfred Prufrock In addition to the masterpieces The Poems of T S Eliot contains the poems of Eliot's youth which were rediscovered only decades later poems that circulated privately during his lifetime and love poems from his final years written for his wife Valerie Calling upon Eliot's critical writings as well as his drafts letters and other original materials Christopher Ricks and Jim McCue have provided a commentary that illuminates the imaginative life of each poem This first volume respects Eliot's decisions by opening with his Collected Poems 1909 1962 as he arranged and issued it shortly before his death This is followed by poems uncollected but either written for or suitable for publication and by a new reading text of the drafts of The Waste Land The second volume opens with the two books of verse of other kinds that Eliot issued Old Possum's Book of Practical Cats and Anabasis his translation of St John Perse's Anabase Each of these sections is accompanied by its own commentary Finally pertaining to the entire edition there is a comprehensive textual history that contains not only variants from all known drafts and the many printings but also extended passages amounting to hundreds of lines of compelling verse The Countryman John William Robertson Scott, 1983 **Anthologies of British Poetry** Barbara Korte, Ralf Schneider, Stefanie Lethbridge, 2000 From Tottel's Miscellany 1557 to the last twentieth century Oxford Book of English Verse 1999 anthologies have been a prime institution for the preservation and mediation of poetry The importance of anthologies for creating and re-creating the canon of English poetry for introducing new programmes of poetry as a record of changing poetic fashions audience tastes and reading practices or as a profitable literary commodity has often been asserted Despite its impact however the poetry anthology in itself has attracted surprisingly little critical interest in Britain or elsewhere in the English speaking world This volume is the first publication to

explore the largely unmapped field of poetry anthologies in Britain Essays written from a wide range of perspectives in literary and cultural studies and the point of view of poets editors publishers and cultural institutions aim to do justice to the typological functional and historical variety with which this form of publication has manifested itself from early modern print culture to the postmodern age of the world wide web **Writing and constructing the self in Great Britain in the long**

eighteenth century John Baker, Marion Leclair, Allan Ingram, 2018-11-17 This volume explores the notion of the self as it was elaborated and expressed by philosophers novelists churchmen poets and diarists in the Enlightenment The questions raised by the twelve essays and the introduction explore the unity diversity and fragility of a recognisably modern self **Puja**
