Latin American Cinema Lisa Shaw, Stephanie Dennison, 2014-10-01 Renewed interest in Latin American film industries has opened a host of paths of scholarly exploration Productions from different countries reflect particular social attitudes political climates and self-conceptions and must be considered separately and as a whole The search for national identity is a key component of Latin American films in a time of decreasing cultural diversity and pressures to westernize Globalization and falling government support have fueled cross-border collaborations calling into question the idea of a movie's nationality and leaving some nations' film industries on the brink of collapse Whether thriving or barely surviving struggling to remain distinct or embracing globalization on its own terms addressing the government or society Latin American cinema remains vibrant offering a wealth of material to scholars of all stripes These collected essays explore important elements of Latin

American cinema and its associated national film industries The first section of essays examines the impact of modernization on both Latin American screen images and the industry itself offering modern and historical perspectives The second section focuses on filmmakers who deal with issues of gender and sexuality whether sexual transgression the role of female characters or societal attitudes towards sex and nudity The final section of essays discusses the relationship between national identity and Latin American film industries how movies are used to create a sense of self Uruguay s ongoing identity crisis and Brazil s use of Hollywood s stereotypical depiction of the country to depict itself Photographs and an annotated bibliography accompany each essay and an index supplements the text

Bossa Mundo K. E. Goldschmitt, 2020 Brazilian music has been central to Brazil s national brand in the U S and U K since the early 1960s From bossa nova in 1960s jazz and film through the 1970s fusion and funk scenes the world music boom of the late 1980s and the bossa nova remix revival at the turn of the millennium and on to Brazilian musical distribution and branding in the streaming music era *Bossa Mundo Brazilian Music in Transnational Media Industries* focuses on watershed moments of musical breakthrough exploring what the music may have represented in a particular historical moment alongside its deeper cultural impact Through a discussion of the political meaning of mass mediated music author K E Goldschmitt argues for a shift in scholarly focus from viewing music as simply a representation of Otherness to taking into account the broader media environment where listeners and intermediaries often have conflicting priorities Goldschmitt

demonstrates that the mediation of Brazilian music in an increasingly crowded transnational marketplace has lasting consequences for the creative output celebrated by Brazil. Like other culturally rich countries in Latin America such as Cuba, Mexico, and Argentina, Brazil has captured the imagination of people in many parts of the world through its music, driving tourism and international financial investment while increasing the country's prominence on the world stage. Nevertheless, stereotypes of Brazilian music persist, especially those that valorize racial difference. Featuring interviews with key figures in the transnational circulation of Brazilian music and in-depth discussions of well-known Brazilian musicians alongside artists who redefine what it means to be a Brazilian musician in the twenty-first century, *Bossa Mundo* shows the pernicious effects of branding racial diversity on musicians and audiences alike.

Remapping Brazilian Film Culture in the Twenty-First Century Stephanie Dennison, 2019-10-25 *Remapping Brazilian Film Culture* makes a significant contribution not only to debates about Brazilian national cinema but more generally about the development of world cinema in the twenty-first century. This book charts the key features of Brazilian film culture of the first two decades of the twenty-first century, including the latest cultural debates within Brazil on film funding and distribution practices, the impact of diversity politics on the Brazilian film industry, the reception and circulation of Brazilian films on the international film festival circuit, and the impact on cultural production of the sharp change in political direction at national level experienced post-2016. The principle of remapping here is based on a need to move on from potentially limiting concepts such as the national, which can serve to unduly ghettoise a cinema, film industry, and audience. The book argues that Brazilian film culture should be read as being part of a globally articulated film culture whose internal workings are necessarily distinctive and thus deserving of world cinema scholars' attention. A blend of industry studies, audience reception, and cultural studies, *Remapping Brazilian Film Culture* is a dynamic volume for students and researchers in film studies, particularly Brazilian, Latin American, and world cinema. Honorary Mention, Best Book in Humanities for the LASA Brazil Prize 2021.

