Winners, Losers & Microsoft Stan J. Liebowitz, Stephen E. Margolis, 2001-03-01 Have the antitrust actions by the Department of Justice against Microsoft and other firms really intended to protect consumers or are they politically motivated attempts to help competitors achieve what they could not achieve in the marketplace Can dominant companies in a market such as Microsoft lock in inferior technologies and thereby stifle innovation and would be competitors Do network effects the fact that some products such as telephones and fax machines increase in value as more people use them result in monopolies even if dominant companies do not seek to create monopolies Do the current antitrust laws discourage entrepreneurship and innovation Will the robust high tech competition and tremendous technological advances of recent years continue if government steps up its antitrust actions **Winners Losers** Microsoft addresses such questions and sheds light on the real workings of the high tech markets Through extensive research and insightful analysis Professors Liebowitz and Margolis shatter many long held beliefs about competition in the high technology industries Among their surprising findings Software prices fall dramatically in markets where Microsoft is a major player but prices show no strong tendency to fall over time if Microsoft is not a factor in a given market Claims that dominant but inferior technologies can lock out better competitive products are not supported by the data This not only applies to software but also to other technology markets i e VHS vs Beta video recorder battles Superior products tend to dominate in high technology even if inferior products are backed by lots of money For example Intuit s Quicken has dominated Microsoft Money for several years despite intensive efforts by Microsoft to promote Money And AOL has significantly increased its market share in recent years even through Microsoft incorporated software for the Microsoft Network into its Windows operating system Liebowitz and Margolis demonstrate how a high tech company can go from a dominant market leader as Lotus once was in spreadsheets to an also ran with astonishing speed They show that free markets in high technology do a remarkable job of continually delivering better products at lower prices to consumers **Winners Losers** Microsoft makes a compelling case that the real danger to American high technology leadership is a too powerful too intrusive government which believes it knows consumer preferences and needs better than they do This book is a cogent tightly argued rebuttal to frequent calls for greater government intervention in the high technology markets *Audio Recording for Profit* Chris Stone, 2012-11-12 This book is the first real inside look at the business of professional audio recording which fuels a multibillion dollar global music industry Industry pioneer Chris Stone founder of the legendary Record Plant provides hard earned business strategies guidelines and advice on every aspect of launching and managing a professional audio recording business This book is for every audio profit center from the project studio in the garage to the multi room diversified recording facility With 30 years of practical business experience Mr Stone reveals the secrets of profitable survival in the pro audio world of today and tomorrow Why be a player in the professional audio recording industry What is the attraction and potential payoff How big an operation are you

Big Winners and Big Losers Alfred Allen Marcus, 2006 What keeps great companies winning year after year even as yesterday's most hyped businesses fall by the wayside? It's not what you think or what you've read. To find the real answers, strategic management expert Alfred Marcus systematically reviewed detailed performance metrics for the 1,000 largest U.S. corporations, identifying 3% who've consistently outperformed their industry's averages for a full decade. Many of these firms get little publicity: firms like Amphenol, Ball Family Dollar, Brown and Brown, Activision, Dreyer's, Forest Labs, and Fiserv. But their success is no accident; they've discovered patterns of success that have largely gone unnoticed elsewhere. Marcus also identified patterns associated with consistently inferior performance patterns reflected in many of the world's most well-known companies. Drawing on this unprecedented research, *Big Winners and Big Losers* shows you what really matters most. You'll learn how consistent winners build the strategies that drive their success, how they move towards market spaces offering superior opportunity, and how they successfully manage the tensions between agility, discipline, and focus. You'll learn how to identify the right patterns of success for your company, build on the strengths you already have, realistically assess your weaknesses, and build sustainable advantage one step at a time in a planned and logical way.

The Filmmaker's Book of the Dead Danny Draven, 2012-11-12 In *The Filmmaker's Necronomicon*, or *Book of the Dead*, award-winning director Danny Draven unlocks the crypt and shows you how to translate your idea into a successful movie that gives your audience nightmares. Budget need not be a limitation; the real-world advice and experience from the author, plus a host of horror directors, producers, writers, cast, and crew, offer a variety of tips, shortcuts, and ideas for producing a quality movie on the cheap. It all starts with the story. You'll learn the storytelling elements that make a horror movie truly frightening to the audience, then master the process of making a horror film from concept to completion, avoiding the pitfalls along the way. This full-color, highly illustrated book also shows you the production techniques that add to the chill factor, including camera techniques, properly showcasing your star, the monster, creating atmosphere through music, adding tension through editing, and more. Distribution and marketing are covered in depth so you can get your movie out there once you've made it. The book includes access to over an hour of video: Get inspiration and ideas from a 20-minute behind-the-scenes featurette from Danny Draven's new 2009 award-winning film *GHOST MONTH* (coming soon from Lions Gate Entertainment); a 10-minute behind-the-scenes featurette from Danny Draven's film *CRYPTZ*; a 10-minute behind-the-scenes featurette from Danny Draven's film *DEATHBED*; a 10-minute behind-the-scenes featurette from Danny Draven's film *DARKWALKER*; The Danny Draven Trailer Reel; Trailers for all 6 feature films; Horror Script Samples PDF files; *Ghost Month* and *Cryptz*.
