Looking At Iran:

Iran Looking East Annalisa Perteghella, 2020-01-12 In February 2018 anticipating the US withdrawal from the JCPOA Iran's Supreme Leader Ayatollah Ali Khamenei declared a policy of preferring East over West thus paving the way for deeper cooperation with Asian powers such as China Russia and India Differently from the Look East policy promoted during the presidency of Ahmadinejad 2005-2013 the current Iranian strategy is not only functional to escape the US led isolation but it rather seems devoted to the consolidation of a block of power which can commit to security and economic schemes in alternative to the Western dominated ones This ISPI report aims to answer few crucial questions Which are the major initiatives promoted within Iran's Look East 20 strategy To what extent will Tehran succeed in creating a solid Eastern block What will be the influence of the wider geopolitical context And finally what role is left for the EU Through the Looking Glass Anu Sharma, 2022-01-31 This book analyses Iran's foreign policy in order to better assess its relations with India and the factors that are propelling the two nations closer In a region susceptible to power plays how far can India Iran partnership go This book will be of interest to scholars of International Relations Iranian Politics and Iranian Foreign Policy Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka

Social Change in Iran Behzad Yaghmaian, 2012-02-01 *Social Change in Iran* is an inquiry into the recent changes in Iran blending scholarly analysis, eyewitness accounts and the author's personal experiences. It tells the stories of everyday people, be it young men and women challenging the cultural and social mandates of the Islamic Republic or workers toiling at multiple jobs to overcome harsh economic realities. This passionate homage to the people of Iran as told by a native is a glimpse into the human feelings and aspirations of a people subjected to varying forms of violence at home and widespread misunderstanding abroad. At the same time, Yaghmaian provides an informed analysis of the widening political divide within the state and the emergence of a movement for reform, both of which have shaken the seemingly indisputable foundations of the Islamic Republic.

China and India Hong Zhao, 2013-06-19 The book sheds understanding on the relations between development and global energy security by looking at China and India. It addresses the following issues: what is the new definition of energy security; how does it affect global politics and international relations; What are the energy security concerns of China and India and what policies and approaches have they taken to deal with energy security issues. Since China and India are searching for oil and gas in the Middle East, Africa and Southeast Asia, will their acquisition efforts conflict with the interests of other energy giants such as the U.S., Japan and will their growing overseas activities challenge U.S. policy in those energy rich regions? The book provides insight into what the new global energy order may be and how the growth models and energy structures may shape the economic growth and energy. It analyzes both the state centered approach and market oriented approach in the global quest for energy resources. It also examines how China and India can adopt a cooperative approach for beneficial relations. The book will be of interest to anyone who is keen to learn how the World, especially U.S.A. can accommodate and adapt to the new global energy dynamics.
