together before a human community develops to the level of sophistication commonly referred to as civilization. The first is the existence of settlements classifiable as towns or cities. This requires food production to be efficient enough for a large minority of the community to be engaged in more specialized activities such as the creation of imposing buildings or works of art, the practice of skilled warfare and above all the administration of a centralized bureaucracy capable of running the machinery of state. Despite the major role played by Central Asia in shaping the history of the past and of today, this vast region stretching from the Caspian Sea to Mongolia and western China had not been studied as a whole cultural entity in time and space. This multi-volume *History of Civilizations of Central Asia* published in English is the first attempt to present a comprehensive picture of the cultures that flourished and vanished at the heart of the Eurasian continent from the dawn of civilization to the present day. The book is an engaging and thought-provoking philosophical account that demonstrates that critical inquiry is an ongoing process with strains of continuity and evolution of civilizations. Abolition and Its Aftermath in the Indian Ocean Africa and Asia Gwyn Campbell, 2013-01-11. This important collection of essays examines the history and impact of the abolition of the slave trade and slavery in the Indian Ocean World, a region stretching from Southern and Eastern Africa to the Middle East, India, Southeast Asia and the Far East. Slavery studies have traditionally concentrated on the Atlantic slave trade and slavery in the Americas. In comparison, the Indian Ocean World slave trade has been little explored although it started some 3,500 years before the Atlantic slave trade and persists to the present day. This volume, which follows a collection of essays *The Structure of Slavery in Indian Ocean Africa and Asia* Frank Cass 2004, examines the various abolitionist impulses indigenous and European in the Indian Ocean World during the nineteenth and twentieth centuries. It assesses their efficacy within a context of a growing demand for labour resulting from an expanding international economy and European colonisation. The essays show that in applying definitions of slavery derived from the American model, European agents in the region failed to detect or deliberately ignored other forms of slavery and as a result the abolitionist impulse was only partly successful with the slave trade still continuing today in many parts of the Indian Ocean World. **The Saturday Review of Politics, Literature, Science and Art**, 1858 The Athenæum, 1853
