Platos Ladder:

Calvin's Ladder Julie Canlis, 2010-06-28 Calvin's Ladder traces the theme of participation in early Christian spirituality then reveals how Calvin reworks it into the heart of his Protestant manifesto on theology from publisher description

Where All the Ladders Start Julian Lovelock, 2023 Who were Shakespeare's Friend and the Dark Lady Why did Donne risk his life and ruin his career for a seventeen year old girl Why did Wordsworth's sister retire to her bed on his wedding day Writing never takes place in a vacuum and much of the finest poetry in the English language has been inspired by particular people patrons spouses lovers friends or just casual acquaintances Whether relegated to an obscurity they do not deserve or thrust into prominence they did not seek their importance to the creative process is inescapable In *Where All the Ladders Start* Julian Lovelock discusses with characteristic incisiveness and enthusiasm nine major British poets and the real lives behind some of their most personal and significant works Along the way he shows how poetry has developed over the past four hundred years and provides suggestions for further reading while for convenience all of the relevant poems and extracts are reproduced in full Written for both the seasoned reader and the student encountering these poems for the first time Lovelock's analysis will inspire and entertain in equal measure

Plato's Ghost Cathy Gutierrez, 2009-09-03 Plato's Ghost examines the Spiritualist movement as the legacy of European esoteric speculation particularly Platonic ideals transformed on a new continent Jacket cover

Plato in Plain English Robert Flix, Tired of wading through dense translations of Plato that make you feel like you need a philosophy degree just to understand the table of contents This book has you covered Plato in Plain English takes the greatest hits of the world's most influential philosopher the Forms the Allegory of the Cave Platonic love the Demiurge the World Soul and more and explains them the way your smartest and slightly sarcastic friend would over coffee Inside you'll find A breezy tour of Plato's life from privileged Athenian aristocrat to the founder of the Academy Why so many of his works are dialogues spoiler they're not actual interviews A closer look at love beauty and the awkward role of pederasty in ancient Athens Plato's wild ideas about triangles cosmic harmony and the universe as a giant living animal His complicated afterlife as a proto Christian an authoritarian dreamer and a pop culture meme What happened when his star student Aristotle spent 20 years taking notes and then said Nice try teacher but no Whether you're curious about philosophy looking to impress someone at a party or just want to know why The Matrix owes a debt to a guy in a toga this book breaks Plato down without breaking your brain Plato was wrong about almost everything but gloriously wrong in ways that shaped two millennia of thought And now you can finally see why without having to suffer through untranslated Greek

Pierced by Love Hans Boersma, 2023-04-19 Holy Scripture requires holy reading Encounter an ancient but fresh way of reading the Bible Learn from Augustine Anselm of Canterbury Bernard of Clairvaux and others Experience a structured and simple way to focus on Christ listen to the Spirit and rest in God's love Jesus is the point of reading the Bible Christians read Scripture to encounter Christ and be conformed to his image Scripture is no mere human text it is God's

living word So how should we read it For Christians throughout the centuries the answer has been *lectio divina* divine reading *em Lectio divina* is a sacramental reading It aims to take us more deeply into the life of God Through practicing the four movements of *emlectio divina* attentive reading extended meditation prayerful reflection and silent resting we have a structured and simple way to focus on Christ listen to the Spirit and rest in God s love We no longer simply read the words of Scripture instead we read the face of God in the eternal Word

Eros and Aphrodite: A Psychological and Philosophical Exploration Pasquale De Marco,2025-07-25 Love is one of the most powerful and mysterious forces in the human experience It can drive us to great heights of joy and passion but it can also lead us to profound depths of despair and sorrow Love has been the subject of countless works of art literature and philosophy throughout history and yet it remains a force that we often struggle to understand In this book we will explore the nature of love from a psychological and philosophical perspective We will draw on the insights of ancient philosophers such as Plato and Aristotle as well as modern psychologists such as Sigmund Freud and Carl Jung We will also explore the different ways that love is experienced and expressed in different cultures and societies Our goal is to provide a deeper understanding of love its origins its nature and its power We will also examine the challenges and rewards of love and how we can cultivate healthy and fulfilling relationships This book is divided into ten chapters each of which explores a different aspect of love In the first chapter we will explore the origins of love and the different theories that have been proposed to explain why we love In the second chapter we will examine the nature of love and the different ways that it can be experienced In the third chapter we will discuss the Platonic Symposium one of the most influential works on love ever written In the fourth chapter we will explore the role of love in the Renaissance and the influence of Neoplatonism on the development of humanism In the fifth chapter we will examine the nature of Romantic love and the ways in which it has been idealized and celebrated in literature and art In the sixth chapter we will discuss the changing nature of love in the modern era and the challenges that we face in maintaining healthy and fulfilling relationships In the seventh chapter we will explore the many different faces of love including parental love romantic love platonic love self love and transcendent love In the eighth chapter we will examine the nature of love and loss and the ways in which we can cope with the loss of a loved one In the ninth chapter we will discuss the psychology of love and the different ways that we can understand and explain our own loving relationships Finally in the tenth chapter we will explore the spiritual dimension of love and the ways in which love can lead us to a deeper understanding of ourselves and our place in the world **Eros and Aphrodite A Psychological and Philosophical Exploration** is an essential read for anyone who wants to understand the nature of love This book will provide you with a deeper understanding of love its origins its nature its power and its challenges You will also learn how to cultivate healthy and fulfilling relationships and how to cope with the loss of a loved one If you like this book write a review

