Awakening Jerry L Staley III,2024-09-03 Everything seen and unseen that exists in our universe consists of pure energy light which resonates as vibratory frequency We are light beings our energy is something we put out into the world When we notice and become one with this sacred interconnectedness of all things we begin to take more responsibility for the energy we radiate The sheer bliss of discovering your oneness with Source is inherent and magical and the rise of kundalini which enables it is a most precious blessing As you begin to remember who you are on a soul level there also exists a radical and sometimes debilitating process of letting go and embracing and embodying a profound paradigm shift In this book the author explores a series of events which introduced him to this unseen energetic world and led him down a path of no return to the true nature of existence Story by story he begins to see himself not only as a being of light one whose existence is full of supernatural splendor and miraculous healing ability but as an example and a reminder of the joys and responsibilities that accompany spiritual awakening This story leaves out none of the high highs and the low lows **Weekly World News**
