

THE CLASSIC NOVEL OF ENDURING
HUMAN DANGEROUS TIMES

Silence is a powerful novel. Two Japanese Jesuit priests
are sent to the Philippines, where they find the church
in a state of decay. They are the only ones left, and they
must struggle to keep the faith alive. The novel is a
study in the power of the written word, and the

Silence in October Jens Christian Grøndahl, 2000 After eighteen years of marriage an art historian wakes up one morning to find his wife standing in the bedroom doorway with her bags packed leaving him with no explanation Alone in his Copenhagen apartment he tries to make sense of his enigmatic marriage and life Memories of driving a cab quiet walks in the snow and intense sojourns in Paris and New York pass through his mind in fleeting images The more he thinks of his wife however the more mysterious she becomes to him Slowly he realizes that two people can live together for years without ever really knowing each other and that the most important encounters in one's life are dictated by chance not design Exploring with great subtlety the secret unpredictable connections between men and women Silence in October is a psychological novel of immense acuity and masterful storytelling

Solidarities with the Non/Human, or, Posthumanism in Literature Stefan Herbrechter, 2024-11-18 This volume collects essays written over the last decade by one of the founders and leading figures of the theoretical movement of critical posthumanism The readings of literary texts gathered here from Shakespeare Keats Camus Vittorini Kundera Haushofer Atwood Eagleman Crace and DeLillo focus on posthumanist moments in which questions of postanthropocentrism and the nonhuman become prominent are negotiated and ultimately foreclosed They show how a deconstructively minded way of reading humanistically motivated texts can help making these texts relevant for our so called posthuman times In doing so these critical posthumanist readings demonstrate that literature remains one of the privileged cultural institutions and practices from which solidarities both with and between the human and nonhuman can be formed and negotiated

Minimalism and Affect in American Literature, 1970-2020 Oliver Haslam, 2024-09-05 Theorizes the development of a minimalist mode in American fiction since 1970 frequently seen to interrogate US postmodernity Minimalism and Affect in American Literature 1970-2020 responds to existing studies of literary minimalism by pursuing three original and interrelated objectives It provides a more inclusive and precise definition of minimalism that enables further inquiry into the mode It also exposes the presence of minimalism beyond critical demarcations that attempt to limit the aesthetic to a particular school medium movement form or decade Finally it argues that writers of American literary minimalism are uniquely privileged in their ability to formalize precarity and threatening cultural currents into the fragile construct that is ordinary life Building upon theories of affect and the everyday Minimalism and Affect in American Literature 1970-2020 analyses minimalist aesthetics within the works of canonical minimalists alongside writers more frequently associated with other movements Through readings of Ernest Hemingway Joan Didion Raymond Carver Paul Auster and Don DeLillo among others and cultural phenomena ranging from sedation to telephony this book exposes the persistence and political importance of minimalism within American literature from the 20th century into the 21st

The British Raj Novels P. A. Attar, 2016-11-30 This book is about a brief resumé of the major critical responses received by Scott and proves the fact that he still needs a wider critical attention to have a deeper insight of his novels At the

moment his Raj quartet is the only work that has received extensive critical attention The generally accepted verdict that the Raj quartet is Scotts greatest achievement is confirmed by the fact that it has aroused considerable interest among critics since its publication Its position of acknowledged greatness therefore certainly demands a reference to various critical responses to it John Mellors for instance considers it important because by evoking the final episode in the long and passionate affaire between British and India it contains something of all the issues Scott wants to raise justice responsibility political expediency law and order sex and race pride and prejudice love and loyalty The Algerian War Retold Meaghan Emery,2019-11-28 The Algerian War Retold Of Camus s Revolt and Postwar Reconciliation focuses on specific aspects of Albert Camus s ethical thought through a study of his writings in conjunction with late 20th and early 21st century works written by Franco Maghrebi authors on the topic of the Algerian War 1954 1962 It combines historical inquiry with literary analysis in order to examine the ways in which Camus s concept of revolt in his novels journalistic writing and philosophical essays reverberates in productions pertaining to that war Following an examination of Sartre s and Camus s debate over revolution and violence one that in another iteration asks whether FLN sponsored terrorism was justified The Algerian War Retold uncovers how today s writers have adopted paradigms common to both Sartre s and Camus s oeuvres when seeking to break the silence and influence France s national narrative In the end it attempts to answer the critical questions raised by literary acts of violence including whether Camusian ethics ultimately lead to justice for the Other in revolt These questions are particularly poignant in view of recent presidential declarations in response to years of active pressure applied by associations and other citizens groups prompting the French government to acknowledge the state s abandonment of the harkis condemn the repression of peaceful protest and recognize the French army s systematic use of torture in Algeria

Emergence of new women in the novels of Shashi Deshpande and Anita Desai Dr. Rachana Yadav,2018-12-15 Since ancient time s Patriarchal hegemony on socio cultural institutions has established the general notion about woman as a shadow figure to a male concierge be he a father a husband or a son It was also a granted notion that reader writer and even critic of all literature can only be male because this notion assumes the exclusion of female voice from the institution of literary expression shunning her as an inferior sex The purpose of all Patriarchal conspiracy is to retain power and possessive right over womenfolk To make women believe that there is such a thing as essence of femaleness called femininity serves the purpose of Patriarchy This speaks of the Male chauvinistic conspiracy and prudish notion of the male dominance in the world for exploitation of womenfolk The Sphere ,1908 **J. Rewriting the North Chloe Ashbridge,2023-05-15 This book shows how twenty first century writing about Northern England imagines alternative democratic futures for the region and the English nation signalling the growing awareness of England as a distinct and variegated political formation In 2016 the Brexit vote intensified ongoing constitutional tensions throughout the UK which have been developing since the devolution of Scotland Wales and Northern Ireland in 1997 At the same time British devolution developed a distinctively cultural registration as a surrogate for parliamentary representation and an attempt to disrupt the status of London as Britain s cultural epicentre *Rewriting the North* shifts this debate in a new direction examining Northern literary preoccupation with devolution s constitutional implications Through close readings of six contemporary authors Sunjeev Sahota Sarah Hall Anthony Cartwright Adam Thorpe Fiona Mozley and Sarah Moss this book argues that literary engagement with the North emphasises regional devolution s limited constitutional charge calling instead for an urgent abandonment of the British centralised state form

A History of the African American Novel Valerie Babb, 2017-07-31 This History is intended for a broad audience seeking knowledge of how novels interact with and influence their cultural landscape Its interdisciplinary approach will appeal to those interested in novels and film graphic novels novels and popular culture transatlantic blackness and the interfacing of race class gender and aesthetics

The quiet contemporary American novel Rachel Sykes, 2017-12-01 This book explores the concept of quiet an aesthetic of narrative driven by reflective principles and argues for the term s application to the study of contemporary American fiction In doing so it makes two critical interventions Firstly it maps the neglected history of quiet fictions arguing that from Hester Prynne to Clarissa Dalloway from *Bartleby* to William Stoner the Western tradition is filled with quiet characters Secondly it asks what it means for a novel to be quiet and how we might read for quiet in an American literary tradition that critics so often describe as noisy Examining recent works by Marilynne Robinson Teju Cole and Ben Lerner among others the book argues that quiet can be a multi faceted state of existence one that is communicative and expressive in as many ways as noise but filled with potential for radical discourse by its marginalisation as a mode of expression
