Campbell, 2011-09-29 A million light years from Earth one solitary spaceship floats through a vast swarm of enemies The ship was an experimental vessel from Earth that utilised a revolutionary new concept in space mechanics developed by the near-superman Aarn Munro The enemy vessels were wholly unknown to Mankind for the new drive had taken the Terran vessel into an unmapped void where not even the telescopes of Earth had ever penetrated before **The Black Star Passes** John W. Campbell, 2011-09-29 THREE AGAINST THE STARS A sky pirate armed with superior weapons of his own invention First contact with an alien race dangerous enough to threaten the safety of two planets The arrival of an unseen dark sun whose attendant marauders aimed at the very end of civilization in this Solar System These were the three challenges that tested the skill and minds of the brilliant team of scientist-astronauts Arcot Wade and Morey Their initial adventures are a classic of science fiction which first brought the name of their author John W. The Three Planeteers Edmond Hamilton, 2011-10-07 From Earth Venus and Mercury three Musketeers of Space accompanied by a female D Artagnan rocket out in a grim battle against the League of the Cold Worlds Excerpt They sauntered through the crowded krypton lit street bordering the great New York spaceport casually as though there was not a reward on their heads An Earthman a Venusian and a huge Mercurian looking merely like three ordinary space sailors in their soiled drab jackets and trousers But inwardly John Thorn the lean dark headed Earthman of the trio was queerly tense He felt the warning of that sixth sense which tells of being watched His brown hard chinned face showed nothing of what he felt and he was smiling as though telling some joke as he spoke to his two companions We re being followed he said I ve felt it since we left the spaceport I don t know who it is Sual Av the bald bow legged Venusian laughed merrily as though at a jest His bright green eyes glistened and there was a wide grin on his ugly froglike face The

police he chuckled Gunner Welk the huge Mercurian growled in his throat His shock of yellow hair seemed to bristle on his head his massive face and cold blue eyes hardening belligerently How in hell s name would the Earth police spot us so quickly after our arrival he muttered I don t think it s the police John Thorn said his black eyes still smiling casually Stop at the next corner and we ll see who passes us At the corner gleamed a luminous red sign THE CLUB OF WEARY SPACEMEN In and out of the vibration joint thus benevolently named were streaming dozens of the motley throng that jammed the blue lit street Reedy looking red Martians squat and surly Jovians hard bitten Earthmen sailors from all the eight inhabited worlds spewed up by the great spaceport nearby There were many naval officers and men too a few in the crimson of Mars the green of Venus and blue of Mercury but most of them in the gray uniform of the Earth Navy Contemporary Science Fiction Authors Robert Reginald,2009-01-01 This bio bibliography of the golden age of the science fiction field includes 308 biographies compiled from questionnaires sent to the authors and chronological lists of 483 writers published works This facsimile reprint of the 1975 edition includes a title index introduction and minor corrections A now classic guide to the major and minor SF writers active in the early 1970s