What Algorithms Want Ed Finn,2018-10-09 The gap between theoretical ideas and messy reality as seen in Neal Stephenson Adam Smith and

Star Trek We depend on we believe in algorithms to help us get a ride choose which book to buy execute a mathematical proof It s as if we think of code as a magic spell an incantation to reveal what we need to know and even what we want Humans have always believed that certain invocations the marriage vow the shaman s curse do not merely describe the world but make it Computation casts a cultural shadow that is shaped by this long tradition of magical thinking In this book Ed Finn considers how the algorithm in practical terms a method for solving a problem has its roots not only in mathematical logic but also in cybernetics philosophy and magical thinking Finn argues that the algorithm deploys concepts from the idealized space of computation in a messy reality with unpredictable and sometimes fascinating results Drawing on sources that range from Neal Stephenson s Snow Crash to Diderot s Encyclop die from Adam Smith to the Star Trek computer Finn explores the gap between theoretical ideas and pragmatic instructions He examines the development of intelligent assistants like Siri the rise of algorithmic aesthetics at Netflix Ian Bogost s satiric Facebook game Cow Clicker and the revolutionary economics of Bitcoin He describes Google s goal of anticipating our questions Uber s cartoon maps and black box accounting and what Facebook tells us about programmable value among other things If we want to understand the gap between abstraction and messy reality Finn argues we need to build a model of algorithmic reading and scholarship that attends to process spearheading a new experimental humanities

Secularization without End Vincent P. Pecora, 2015-03-15 In Secularization without End Beckett Mann Coetzee Vincent P Pecora elaborates an alternative history of the twentieth century Western novel that explains the resurgence of Christian theological ideas Standard accounts of secularization in the novel assume the gradual disappearance of religious themes through processes typically described as rationalization philosophy and science replace faith Pecora shows however that in the modern novels he examines secularization ceases to mean emancipation from the prescientific ignorance or enchantment commonly associated with belief and signifies instead the shameful state of a humanity bereft of grace and undeserving of redemption His book focuses on the unpredictable and paradoxical rediscovery of theological perspectives in otherwise secular novels after 1945 The narratives he analyzes are all seemingly godless in their overt points of view from Samuel Beckett s Murphy to Thomas Mann s Doktor Faustus to J M Coetzee s The Childhood of Jesus But Pecora argues these novels wind up producing varieties of religious doctrine drawn from Augustinian and Calvinist claims about primordial guilt and the impotence of human will In the most artfully imaginative ways possible Beckett Mann and Coetzee resist the apparently inevitable plot that so many others have constructed for the history of the novel by which human existence is reduced to mundane and meaningless routines and nothing more Instead their writing invokes a religious past that turns secular modernity and the novel itself inside out

Beauty Natalie Carnes, 2014-11-13 Beauty engages fourth century bishop Gregory of Nyssa to address beauty s place in theology and the broader world With the recent resurgence of attention to beauty among theologians questions still remain about what exactly beauty is how it is perceived and whether we should celebrate its return If beauty fell out of favor

because it was seen to distract from the weightier concerns of poverty and suffering because it can even be a tool of oppression why should we laud it now Gregory's writings offer surprisingly rich and relevant reflections that can move contemporary conversations beyond current impasses and critiques of beauty Drawing Gregory into conversation with such disparate voices as novelist J M Coetzee and art theorist Kaja Silverman Beauty displays the importance of beauty to theology and theology to beauty in a discussion that bridges ancient and modern practical and theoretical secular and religious

Emotion and Reason Warren TenHouten, 2014-06-23 Although much academic work has been done on the areas of mind brain and society a theoretical synthesis of the three levels of analysis the biological the mental and the social has not until now been put forward In Emotion and Reason Warren TenHouten presents a truly comprehensive classification of the emotions The book analyzes six key emotions anger acceptance aggressiveness love joy and happiness and anticipation It places them in historical context relates them to situations of work and intimacy and explains their functioning within an individuated autonomous character structure Divided into four parts the book presents a socioevolutionary theory of the emotions Affect spectrum Theory AST which is based on a synthesis of three models of the emotions of social relationships and of cognition This book will be of value to undergraduate and postgraduate students as well as researchers with an interest in the sociology of emotions anthropology of emotions social psychology affective neuroscience political science behavioral neuroeconomics and philosophy
