competing for cash prizes for the fattest tabby people became enthralled to the once humble cat Multiple industries sprang up to feed this new obsession selling everything from veterinary services to leather boots via dedicated cat magazines Cats themselves were now traded for increasingly large sums of money bolstered by elaborate pedigrees that claimed noble ancestry and promised aesthetic distinction In Catland Kathryn Hughes chronicles the cat craze of the early twentieth century through the life and career of Louis Wain Wain's anthropomorphic drawings of cats in top hats falling in love sipping champagne golfing driving cars and piloting planes are some of the most instantly recognizable images from the era His round faced fluffy characters established the prototype for the modern cat which cat fanciers were busily trying to achieve using their newfound knowledge of the latest scientific breeding techniques Despite being a household name Wain endured multiple bankruptcies and mental breakdowns spending his last fifteen years in an asylum drawing abstract and multicolored felines But it was his ubiquitous anthropomorphic cats that helped usher the formerly reviled creatures into homes across Europe Beautifully illustrated and based on new archival findings about Wain's life the wider cat fancy and the media frenzy it created Catland chronicles the fascinating history of how the modern cat emerged **"They Thought it was a Marvel"** Tjitte de Vries, *Ati Mul*, 2009 Was 1906 the year of birth of animation pictures Or 1908 Was France the place of birth or was it the United States *A Phenomenological Interpretation of Schizophrenia* Pierluigi Parisi, 2024-11-04 In this book the author develops a novel philosophically psychopathologically founded theory of schizophrenia and its basic disorder After the introduction with the presentation of the basic concept the further study is divided into five chapters each of which first gives a conceptual overview then includes and analyzes clinical phenomena and research results in detail The originality and creativity of the work essentially consists in using the terms mentioned as *passé partout* as it were which allow the most diverse often disparate phenomena and symptoms of schizophrenia to be viewed from an integrating point of view The method used is phenomenological descriptive and interpretative drawing on a wealth of empirical research results but at the same time being re-viewed and reorganized in the subjective perspective framework concept *The Celebrated Pedestrian and Other Historical Curiosities* BBC History Magazine, 2013-11-30 Who is the Downing of Downing Street What did the first illuminated adverts in Piccadilly Circus advertise Was Oliver Cromwell actually Welsh Questions like these and many more are answered in this the first ever miscellany from the editors of BBC History Magazine *The Celebrated Pedestrian* the title refers to people in Victorian times who walked for sport collects a wide variety of historical facts and curiosities helping to uncover little known truths Who was the richest man who ever lived and debunk myths Was there one man who survived both the sinkings of the Titanic and the Lusitania from ancient times to the present day Also including a collection of fascinating lists Top 10 famous riots Top 10 writers who were banned by the Vatican and This Day in History features *The Celebrated Pedestrian* is the perfect gift for trivia fans and history buffs alike **The Price of Greatness** Arnold M.
