Cassano, Rima Lunin Schultz, Jessica Payette, 2018-11-26 In Eleanor Smith's *Hull House Songs: The Music of Protest and Hope* in Jane Addams's Chicago the authors republish *Hull House Songs* 1916 together with critical commentary. *Hull House Songs* contains five politically engaged compositions written by the Hull House music educator Eleanor Smith. The commentary that accompanies the folio includes an examination of Smith's poetic sources and musical influences, a study of Jane Addams's aesthetic theories, and a complete history of the arts at Hull House. Through this focus upon aesthetic and cultural programs at Hull House, the authors identify the external and internalized forces of domination, class position, racial identity, patriarchal disenfranchisement that limited the work of the Hull House women, while also recovering the sometimes hidden emancipatory possibilities of their legacy. With an afterword by Jocelyn Zelasko.

The Women Founders Patricia Madoo Lengermann, Gillian Niebrugge, 2006-12-31 An essential volume for anyone interested in the history of sociology, the development of sociological theory, or the history of women in the profession, this well-researched, compellingly argued book makes the case for the active and significant presence of women in the creation of sociology and social theory in its founding and classic periods. Further, Lengermann and Niebrugge explain how the women came to be erased from the history of sociology and identify the political and intellectual currents that now make their recovery both possible and important. The volume focuses on 15 women in eight chapters. Each chapter begins with a biographical sketch situating each thinker's ideas in a historical, social, and cultural context. Next, the authors analyze the woman's theory, summarizing its underlying assumptions, explicating its major themes, and introducing key vocabulary. The chapter concludes with excerpts from the original texts of the women founders. All the theories discussed in this text share a moral commitment to the idea that sociology should and could work for the alleviation of socially produced human pain. The ethical duty of the sociologist is to seek sound scientific knowledge, to refuse to make the knowledge an end in itself, to speak for the disempowered, to advocate social reform, and to never forget that the appropriate relationship between researcher and subject is one of mutuality.

Women and the Historical Enterprise in America: Gender, Race and the Politics of Memory Julie Des Jardins, 2004-07-21 In *Women and the Historical Enterprise in America* Julie Des Jardins explores American women's participation in the practice of history from the late nineteenth century through the end of World War II a period in which history became professionalized as an increasingly masculine field of scientific inquiry Des Jardins shows how women nevertheless transformed the profession during these years in their roles as writers preservationists educators archivists government workers and social activists Des Jardins explores the work of a wide variety of women historians both professional and amateur popular and scholarly conservative and radical white and nonwhite Although their ability to earn professional credentials and gain research access to official documents was limited by their gender and often by their race these historians addressed important new questions and represented social groups traditionally omitted from the historical record such as workers African Americans Native Americans and religious minorities Assessing the historical contributions of Mary Beard Zora Neale Hurston Angie Debo Mari Sandoz Lucy Salmon Mary McLeod Bethune Dorothy Porter Nellie Neilson and many others Des Jardins argues that women working within the broadest confines of the historical enterprise collectively brought the new perspectives of social and cultural history to the study of a multifaceted American past In the process they not only developed the field of women's history but also influenced the creation of our national memory in the twentieth century

Pacifism as War Abolitionism Cheyney Ryan, 2024-03-12 Responding to the unprecedented violence of our times and the corresponding interest in nonviolent solutions this book takes up the heart of pacifism its critique of what pacifists have termed the war system Pacifism as War Abolitionism provides an account of the war system that draws on contemporary sociology history and political philosophy The core of its critique of that system is that war begets war and hence war will not be ended or even constrained by finding more principled ways to fight war as many imagine War can only be ended by ending the war system which can only be done nonviolently This has been the message of pacifism's great voices like Gandhi Dr Martin Luther King Jr and Dorothy Day It is the principal message of this book Key Features Draws extensively on the sociological and historical research on war to expand the usual philosophical discussion beyond hypothetical accounts Expands the dialogues on the ethics of war beyond just war theory to its principal alternative pacifism Engages discussion of empire and imperialism in relation to the logic and development of the war system Presents pacifism's response to the reality of war today including the idea of never ending war

[The SAGE Handbook of Feminist Theory](#) Mary Evans, Clare Hemmings, Marsha Henry, Hazel Johnstone, Sumi Madhok, Ania Plomien, Sadie Wearing, 2014-08-12 At no point in recorded history has there been an absence of intense and heated discussion about the subject of how to conduct relations between women and men This Handbook provides a comprehensive guide to these omnipresent issues and debates mapping the present and future of thinking about

feminist theory The chapters gathered here present the state of the art in scholarship in the field covering Epistemology and marginality Literary visual and cultural representations Sexuality Macro and microeconomics of gender Conflict and peace The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been and are organized The authors bring a shared commitment to the critical appraisal of gender relations as well as a recognition that to think theoretically is not to detach concerns from lived experience but to extend the possibilities of understanding With this focus on theory and theorizing about the world in which we live this Handbook asks us across all disciplines and situations to abandon our taken for granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism It is an essential reference work for advanced students and academics not only of feminist theory but of gender and sexuality across the humanities and social sciences
