Séminaire de Probabilités XL Catherine Donati-Martin, Michel Émery, Alain Rouault, Christophe Stricker, 2007-07-25 Who could have predicted that the Séminaire de Probabilités would reach the age of 40 This long life is first due to the vitality of the French probabilistic school for which the Séminaire remains one of the most specific media of exchange Another factor is the amount of enthusiasm energy and time invested year after year by the Rédacteurs Michel Ledoux dedicated himself to this task up to Volume XXXVIII and Marc Yor made his name inseparable from the Séminaire by devoting himself to it during a quarter of a century Browsing among the past volumes can only give a faint glimpse of how much is owed to them keeping up with the standard they have set is a challenge to the new Rédaction In a changing world where the status of paper and ink is questioned and where alas pressure for publishing is increasing in particular among young mathematicians we shall try and keep the same direction Although most contributions are anonymously refereed the Séminaire is not a mathematical journal our first criterion is not mathematical depth but usefulness to the French and international probabilistic community We do not insist that everything published in these volumes should have reached its final form or be original and acceptance rejection may not be decided on purely scientific grounds
