Nineteenth century Hawaiian sovereigns celebrated Native tradition history and modernity by intertwining indigenous conceptions of superior chiefly leadership with the apparatus and symbols of Asian American and European rule The resulting symbolic forms speak to cultural intersections and historical processes claims about distinctiveness and commonality and the power of objects institutions and public display to create meaning and enable action The Arts of Kingship pursues questions regarding the nature of cultural exchange how precolonial visual culture engaged and shaped colonial contexts and how colonial art informs postcolonial visualities and identities It will be welcomed by readers with a general and scholarly interest in Hawaiian history and art As it contributes to discussions about colonial cultures nationalism and globalization this interdisciplinary work will appeal to art and architectural historians as well as those studying Pacific history cultural and museum studies and anthropology *Hawaiian Sculpture* J.
