**The Gambling Debate** Richard McGowan, 2007-11-30 The great majority of Americans more than 80% say they approve of gambling even if they themselves don't gamble Still deep divisions persist in our attitudes toward the gambling industry Is it profoundly destructive preying on human weakness and stripping its victims of their sustenance and dignity Or is it a vehicle of the American dream an engine of personal enrichment enormous public revenue and economic development The industry's explosive growth has sharpened the debate radically altering the gambling landscape and dramatically raising the stakes involved Author Richard A McGowan a respected authority on the public policy aspects of gambling and other sin industries reveals the new dynamics of gambling and frames the age old ethical and practical questions it poses Whether benefit or bane gambling today permeates American culture in unprecedented ways Its newest venues Native American tribal casinos and the Internet are drawing in new gamblers in vast numbers and generating spectacular profits Social legal and political controversies inevitably have followed How should public policymakers approach expanded gambling As regulator of the gambling industry government has always been the gatekeeper Its role and responsibilities remain central to the gambling debate even while it stands to reap huge windfalls from the very industry it is regulating Meanwhile Internet gambling more or less regulated at home has found willing government sponsors abroad removing an ever larger segment of the industry from U S government jurisdiction and recasting the gambling debate Using this book citizens can Learn the ethical and rhetorical framework of the gambling debate The terms of the arguments advanced by advocates and opponents help explain why the gambling industry has been tolerated or encouraged by public policymakers Weigh the risks and rewards of government sanctioned gambling through three actual case studies from Missouri Massachusetts and the Chinese island of Macao which in 2006 surpassed Las Vegas as the gambling capital of the world Each situation highlights particular problems and opportunities and each is presented with discussion questions Take an informed position Should sports gambling be legalized Should U S restrictions on Internet gambling be loosened Should government get out of the gambling business altogether Find out more about the many facets of the gambling debate by using the study resources provided

[How the South Joined the Gambling Nation](#) Michael Nelson, John Lyman Mason, 2007-09 A national map of legalized gambling from 1963 would show one state Nevada with casino gambling and no states with lotteries Today's map shows eleven commercial casino states most of them along the Mississippi River forty two states with state owned lotteries and racetrack betting slot machine parlors charitable bingo and Native American gambling halls flourishing throughout the nation For the past twenty years the South has wrestled with gambling issues In [How the South Joined the Gambling Nation](#) Michael Nelson and John Lyman Mason examine how modern southern state governments have decided whether to adopt or prohibit casinos and lotteries Nelson and Mason point out that

although the South participated fully in past gambling eras it is the last region to join the modern movement embracing legalized gambling. Despite the prevalence of wistful romantic images of gambling on southern riverboats the politically and religiously conservative ideology of the modern South makes it difficult for states to toss their chips into the pot. The authors tell the story of the arrival or rejection of legalized gambling in seven southern states: Mississippi, Louisiana, Tennessee, South Carolina, Georgia, Arkansas, and Alabama. The authors suggest that some states chose to legalize gambling based on the examples of other nearby states as when Mississippi casinos spurred casino legalization in Louisiana and the Georgia lottery inspired lottery campaigns in neighboring South Carolina, Alabama, and Tennessee. Also important was the influence of Democratic policy entrepreneurs such as Zell Miller in Georgia, Don Siegelman in Alabama, and Edwin Edwards in Louisiana who wanted to sell the idea of gambling in order to sell themselves to voters. At the same time each state had its own idiosyncrasies such as certain provisions of their state constitutions weighing heavily as a factor. Nelson and Mason show that the story of gambling's spread in the South exemplifies the process of state policy innovation. In exploring how southern states have weighed the moral and economic risk of legalizing gambling, especially the political controversies that surround these discussions, Nelson and Mason employ a suspenseful, fast-paced narrative that echoes the oftentimes hurried decisions made by state legislators. Although each of these seven states fought a unique battle over gambling, taken together these case studies help tell the larger story of how the South sometimes reluctantly, sometimes enthusiastically decided to join the gambling nation.

**Toward a New Mission Statement for Canadian Fiscal Federalism** Harvey Lazar, 2000 Canada State of the Federation 1999 2000 identifies and explains major threads in Canadian fiscal federalism Set against the cacophony over domineering and arrogant centralization from supporters of Quebec sovereignty on the one hand and fears that excessive decentralization is fuelling an obsessively neo liberal agenda on the other these essays replace much of this heat with new light The authors begin with an examination of recent developments in the theoretical literature surrounding fiscal federalism They then

examine some of the major issues facing the federation Is there a vertical imbalance between federal and provincial governments Does Ottawa collect more revenues than are needed relative to its spending responsibilities while the provinces are under funded How do federal provincial struggles over money and jurisdictional power affect local government or the para public sector emerging aboriginal governments and citizens Federal government actions in 1999 suggest that Ottawa has not lost all of its interest in social outcomes It is however seeking to influence the well being of citizens by transferring money to them directly rather than through transfers to provinces The authors suggest that if this trend continues the approach to the millennium will be seen as a watershed in public policy given that current trends in Canadian fiscal federalism are as much about re balancing the federation as they are about decentralization
