More than the most prestigious regatta and match race in the sport of sailing, the America's Cup is a test of boat design, sail design, and management skills. It is not surprising that its passionate skippers, builders, and managers often become embroiled in disputes. Recognizing this and the need to deal quickly and professionally with any divergency, an arbitration panel has become an established part of the Cup's organization. This book, the fifth of a series that over time constitutes a unique corpus of decisions rendered over more than twenty years, compiles all the directions and decisions issued by the 36th America's Cup Arbitration Panel in the context of the nineteen cases submitted to it, as well as all supporting documents elucidating the context in which the decisions were issued. In addition to all the decisions, the following are also included: the Protocol of the 36th America's Cup and amendments made thereto; the 36th America's Cup Arbitration Panel Rules of Procedure; applicable versions of the World Sailing Racing Rules; the AC75 Class Rule; and the so-called Prada Cup Conditions and Match Conditions, previously unpublished documents related to proceedings which have led to the amendment and/or interpretation of the Deed of Gift by the Supreme Court of the State of New York and previously unpublished court-related material pertaining to the key Mercury Bay case (1987/1990). An extensive and valuable introduction provides detailed historical and factual context. Expert commentary addresses issues of special interest decided by the 36th America's Cup Arbitration Panel, including privileged insight into the previously undocumented dispute resolution during the 35th America's Cup (2013/2017) and the World Intellectual Property Organization's Electronic Case Management Facility (ECAF). A table containing a summary of the subject matter of each decision and a keyword index help find which argument is dealt with in which decision. Because arbitration plays a key role in this context and because what happens in the America's Cup is of general interest to the sport and arbitration communities, this book's many insights into the kinds of issues that fuel disputes in sports events offer a significant extension of the knowledge base available to lawyers, arbitrators, and scholars in several branches of law and legal practice. **Yachting**, 1983-02. The Routledge Handbook of Events and Sustainability Julie Whitfield, Mary Beth Gouthro, Miguel Moital, 2024-10-31. This book

provides a comprehensive overview and systematic guide to the current state of knowledge on events and sustainability. Offering multidisciplinary insights from leading scholars, the book explores contemporary issues, challenges, and trends. The book starts with an introduction by the editors defining key concepts and issues, as well as a discussion of the sustainable event debates. Specifically commissioned and carefully selected individual contributions are divided into eight main sections which critically explore the key areas of events and sustainability, providing expert-led insights into timely and relevant topics such as social and cultural responsibility, economic sustainability, environmental sustainability, sustainable events, and education, inclusivity, supply side, and technology and sustainability. The book concludes with a discussion by the editors of the debates in event sustainability with a view to identify emerging issues and future research agendas. This handbook will be of pivotal interest to scholars, students, and policy makers working in events, tourism, and hospitality management.
