Look In My Mirror Javier Sanchez, 2009 A father tells his daughter how he feels about her University of California Publications in Education University of California, Berkeley, 1907 Optometry J. E. Littlefield, 1905 **The Universe in the Rearview Mirror** Dave Goldberg, 2014-06-24 A great read Goldberg is an excellent guide Mario Livio bestselling author of *The Golden Ratio* Physicist Dave Goldberg speeds across space time and everything in between showing that our elegant universe from the Higgs boson to antimatter to the most massive group of galaxies is shaped by hidden symmetries that have driven all our recent discoveries about the universe and all the ones to come Why is the sky dark at night If there is anti matter can there be anti people Why are past present and future our only options Saluting the brilliant but unsung female mathematician Emmy Noether as well as other giants of physics Goldberg answers these questions and more exuberantly demonstrating that symmetry is the big idea and the key to what lies ahead 10 Things You Aren't Telling Him Clinton, Julie, 2009-08 A woman longs to be loved So when there is a lack of connection with her husband the hurt can run deep With encouraging examples from her marriage and those of women surveyed author and speaker Julie Clinton models how readers can start important conversations with their husbands and express their deepest thoughts about topics of faith life and love including Hurts How he distances her emotionally or physically Sex What she likes dislikes and desires for sexual and nonsexual touch The Past Secrets prior sexual relationships abortion abuse shame God Her needs for spiritual leadership prayer and spiritual intimacy Dreams Her hopes and her desire for mutual goals These intimacy solutions will spark reconnection in a marriage and will remind couples of their deep affection for one another and the strength and beauty of a relationship that is based on truth acceptance and forgiveness From Virtue to Vice Richard A. O'Connor, Penny Van Esterik, 2015-03-01 The recovered possess the key to overcoming anorexia Although individual sufferers do not know how the affliction takes hold piecing their stories together reveals two accidental afflictions One is that activity disorders dieting exercising healthy eating start as virtuous practices but become addictive obsessions The other affliction is a developmental disorder which also starts with the virtuous those eager for challenge and change But these overachievers who seek self improvement get a distorted life instead Knowing anorexia from inside the recovered offer two watchwords on helping those who suffer One is negotiate to encourage compromise which can aid recovery where coercion fails The other is balance for the ill to pursue mind with body activities to defuse mind over body battles **Telling Rhythm** Amittai F. Aviram, 1994 Provides a postmodern theory of poetry that sees rhythm as its essential quality Intermediate Light Robert Alexander Houstoun, 1925 Aristotle's Gynecology Mariska Leunissen, 2025 In Aristotle's Gynecology Mariska Leunissen examines Aristotle's methods for the establishment of gynecological facts within his natural science arguing that many of the gynecological phenomena at stake such as menstruation and the nature of menstrual blood the role of female pleasure during sex and women's experiences of erotic dreams and their knowledge of conception and their experiences of false pregnancy

and childbirth were mostly for socio cultural reasons not at all or not immediately accessible for a male natural scientific observer such as Aristotle Given this lack of immediate empirical evidence Aristotle employed alternative methods for the establishment of facts such as relying on signs and circumstantial empirical evidence or using analogical and probabilistic reasoning and relied heavily on existing expert reports such as mainly early medical sources but also sometimes verbal reports from women themselves Moreover Aristotle used a secondary standard for testing the results of this inquiry namely one which he originally developed for investigations into physically remote meteorological and cosmological phenomena that are not apparent to observation and according to which statements of facts are credible if they are ontologically possible Leunissen thus reconstructs Aristotle s gynecology in the context of his commitments to empiricism and his scientific methods for the fact establishing phase of natural science and elucidates the role his concepts of evidence credibility and signs play in his natural scientific research However through its focus on Aristotle s use of gendered knowledge and his reconstruction of natural phenomena believed to be characteristic of women Leunissen s book also offers a glimpse of the lived experiences and reproductive beliefs of women in Ancient Greece

Danahay, 1993-08-24 Complementing recent feminist studies of female self representation this book examines the dynamics of masculine self representation in nineteenth

century British literature Arguing that the category autobiography was a product of nineteenth century individualism the author analyzes the dependence of the nineteenth century masculine subject on autonomy or self naming as the prerequisite for the composition of a life history The masculine autobiographer achieves this autonomy by using a feminized other as a metaphorical mirror for the self The feminized other in these texts represents the social cost of masculine autobiography Authors from Wordsworth to Arnold including Samuel Taylor Coleridge Thomas De Quincey John Ruskin Alfred Tennyson Robert Louis Stevenson John Stuart Mill and Edmund Gosse use female lovers and family members as symbols for the community with which they feel they have lost contact In the theoretical introduction the author argues that these texts actually privilege the autonomous self over the images of community they ostensibly value creating in the process a self enclosed and self referential community of one
