Ontology and Alterity in Merleau-Ponty Galen A. Johnson, Michael Bradley Smith, 1990 McAllestar computer science MIT describes ONTIC the interactive system for verifying represents a significant change of direction in the field of mechanical deduction a key area in computer science and artificial intelligence Fourteen interrelated essays comprise a multifaceted dialogue about intersubjectivity reciprocity and the nature of self and other especially as these themes are developed in Merleau Ponty's *The Visible and the invisible* The question they explore is whether the reversible alterity of sensing and being sensed a theme at the heart of Merleau Ponty's thought is sufficient for understanding the alterity of other persons and of nature Annotation copyrighted by Book News Inc Portland OR

Merleau-Ponty, Interiority and Exteriority, Psychic Life and the World Dorothea Olkowski, James Morley, 1999-09-09 Explores Merleau Ponty's approach of taking the phenomenon of the body out of the dualistic constraints of interior and exterior and the consequences thereof

Merleau-Ponty and the Ethics of Intersubjectivity Anya Daly, 2016-05-31 This book draws on Merleau Ponty's phenomenology psychology neuroscience and Buddhist philosophy to explicate Merleau Ponty's unwritten ethics Daly contends that though Merleau Ponty never developed an ethics per se there is significant textual evidence that clearly indicates he had the intention to do so This book highlights the explicit references to ethics that he offers and proposes that these allied to his ontological commitments provide the basis for the development of an ethics In this work Daly shows how Merleau Ponty's relational ontology in which the interdependence of self other and world is affirmed offers an entirely new approach to ethics In contrast to the top down ethics of norms obligations and prescriptions Daly maintains that Merleau Ponty's ethics is a bottom up ethics which depends on direct insight into our own intersubjective natures the I within the we and the we within the I insight into the real nature of our relation to others and the particularities of the given situation Merleau Ponty and the Ethics of Intersubjectivity is an important contribution to the scholarship on the later Merleau Ponty which will be of interest to graduate students and scholars Daly offers informed readings of Merleau Ponty's texts and the overall approach is both scholarly and innovative

Merleau-Ponty's Phenomenology of Language Dimitris Apostolopoulos, 2019-09-06 Merleau Ponty's status as a philosopher of perception is well established but his distinctive contributions to the philosophy and phenomenology of language have yet to be fully appreciated Through detailed clear and accessible analyses of Merleau Ponty's views of linguistic meaning expression and understanding and by tracing the evolution and development of these views throughout the course of his philosophical career Merleau Ponty's *Phenomenology of Language* offers a global and comprehensive picture of his engagement with the philosophy of language This book demonstrates that the phenomenology of language is essential for grasping the meaning and motivations behind some of Merleau Ponty's most celebrated philosophical contributions It argues that his philosophy of

language should take on a central role in our appraisal of the development and basic goals of his thought And it suggests that the success of phenomenology's return to the things themselves must be judged not only by the evidence of intuition but also by the labour of expression

philosophy and literature **Symposium - Société Canadienne Pour L'herméneutique Et la Pensée Postmoderne**
,2004 Husserl and Other Phenomenologists Ronny Miron,2018-12-07 Husserl and Other Phenomenologists addresses a fundamental question what is it in the thinking of the founding father of phenomenology Edmund Husserl 1859 1938 that on the one hand enables the huge variety in the phenomenological discourse and at the same time necessitates relying on his phenomenology as a point of departure and an object before which philosophizing is conducted The contributors to this volume each with his or her own focus on a specific figure in the phenomenological school vis vis Husserl s thinking demonstrate that every reference to Husserl is necessarily bound up with modifying his ideas and crossing the boundaries of his phenomenology In this sense and given the insight that Husserlian phenomenology is already imbued with the potential modifications and revisions the post Husserlian phenomenologies may be included together with Husserl in one so called Phenomenological Movement The discussions in the book open for philosophers and intellectuals a window upon phenomenology which has been one of the richest and most influential cultural phenomena since its very appearance at the beginning of the twentieth century The book also conveys the complex interpretive dynamic within which a given framework of ideas becomes a sort of magnetic field with attracting and repelling forces acting on its participants and thanks to which the great ideas of modernity maintain their vitality and relevance a hundred years after their first appearance This book was originally published as a special issue of The European Legacy The Phenomenology of Gravidity Jane Lymer,2016-10-03 The Phenomenology of Gravidity explores the particularity of women s engagements with gestation linking the denial of certain embodied experiences of pregnancy to gender oppression Employing the term gravidity to name the metaphysical condition of having conceived Lymer develops a theory of maternity that emphasises the interactive nature of gestation highlighting the necessity for women to choose to become maternal as an important factor in optimal foetal development Critically drawing on bonding and attachment theory Lymer rethinks debates around abortion adoption and surrogacy which ignore the ethical and practical implications of an understanding of gestation that is necessarily interactive and embodied challenging the view of the pregnant woman as a passive container Through an engagement with the work of Merleau Ponty Levinas and Derrida The Phenomenology of Gravidity offers an ethical feminist framework for a hospitality of gravidity which welcomes the place of the pregnant mother in all her guises while highlighting the medical legal and ethical consequences of failing in this welcome Understanding Existentialism Dr. Jack Reynolds,2014-12-18 Understanding Existentialism provides an accessible introduction to existentialism by examining the major themes in the work of Heidegger Sartre Merleau Ponty and de Beauvoir Paying particular attention to the key texts Being and Time Being and Nothingness Phenomenology of Perception The Ethics of Ambiguity and The Second Sex the book explores the shared concerns and the disagreements between these major thinkers The fundamental existential themes examined include freedom death finitude and mortality phenomenological experiences and moods such as anguish angst nausea boredom and fear an emphasis upon

