The Great Depression and the Culture of Abundance Rita Barnard,1995-01-27 Examines the response of American leftist writers from the 1930s to the rise of mass culture and to the continued propagation of the values of consumerism during the Depression It traces in the work of Kenneth Fearing and Nathaniel West certain theoretical positions associated with the Frankfurt school especially Walter Benjamin and with contemporary theorists of postmodernism Modernist Parasites Sebastian Williams,2023-08-22 Modernist Parasites Bioethics Dependency and Literature Post 1900 analyzes biological and social parasites in the political scientific and literary imagination With the rise of Darwinism eugenics and parasitology in the late nineteenth century Sebastian Williams posits that the parasite came to be humanity s ultimate other a dangerous antagonist But many authors such as Isaac Rosenberg John Steinbeck Franz Kafka Clarice Lispector Nella Larsen and George Orwell reconsider parasitism Ultimately parasites inherently depend on others for their survival illustrating the limits of ethical models that privilege the discrete individual above interdependent communities **Encyclopedia of the Novel** Paul Schellinger,2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an entry on an individual novel discusses the importance of that novel not only form analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world **American Jewish Fiction** Josh Lambert,2010-01-01 This new volume in the JPS Guides series is a fiction reader s dream a guide to 125 remarkable works of fiction The selection includes a wide range of classic American Jewish novels and story collections from 1867 to the present selected by the author in consultation with a panel of literary scholars and book industry professionals Roth Mailer Kellerman Chabon Ozick Heller and dozens of other celebrated writers are here with their most notable works Each entry includes a book summary with historical context and background on the author Suggestions for further reading point to other books that match readers interests and favorite writers And the introduction is a fascinating exploration of the history of and important themes in American Jewish Fiction illustrating how Jewish writing in the U S has been in constant dialogue with popular entertainment and intellectual life Included in this guide are lists of book award winners recommended anthologies title author and subject indexes and more **Framing the Margins** Phillip Brian Harper,1994 Treating groups that are

disadvantaged or disempowered whether by circumstance of gender race or sexual orientation the American writers from the 30s to the 50s profiled here occupy the cusp between the modern and the postmodern between the recognizably modernist aesthetic of alienation and the fragmented disordered sensibility of post modernism **Muse in the Machine** Mark Conroy, 2004 A writer who simply panders to the public is seldom taken for an artist An artist who cannot publish is seldom granted a career This dilemma the subject of *Muse in the Machine* has been home to many authors of serious fiction since the eighteenth century But it is especially pointed for American writers since the United States never fostered a sustainable elite culture readership Its writers have always been reliant on mass publicity's machinery to survive and when they depict that machinery they also depict that reliance and the desire to transcend its banal formulas This book looks at artist tales from Henry James to Don DeLillo's *Mao II* but also engages more indirect expressions of this tension between Romantic individualism and commercial requirements in Nathanael West Vladimir Nabokov and Thomas Pynchon It covers the twentieth century but its focus is not another rehearsal of media theory or word versus image Rather it aims to show how various novels about publicity culture also enact their authors own dramas how they both need and try to critique the machine In subject as well as approach this study questions the current impasse between those who say that the aesthetic aspires to its own pure realm and those who insist that it partakes of everyday practicality Both sides are right this book examines the consequences of that reality **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved **The Dream Endures** Kevin Starr, 1997 The fifth volume in Starr's classic history of California *The Dream Endures* shows how Californians rebounded from the Great Depression to emerge in the 1930s into what is now known as the good life Starr illustrates the ways the good life prospered in California in film fiction leisure and architecture Starr looks at the newly important places where Californians lived out this sunny lifestyle areas like Los Angeles where Hollywood lived Palm Springs where Hollywood vacationed San Diego where the Navy went the California Institute of Technology in Pasadena where Einstein changed his view of the universe and college towns like Berkeley In this more than any other of Starr's monumental California histories we see the stirrings of uniqueness in the social and cultural evolution of California Starr's theme is relevant to all of America and the national destiny Neil Morgan San Diego Union Tribune Enormously sensitive and moving Social and cultural history doesn't get any better San Francisco Chronicle In his monumental continuing study of California Kevin Starr belongs in the company of the best Herbert Gold Los Angeles Times Book Review **The Turn Around Religion in America** Michael P. Kramer, 2016-02-24 Playing on the frequently used metaphors of the turn toward or turn back in scholarship on religion *The Turn Around Religion in America* offers a model of religion that moves in a reciprocal relationship between these two poles In particular this volume dedicates itself to a reading of religion and of religious meaning that cannot be reduced to history or ideology on the one hand or to truth or spirit on the other but is rather the product of the constant play between the historical particulars that manifest beliefs and the beliefs

