Federico García Lorca and the Culture of Male

Homosexuality Ángel Sahuquillo, 2007-05-31 Spain in the twentieth century gave birth to an array of astounding artistic and literary talent including the passionately iconoclastic writer Federico García Lorca. But his works were ill received in the homophobic atmosphere of institutionalized Spanish criticism. Because of this atmosphere even today's critics have effectively marginalized and disavowed intimations of homo affectivity and homoeroticism in the great Spanish works. This book first appeared in Spain in 1991 as counter discourse against those prevailing ideological structures. Before its appearance no significant work had focused on the position of Spanish culture towards homosexuality or on how homosexuality could affect the works of canonical writers. Engaging with homosexuality as an imperative source of meaning in artistic work, this volume rigorously studies the works of Federico García Lorca and several of his marginalized homosexual contemporaries including Emilio Prados, Luis Cernuda, Juan Gil Albert and Salvador Dalí. The study relies on the textual evidence presented by these authors to define the homosexual culture as one plagued by the realities of rejection, fear of the law, self-doubts, the lack of an authorized language with which to convey emotions, the awareness of disgust around the individual, the need to accept marginality to find sexual or emotional satisfaction, and the knowledge of one's own social divergence, all of which have an enormous influence on any artist's work. With this new and updated translation, this work offers English speaking readers the opportunity to focus on formal aspects of literary expressions of homosexuality. **La**

García Lorca at the Edge of Surrealism

David F. Richter, 2014-10-15 *García Lorca at the Edge of Surrealism: The Aesthetics of Anguish* examines the variations of surrealism and surrealist theories in the Spanish context studied through the poetry, drama, and drawings of Federico García Lorca (1898-1936). In contrast to the idealist and subconscious tenets espoused by surrealist leader André Breton, which focus on the marvelous, automatic creative processes, and sublimated depictions of reality, Lorca's surrealist impulse follows a trajectory more in line with the theories of French intellectuals such as Georges Bataille (1897-1962), who was expelled from Breton's authoritative group. Bataille critiques the lofty goals and ideals of Bretonian surrealism in the pages of the cultural and anthropological review *Documents* (1929-1930) in terms of a dissident surrealist ethnopoetics. This brand of the surreal underscores the prevalence of the bleak or darker aspects of reality: crisis, primitive sacrifice, the death drive, and the violent representation of existence portrayed through formless base matter such as blood, excrement, and fragmented bodies. The present study demonstrates that Bataille's theoretical and poetic expositions, including those dealing with the formless and the somber emptiness of the void, engage the trauma and anxiety of surrealist expression in Spain, particularly with reference to the anguish, desire, and death that figure so prominently in Spanish texts of the 1920s and 1930s, often

qualified as surrealist Drawing extensively on the theoretical cultural and poetic texts of the period Garc a Lorca at the Edge of Surrealism offers the first book length consideration of Bataille s thinking within the Spanish context examined through the work of Lorca a singular proponent of what is here referred to as a dissident Spanish surrealism By reading Lorca s surrealist texts including Poeta en Nueva York Viaje a la luna and El p blico through the Bataillean lens this volume both amplifies our understanding of the poetry and drama of one of the most important Spanish writers of the twentieth century and expands our perspective of what surrealism in Spain means
