States spread across the Pacific between the Philippine American War and World War II Author Moon Ho Jung argues that the US national security state as we know it was born out of attempts to repress and silence colonized subjects from the Philippines and Hawai i to California and beyond whose anticolonial aspirations challenged US claims to sovereignty Jung examines how the contradictions of race nation and empire generated waves of revolutionary movements spanning the Pacific anticolonial antiracist and labor movements that exposed and confronted the US empire In response the US state closely monitored and brutally suppressed those movements by racializing particular politics and distinct communities as seditious exaggerating fears of pan Asian solidarities and sowing anti Asian racism under the guise of national security Menace to Empire transforms familiar themes in American history to highlight the critical role of colonial violence in the formation of radical movements and the antiradical origins of anti Asian racism Radicalized by their opposition to the US empire and racialized as threats to US security peoples in and from Asia pursued a revolutionary politics that gave rise to the national security state the heart and soul of the US empire ever since Provided by publisher Law and Labour Market Regulation in East Asia Sean Cooney,Tim Lindsey,Richard Mitchell,Zhu Ying,2003-08-29 This edited collection examines the labour laws of seven industrializing East Asian societies China Indonesia Malaysia South Korea Taiwan the Philippines and Vietnam and discusses the variation in their impact across the whole region Leading scholars from each country consider both laws pertaining to working conditions and industrial relations and those that regulate the labour market as a whole Legislation concerning migrant labour gender equality employment creation and skills formation is also examined Adopting their own distinct theoretical perspectives the authors trace the historical development of labour regulation and reveal that most countries in the region now have quite extensive frameworks This book will be particularly useful to people interested in the place of labour law and law in general in contemporary East Asian societies **Bundok** Adrian De Leon,2023-11-09 From the late eighteenth century the hinterlands of Northern Luzon and its Indigenous people were in the crosshairs of imperial and capitalist extraction Combining the breadth of global history with the intimacy of biography Adrian De Leon follows the people of Northern Luzon across space and time advancing a new vision of the United States s Pacific empire that begins with the natives and migrants who were at the heart of colonialism and its everyday undoing From the emergence of Luzon s eighteenth century tobacco industry and the Hawaii Sugar Planters Association s documentation of workers to the movement of people and ideas across the Suez Canal and the stories of Filipino farmworkers in the American West De Leon traces the Filipino as a racial category emerging from the labor subjugation archiving and resistance of native people De Leon s imaginatively constructed archive yields a sweeping history that promises to reshape our understanding of race making in the Pacific world *Amazons of the Huk Rebellion* Vina A. Freedom Incorporated Colleen Woods, 2020-05-15 Freedom Incorporated demonstrates how anticommunist political projects were critical to the United States expanding imperial power in the age of decolonization and how anticommunism was essential to the growing global economy of imperial violence in the Cold War era In this broad historical account Colleen Woods demonstrates how in the mid twentieth century Philippines US policymakers and Filipino elites promoted the islands as a model colony In the wake of World War II as the decolonization movement strengthened those same political actors pivoted and after Philippine independence in 1946 lauded the archipelago as a successful postcolonial democracy Officials at Malaca ang Palace and the White House touted the 1946 signing of the liberating Treaty of Manila as a testament to the US commitment to the liberation of colonized people and celebrated it under the moniker of Philippine American Friendship Day Despite elite propaganda from the early 1930s to late 1950s radical movements in the Philippines highlighted US hegemony over the new Republic of the Philippines and in so doing threatened American efforts to separate the US from sordid histories of empire imperialism and the colonial racial order Woods finds that in order to justify US intervention in an ostensibly independent Philippine nation anticommunist Filipinos and their American allies transformed local political struggles in the Philippines into sites of resistance against global communist revolution By linking political struggles over local resources like the Hukbalahap Rebellion in central Luzon to a war against communism American and Filipino anticommunists legitimized the use of violence as a means to capture and contain alternative forms of political economic and social organization Placing the post World War II history of anticommunism in the Philippines within a larger imperial framework in Freedom Incorporated Woods illustrates how American and Filipino intelligence agents military officials paramilitaries state bureaucrats academics and entrepreneurs mobilized anticommunist politics to contain

*Making the Empire Work* Daniel E. Bender, Jana K. Lipman, 2015-07-17 Millions of laborers from the Philippines to the Caribbean performed the work of the United States empire Forging a global economy connecting the tropics to the industrial center workers harvested sugar cleaned hotel rooms provided sexual favors and filled military ranks Placing working men and women at the center of the long history of the U S empire these essays offer new stories of empire that intersect with the grand narratives of diplomatic affairs at the national and international levels Missile defense Cold War showdowns development politics military combat tourism and banana economics share something in common they all have labor histories This collection challenges historians to consider the labor that formed worked confronted and rendered the U S empire visible The U S empire is a project of global labor mobilization coercive management military presence and forced cultural

encounter Together the essays in this volume recognize the United States as a global imperial player whose systems of labor mobilization and migration stretched from Central America to West Africa to the United States itself Workers are also the key actors in this volume Their stories are multi vocal as workers sometimes defied the U S empire s rhetoric of civilization peace and stability and at other times navigated its networks or benefited from its profits Their experiences reveal the gulf between the American denial of empire and the lived practice of management resource exploitation and military exigency When historians place labor and working people at the center empire appears as a central dynamic of U S history