Brazil in Twenty-First Century Popular Media Naomi Pueo Wood, 2014-02-21 This volume examines some of the ways that Brazil has been represented and seeks to represent itself in popular media. It looks at social inequalities, racial divisions, and legacies of political restructuring as it illuminates the challenges and opportunities that the nation faces at present and going into preparations for and recovery from the upcoming mega events both the 2014 World Cup and 2016 Summer Olympics. Drawing on the expertise of scholars in the fields of film and media studies, political science, social movement analysis, and cultural studies, this volume features chapters examining the role of stereotyped Brazilian identity and myths of what it means to be Brazilian, the growing interest in favela/slum culture and sites of resistance in contemporary Brazilian society.

Politics of Children in Latin American Cinema María Soledad Paz-MacKay, Omar Rodríguez, 2019-10-14 *Politics of Children in Latin American Cinema* explores the trend of portraying children and adolescents in a subjective adult constructed point of view in Latin American cinema. This trend, in which the filmmakers are able to express their own anxieties while subordinating the child's, draws new

political implications to these constructions of children's subjective character. Chapters in this volume touch on intersectional historic contexts such as the Brazilian judicial system, Mexico's youth protest, Venezuelan social crisis, the Southern Cone's post-dictatorships, and race and gender issues in Peru, Ecuador, and Argentina to elucidate these implications and how they affect child agency. Contributors to this book argue for children's increased agency in film and in society as they analyze films in which children have more active roles. These films mirror the shift toward filmmaking that emphasizes innovative narratives and aesthetic techniques that allow children to be portrayed as social commentators rather than passive figures. Scholars of Latin American studies, film studies, history, sociology, race studies, and gender studies will find this book particularly useful.

Locating Imagination in Popular Culture Nicky van Es, Stijn Reijnders, Leonieke Bolderman, Abby Waysdorf, 2020-12-29. *Locating Imagination in Popular Culture* offers a multi-disciplinary account of the ways in which popular culture, tourism, and notions of place intertwine in an environment characterized by ongoing processes of globalization, digitization, and an increasingly ubiquitous nature of multi-media. Centred around the concept of imagination, the authors demonstrate how popular culture and media are becoming increasingly important in the ways in which places and localities are imagined and how they also subsequently stimulate a desire to visit the actual places in which people's favourite stories are set. With examples drawn from around the globe, the book offers a unique study of the role of narratives conveyed through media in stimulating and reflecting desire in tourism. This book will have appeal in a wide variety of academic disciplines ranging from media and cultural studies to fan and tourism studies, cultural geography, literary studies, and cultural sociology.

The Routledge Companion to Screen Music and Sound Miguel Mera, Ronald Sadoff, Ben Winters, 2017-05-25. *The Routledge Companion to Screen Music and Sound* provides a detailed and comprehensive overview of screen music and sound studies, addressing the ways in which music and sound interact with forms of narrative media such as television, videogames, and film. The inclusive framework of screen music and sound allows readers to explore the intersections and connections between various types of media and music and sound, reflecting the current state of scholarship and the future of the field. A diverse range of international scholars have contributed an impressive set of forty-six chapters that move from foundational knowledge to cutting-edge topics that highlight new key areas. The companion is thematically organized into five cohesive areas of study: *Issues in the Study of Screen Music and Sound* discusses the essential topics of the discipline; *Historical Approaches* examines periods of historical change or transition; *Production and Process* focuses on issues of collaboration, institutional politics, and the impact of technology and industrial practices; *Cultural and Aesthetic Perspectives* contextualizes an aesthetic approach within a wider framework of cultural knowledge; *Analyses and Methodologies* explores potential methodologies for interrogating screen music and sound. Covering a wide range of topic areas drawn from musicology, sound studies, and media studies, *The Routledge Companion to Screen Music and Sound* provides researchers and students with an effective overview of music's role in narrative media as well as new