authenticity and responsibility as well as the denigration of their opposites inauthenticity and Bad Faith a pessimism concerning the tendency of individuals to become lost in the crowd and even a pessimism about human relations more generally and a rejection of any external determination of morality or value Finally the book assesses the influence of these philosophers on poststructuralism arguing that existentialism remains an extraordinarily productive school of thought

Thinking through French Philosophy Leonard Lawlor, 2003-06-20 no other book undertakes to relate all these French philosophers to each other the way that Lawlor does brilliantly François Raffoul For many Jacques Derrida Michel Foucault and Gilles Deleuze represent one of the greatest movements in French philosophy But these philosophers and their works did not materialize without a philosophical heritage In *Thinking through French Philosophy* Leonard Lawlor shows how the work of Maurice Merleau Ponty formed an important current in sustaining the development of structuralism and post structuralism Seeking the point of diffraction or the specific ideas and concepts that link Derrida Foucault and Deleuze Lawlor discovers differences and convergences in these thinkers who worked the same terrain Major themes include metaphysics archaeology language and documentation expression and interrogation and the very experience of thinking Lawlor's focus on the experience of the question brings out critical differences in immanence and transcendence This illuminating and provocative book brings new vitality to debates on contemporary French philosophy Terms of Continental Philosophy Steven Galt Crowell, Margaret A. Simons, 2002 Profiles in Contemporary Social Theory Anthony Elliott, Bryan S Turner, 2001-05-18 This comprehensive book provides an indispensable introduction to the most significant figures in contemporary social theory Grounded strongly in the European tradition the profiles include Michel Foucault Jürgen Habermas Roland Barthes Jean Baudrillard Pierre Bourdieu Zygmunt Bauman Martin Heidegger Fredric Jameson Richard Rorty Nancy Chodorow Anthony Giddens Stuart Hall Luce Irigaray and Donna Haraway In guiding students through the key figures in an accessible and authoritative fashion the book provides detailed accounts of the development of the work of major social theorists and charts the relationship between different traditions of social cultural and political thought *Profiles in Contemporary Social Theory* will become a major reference work in the field of social theory because it offers in depth commentaries that comprehensively examine the contents contexts and critical evaluation of key theorists of the day Identity and Difference Rafael Winkler, 2018-10-19 This collection reflects recent discussions on the relation between identity and difference in metaphysics and in moral and political theory in both the analytic and continental traditions The contributions to the volume tackle such issues as the role and place of the concept of identity in Hegel's *Science of Logic* the question of personal identity in Parfit, Ricoeur and Schechtman the problem of inclusion and exclusion in Heidegger's reading of the history of philosophy Heidegger's conception of the relation between philosophy and politics the question of alterity in Levinas and Foucault's conception of the relation between sexual instinct economic interest and desire This book was originally published as a special issue of the *Journal of the British Society for Phenomenology* **Speed and Micropolitics** Simon Glezos, 2020-10-04

This book provides a theoretical framework for understanding the micropolitics of speed a rich nuanced and embodied account of life in an accelerating world What does it feel like to live in an era of profound social acceleration What kinds of affects perceptions and identities does an accelerating world produce The answers to these questions mean more than simply understanding the psychology of speed they also mean understanding issues in contemporary politics as diverse as xenophobia and anti immigration policies patterns of transnational identification and solidarity social isolation and alienation and the ability of new media to coordinate social movements While drawing extensively on the work of contemporary theorists Simon Glezos recognizes that social acceleration is not a purely recent phenomenon He therefore turns to thinkers such as Nietzsche Spinoza Bergson and Merleau Ponty to ask how they sought to understand and respond to the rapid changes and unsettling temporalities of their eras and how their insights can be applied to our own Advancing theoretical understanding and offering a useful way to analytically conceptualize the nature of time *Speed and Micropolitics* will be of interest to students and scholars studying affect theory theories of the body new materialism phenomenology as well as the history of political thought

Eco-Phenomenology Charles S. Brown, Ted Toadvine, 2012-02-01 This groundbreaking collection explores the intersection of phenomenology with environmental philosophy It examines the relevance of Husserl Heidegger Merleau Ponty and Levinas for thinking through the philosophical dilemmas raised by environmental issues and then proposes new phenomenological approaches to the natural world The contributors demonstrate phenomenology's need to engage in an ecological self evaluation and to root out anthropomorphic assumptions embedded in its own methodology Calling for a reexamination of beliefs central to the Western philosophical tradition this book shifts previously marginalized environmental concerns to the forefront and blazes a trail for a new collaboration between phenomenologists and ecologically minded theorists