that take shape through them Taking as their point of departure the foundational scholarship of Sacvan Bercovitch the contributors locate the universal in the ongoing and particularized attempts of American authors from the seventeenth century forward to get it whatever that it might be right Examining authors as diverse as Pietro di Donato Herman Melville Miguel Algarin Edward Taylor Mark Twain Robert Keayne Nathaniel Hawthorne Paule Marshall Stephen Crane Ralph Waldo Emerson and Joseph B Soloveitchik among many others and a host of genres from novels and poetry to sermons philosophy history journalism photography theater and cinema the essays call for a discussion of religion s powers that does not seek to explain them as much as put them into conversation with each other Central to this project is Bercovitch s emphasis on the rhetoric ritual typology and symbology of religion and his recognition that with each aesthetic enactment of religion s power we learn something new

Live All You Can Jay Martin,2009 Laying waste to the notion that Abner Doubleday established the modern game of baseball acclaimed biographer Jay Martin makes a bold case for A J Cartwright 1820 1892 an entrepreneur philanthropist and avid ballplayer whose keen perception and restless spirit codified the rules of the sport and engineered its rapid spread throughout the country Consulting Cartwright s personal correspondence and papers Martin shows how this American archetype synthesized a number of elements from popular ballgames into the program bylaws and positions we find on the field today After formalizing his blueprint Cartwright worked tirelessly to promote baseball nationwide appealing to both upper and lower class spectators and ballplayers and weaving a trail of influence across nineteenth century America Addressing the controversy that has roiled for years around the claims for Doubleday and Cartwright Martin revisits the original arguments behind each camp and throws into sharp relief the competing ambitions of these figures during a time of aggressive westward expansion and unparalleled opportunities for individual reinvention Martin s story of modern baseball not only offers a fascinating window into a thoroughly American phenomenon but also accesses a rare history of American ideals

Dancing in the Dark: A Cultural History of the Great Depression Morris Dickstein,2010-09-06 From Agee to Astaire Steinbeck to Ellington the creative energies of the Depression against a backdrop of poverty and economic disaster In this timely and long awaited cultural history of the 1930s Morris Dickstein whom Norman Mailer called one of our best and most distinguished critics of American literature explores the anxiety and hope the despair and surprising optimism of distressed Americans at a time of dire economic dislocation Bringing together a staggering range of materials from epic Dust Bowl migrations and sharecropper photographs to zany screwball comedies wildly popular swing bands and streamlined Deco designs this eloquent work highlights the pivotal role of culture and government intervention in hard times Exploding the myth that Depression culture was merely escapist it concentrates instead on the dynamic energy and insight the arts could provide and the enormous lift they gave to the nation s morale *Dancing in the Dark* shows how our worst economic crisis as it eroded American individualism and punctured the American dream produced some of the greatest writing photography and mass entertainment ever seen in this country

Reilly, 2018-05-08 This title was first published in 2003 This text explores the dark pessimistic truth that pervades the pages of modern texts setting a theme of Dante's *Inferno* against the work of modern authors including Dostoyevsky Hardy Conrad Wharton Kafka Camus Waugh and Flannery O Connor The author's thesis is that these writers exhibit a hostility towards the

reader an anger that the reader should continue to be so deludedly happy when the writer has become so mortifyingly enlightened At its most characteristic Reilly demonstrates modern fiction seems to achieve a savage satisfaction in inflicting this pain to an extent that could be described as sadistic Reilly traces what he calls this punitive spirit to a character in the Inferno Vanni Fucci who suffering himself does his best to make Dante suffer too Through the study he uses the Inferno as a guide to the prevailing attitudes in modern fiction revealing a parallel between the prohibition of pity within the medieval poem and in the pages of modern texts *Encyclopedia of the American Novel* Abby H. P. Werlock, 2015-04-22 Praise for the print edition no other reference work on American fiction brings together such an array of authors and texts as this
