Singularity and Transnational Poetics Birgit Mara Kaiser, 2014-12-05 Over the past decade singularity has been a prominent term in a broad range of fields ranging from philosophy to literary and cultural studies to science and technology studies This volume intervenes in this broad discussion of singularity and its various implications proposing to explore the term for its specific potential in the study of literature Singularity and Transnational Poetics brings together scholars working in the fields of literary and cultural studies translation studies and transnational literatures The volume's central concern is to explore singularity as a conceptual tool for the comparative study of contemporary literatures beyond national frameworks and by implication as a tool to analyze human existence Contributors explore how singularity might move our conceptions of cultural identity from prevailing frameworks of self other toward the premises of being as singular plural Through a close reading of transnational literatures from Ireland Germany the Netherlands France and South Africa this collection offers a new approach to reading literature that will challenge a reader's established notions of identity individuality communicability and social cohesion [Losing the Plot](#) Leon de Kock, 2016-09-01 In *Losing the Plot* well known scholar and writer Leon de Kock offers a lively and wide ranging analysis of postapartheid South African writing which he contends has morphed into a far more flexible and multifaceted entity than its predecessor If postapartheid literature's founding moment was the transition to democracy writing over the ensuing years has viewed the Mandelaplan project with

increasing doubt Instead authors from all quarters are seen to be reporting in different ways and from divergent points of view on what is perceived to be a pathological public sphere in which the plot the mapping and making of social betterment appears to have been lost The compulsion to detect forensically the actual causes of such loss of direction has resulted in the prominence of creative nonfiction A significant adjunct in the rise of this is the new media which sets up a wounded space within which a cult of commiseration compulsively and repeatedly plays out the facts of the day on people s screens This De Kock argues is reproduced in much postapartheid writing And although fictional forms persist in genres such as crime fiction with their tendency to overplot more serious fiction underplots yielding to the imprint of real conditions to determine the narrative construction

essays reflects three broad goals aligning the South African dimension of Coetzee's writing with his late modernist aesthetic exploring the relationship between Coetzee's novels and his essays on linguistics and paying particular attention to his more recent fictional experiments These objectives are realized in essays focusing on among other matters the function of names and etymology in Coetzee's fiction the vexed relationship between art and politics in apartheid South Africa the importance of film in Coetzee's literary sensibility Coetzee's reworkings of Defoe the paradoxes inherent in confessional narratives ethics and the controversial politics of reading Disgrace intertextuality and the fictional self consciousness of Slow Man Through its pronounced emphasis on the novelist's later work the collection points towards a narrato political and linguistic reassessment of the Coetzee canon

J. M. Coetzee and the Ethics of Reading Derek Attridge, 2021-04-10 Nobel Prize winning novelist J M Coetzee is one of the most widely taught contemporary writers but also one of the most elusive Many critics who have addressed his work have devoted themselves to rendering it more accessible and acceptable often playing down the features that discomfort and perplex his readers Yet it is just these features Derek Attridge argues that give Coetzee s work its haunting power and offer its greatest rewards Attridge does justice to this power and these rewards in a study that serves as an introduction for readers new to Coetzee and a stimulus for thought for those who know his work well Without overlooking the South African dimension of his fiction Attridge treats Coetzee as a writer who raises questions of central importance to current debates both within literary studies and more widely in the ethical arena Implicit throughout the book is Attridge s view that literature more than philosophy politics or even religion does singular justice to our ethical impulses and acts Attridge follows Coetzee s lead in exploring a number of issues such as interpretation and literary judgment responsibility to the other trust and betrayal artistic commitment confession and the problematic idea of truth to the self

The Columbia Guide to South African Literature in English Since 1945 Gareth Cornwell, Dirk Klopper, Craig MacKenzie, 2010 From the outset South Africa s history has been marked by division and conflict along racial and ethnic lines From 1948 until 1994 this division was formalized in the National Party s policy of apartheid Because apartheid intruded on every aspect of private and public life South African literature was preoccupied with the politics of race and social engineering Since the release from prison of Nelson Mandela in 1990 South Africa has been a new nation in the making inspired by a nonracial idealism yet beset by poverty and violence South African writers have responded in various ways to Njabulo Ndebele s call to rediscover the ordinary The result has been a kaleidoscope of texts in which evolving cultural forms and modes of identity are rearticulated and explored An invaluable guide for general readers as well as scholars of African literary history this comprehensive text celebrates the multiple traditions and exciting future of the South African voice Although the South African Constitution of 1994 recognizes no fewer than eleven official languages English has remained the country s literary lingua franca This book offers a narrative overview

of South African literary production in English from 1945 to the postapartheid present An introduction identifies the most interesting and noteworthy writing from the period Alphabetical entries provide accurate and objective information on genres and writers An appendix lists essential authors published before 1945
