Poem Behind The Poem Translating Asian Poetry:

The Poem Behind the Poem Frank Stewart, 2004 The translator must keep faith with the deeper need that poetry fulfills in our lives to discover not what the poem says but what it does Tony Barnstone in his essay Poem Behind the Poem The translation of Asian poetry into Western languages has been one of the most important literary events over the past one hundred years Readers have fallen in love with Asian poetry and writers have been greatly influenced by it What neither reader nor writer ever witness is the intense engagement behind the poem how the translator must serve as both artist and alchemist urging a poem to work and sing in a foreign language Success is rare and the practice of translation as W S Merwin has written is plainly impossible and nevertheless indispensable This endlessly fascinating anthology the first of its kind gathers essays poems in translation and worksheets from twenty one noted translators who discuss their aspirations methods and the forces of imagination necessary to bring a poem from one language into another Languages discussed include Chinese both ancient and modern Japanese Korean Vietnamese Khmer and Sanskrit A truly apt translation of a poem may require an effort of imagination almost as great as the making of the original The translator who wishes to enter the creative territory must make an intellectual and imaginative jump into the mind and world of the poet and no dictionary will make this easier Gary Snyder on translating the Chinese poet Han shan Contributors include Gary Snyder Willis Barnstone Jane Hirshfield J P Seaton John Balaban Michelle Yeh Arthur Sze W S Merwin and Sam Hamill

Twentieth-century Chinese Translation Theory Tak-hung Leo Chan, 2004-01-01 Past attempts at writing a history of Chinese translation theory have been bedeviled by a chronological approach which often forces the writer to provide no more than a list of important theories and theorists over the centuries Or they have stretched out to almost every aspect related to translation in China so that the historical political backdrop that had an influence on translation theorizing turns out to be more important than the theories themselves In the present book the author hopes to devote exclusive attention to the ideas themselves The approach adopted centers around eight key issues that engaged the attention of theorists through the course of the twentieth century in the hope that a historical account will be presented that is not time bound On the basis of 38 articles translated into English by teachers and scholars of translation the author has written four essays discussing the Chinese characteristics of this body of theory Separately they focus on the impressionistic the modern the postcolonial and the poststructuralist approaches deployed by leading Chinese theorists from 1901 to 1998 It is hoped that publication of this book will make possible cross cultural dialogue with translation academics in the West although the general reader will find much firsthand information on Chinese thinking about translation

A History of Western Appreciation of English-translated Tang Poetry Lan Jiang, 2018-03-08 This book examines the development of English translated Tang poetry and its propagation to the Western world It consists of two parts the first of which addresses the initial stage of English translated Tang poetry's propagation and the second exploring its further development By analyzing the historical background and characteristics of these two stages the book traces the trend back to its roots discusses some well known early sinologists and their contributions and familiarizes readers with the general course of Tang poetry's development In addition it presents the translated versions of many Tang poems The dissemination of Tang poetry to the Western world is a significant event in the history of cross cultural communication From the simple imitation of poetic techniques to the acceptance and identification of key poetic concepts the Tang poetry translators gradually constructed a classic Chinese style in modern American poetry Hence the traditional Chinese culture represented by Tang poetry spread more widely in the English speaking world producing a more lasting impact on societies and cultures outside China and demonstrating the poetry's ability to transcend the boundaries of time region nationality and culture Due to different cultural backgrounds the Tang poets or poems admired most by Western readers may not necessarily receive high acclaim in China Sometimes language barriers and cultural differences make it impossible to represent certain allusions or cultural and ethnic concepts correctly during the translation process However in recent decades the translation of Tang poetry has evolved considerably in both quantity and quality As culture is manifested in language and language is part of culture the translation of Tang poetry has allowed Western scholars to gain an unprecedented understanding of China and Chinese culture
