Shores Of Macquarie Island:

Shores of Macquarie Island Isobel Bennett, 1971 Wild Sea Joy McCann, 2019-04-25 This bracing history charts the myths the exploration and the inhabitants of the all too real and wild circumpolar ocean to our south The Sydney Morning Herald Pick of the Week Unlike the Pacific Atlantic Indian and Arctic Oceans with their long maritime histories little is known about the Southern Ocean This book takes readers beyond the familiar heroic narratives of polar exploration to explore the nature of this stormy circumpolar ocean and its place in Western and Indigenous histories Drawing from a vast archive of charts and maps sea captains journals whalers log books missionaries correspondence voyagers letters scientific reports stories myths and her own experiences Joy McCann embarks on a voyage of discovery across its surfaces and into its depths revealing its distinctive physical and biological processes as well as the people species events and ideas that have shaped our perceptions of it The result is both a global story of changing scientific knowledge about oceans and their vulnerability to human actions and a local one showing how the Southern Ocean has defined and sustained southern environments and people over time Beautifully and powerfully written Wild Sea will raise a broader awareness and appreciation of the natural and cultural history of this little known ocean and its emerging importance as a barometer of planetary climate change A sensitive portrait of a complex ecosystem from krill to blue whales and of the ice winds and currents that are critical to the circulation of the world's oceans Harper's Wilderness seekers will rejoice in this stirring portrait McCann deftly navigates both natural glories and archival complexities Nature

The Ecology of Seashores George A. Knox, 2000-12-21 The Ecology of Seashores explores the complex shore environment It covers the ways in which representative species have adapted to life in a constantly changing environment in terms of their interactions the control of community structure and how energy and materials are cycled in different ecosystems Written by an eminent marine biologist

Extreme Tourism: Lessons from the World's Cold Water Islands Godfrey Baldacchino, 2006-08-11 This book is a pioneering investigation of the tourism practices in the world's other cold water islands Located in extreme latitudes and subject to extreme weather conditions these islands have been developing their tourism appeal in manners that appear sustainable They present themselves in images that speak to the pristine unique and superlative aspects of their natural environment history and culture Limited seasonality difficulty of access restricted infrastructure harsh climates and water too cold to swim in are integral features of the tourism industry often welcomed as appropriate filters to the slide to the mass market The collection contains 13 island case studies A set of seven hail from Northern latitudes Baffin Nunavut Canada Banks Northwest Territories Canada Greenland Kaalaalit Nunaat Iceland Lule Sweden Nunivak Alaska Solovetsky Russia and Svalbard Norway A second set of four cover the Southerly islands of Chatham New Zealand Falklands Macquarie Australia and Stewart New Zealand Two other chapters discuss islands from the particular vantage points of cruise ship tourism one for the Arctic region and one for the Antarctic Additionally five conceptual chapters provide insights into key tourism management issues
