Catalogue of the Library of the Late Joseph J. Cooke Joseph Jesse Cooke, 1883 *Edgar Allan Poe, Eureka, and Scientific Imagination* David N. Stamos, 2017-02-28 Explores the science and creative process behind Poe's cosmological treatise In 1848 almost a year and a half before Edgar Allan Poe died at the age of forty his book Eureka was published In it he weaved together his scientific speculations about the universe with his own literary theory theology and philosophy of science Although Poe himself considered it to be his magnum opus Eureka has mostly been overlooked or underappreciated sometimes even to the point of being thought an elaborate hoax Remarkably however in Eureka Poe anticipated at least nine

major theories and developments in twentieth century science including the Big Bang theory multiverse theory and the solution to Olbers paradox In this book the first devoted specifically to Poe s science side David N Stamos a philosopher of science combines scientific background with analysis of Poe s life and work to highlight the creative and scientific achievements of this text He examines Poe s literary theory theology and intellectual development and then compares Poe s understanding of science with that of scientists and philosophers from his own time to the present Next Stamos pieces together and clarifies Poe s theory of scientific imagination which he then attempts to update and defend by providing numerous case studies of eureka moments in modern science and by seeking insights from comparative biography and psychology cognitive science neuroscience and evolution Edgar Allan Poe Eureka and Scientific Imagination is the most comprehensive treatment of Eureka that has yet been published It is staggeringly thorough in its analysis of Poe s book but it also shows how Poe s theories of cosmogony and cosmology ramify into his fiction and poetry especially the tales of ratiocination Stamos takes Eureka seriously and he does so with the empirical undergirding of vast amounts of scientific scholarship and literary criticism James M Hutchisson author of Poe *The Southern Literary Messenger, 1834-1864* Benjamin Blake Minor, 1905 *The Southern Literary Messenger 1834-1864* by Benjamin Blake Minor first published in 1905 is a rare manuscript the original residing in one of the great libraries of the world This book is a reproduction of that original which has been scanned and cleaned by state of the art publishing tools for better readability and enhanced appreciation Restoration Editors mission is to bring long out of print manuscripts back to life Some smudges annotations or unclear text may still exist due to permanent damage to the original work We believe the literary significance of the text justifies offering this reproduction allowing a new generation to appreciate it **A Concise History Of, and Guide Through Mount Auburn** Nathaniel Dearborn, 1843 **Catalogue of the Library, etc** Rochester Athenæum and Mechanics' Association (ROCHESTER, New Hampshire), 1854
