Louis XI The Universal Spider:

Louis XI Paul Murray Kendall, 1974 *The Universal Spider. The Life of Louis XI of France.* Translated and Edited by Paul Kendall Philippe de COMINES (Seigneur d'Argenton.), Paul Murray Kendall, 1973 *The Universal Spider* Philippe de Commynes, 1973 The Memoirs of Philippe de Commynes have been celebrated for more than four hundred years both as a remarkable literary work and as a priceless contribution to the history of the fifteenth century They fall into two quite different parts The first comprising Books I VI narrates the intense violent struggle for the dominance of western Europe between Louis XI of France and his greatest vassal Charles the Rash Duke of Burgundy which was resolved by the triumph of the king it begins with the appearance of Commynes on the political scene in 1464 as a young squire in the service of the House of Burgundy and ends in 1483 with the death of Louis XI at which Commynes was himself present In the second part Books VII VIII he recounts the first French invasion of Italy in 1494 under Louis XI's feeble son Charles VIII He took part in that ill fated expedition as a royal councillor and diplomat and fought at Charles VIII's side in the desperate battle of Fornovo but the chief adviser and confidant of Louis XI enjoyed little influence in King Charles's frivolous household The Memoirs conclude in 1498 following the death of Charles VIII with Commynes entering the service of that monarch's successor Louis XII It is the earlier and much richer part of the Memoirs that is here translated introduction page 7 **Louis XI** Paul Murray Kendall, 1971 *Ritual, Ceremony and the Changing Monarchy in France, 1350-1789* Lawrence M. Bryant, 2024-08-01 This collection of articles explores changes in images of the French monarchy propagated in ceremonies that townspeople and officials created for their kings Bryant looks at royal entries as massive processional and street theaters in which members of the kingdom both discoursed with and exalted the king in a multiplicity of ritual forms symbolism and public art These ceremonies personalized the idea of the state as embodied in the king and they publicized rights and authority new historical or mythological themes innovative styles of monumental architecture and art and theories of ideal and shared government

The Artillery of the Dukes of Burgundy, 1363-1477 Robert Douglas Smith, Kelly DeVries, 2005 A major new exploration of the history and development of gunpowder weapons in the 15th century based on the artillery of the Dukes of Burgundy The four Valois Dukes of Burgundy created in little more than a century a fabulously wealthy and independent state Their centralised control and chancellery have bequeathed to us a vast treasure trove of documents including accounts and inventories of the Masters of the artillery under the later Dukes Although many of these were extracted and transcribed in the late nineteenth century modern historians have largely ignored their unprecedented insights into fifteenth century guns and their use When Charles the Bold the last Valois Duke took on the combined Swiss confederate forces in 1476 he lost not just the battles and his personal fortune but much of his artillery train as well Of the dozens of cannons captured at least 25 pieces survive in Swiss museums The documents that survive from the Valois state give us almost for the first time in medieval Europe the ability to see the course of history in a period when Europe was undergoing some of the most profound

changes before the 20th century The Artillery of the Dukes of Burgundy is the first attempt to combine all these sources bringing new and fresh insights into the development and use of artillery in the fifteenth century Moreover this is the first modern study of medieval cannon one of the most important discoveries of the post classical world KELLY DeVRIES has authored numerous books and articles on medieval warfare ROBERT DOUGLAS SMITH formerly Head of Conservation in the Royal Armouries Tower of London is an acknowledged expert on medieval artillery This study is the first major fruit of their combined researches

An Astrologer at Work in Late Medieval France Helena Avelar de Carvalho, 2021-07-19 This book explores the notebooks of S Belle an astrologer who lived in late fifteenth century France as a case study of late medieval astrological practice These notebooks combine astrological doctrine a large collection of horoscopes an almanac and three complete judgements of nativities By studying Belle s methods processes of learning and practices this book contributes to a better understanding of the internal architecture of astrology in the pre modern world this includes its techniques methodologies goals transmission and development throughout history It offers an internalist view of the practice of astrology as a counterpart to the existing research into astrology s social and cultural impact

Defining Neomedievalism(s) II Karl Fugelso, 2011 The focus on neomedievalism at the 2007 International Conference on Medievalism in ever more sessions at the annual International Congress on Medieval Studies and by many recent or forthcoming publications has left little doubt that this important new area of study is here to stay and that medievalism must come to terms with it In response to an essay in *Studies in Medievalism XVIII* defining medievalism in relationship to neomedievalism this volume therefore begins with seven essays defining neomedievalism in relationship to medievalism

The French Monarchical Commonwealth, 1356-1560 James B. Collins, 2022-05-19 How does authority become power How does power justify itself to achieve its ends For over two hundred years the Valois kings relied on a complex mixture of ideologies ruling a monarchical commonwealth with a coherent theory of shared governance Forged in the Hundred Years War this commonwealth built on the defense of the public good *bien public* came undone both practically and theoretically during the Wars of Religion Just as certain kings sought to expand the royal prerogative so too elites fought to preserve their control over local government Using town archives from more than twenty cities to complement traditional sources of political theory The French Monarchical Commonwealth 1356 1560 establishes the relationship between seemingly theoretical constructs like the Salic Law and the reality of everyday politics

Mercurino di Gattinara and the Creation of the Spanish Empire Rebecca Ard Boone, 2015-10-06 As Grand Chancellor to the Holy Roman Emperor Mercurino di Gattinara 1465 1530 shaped the administration and aims of the Spanish Empire Ard Boone situates Gattinara at the heart of Renaissance politics and propaganda and provides the first English translation of his autobiography in full

"Women, Manuscripts and Identity in Northern Europe, 1350?550 " Joni M. Hand, 2017-07-05 Author Joni M Hand sheds light on the reasons women of the Valois courts from the mid fourteenth to the mid sixteenth century commissioned devotional manuscripts Visually

interpreting the non text elements portraits coats of arms and marginalia as well as the texts Hand explores how the manuscripts were used to express the women s religious political and or genealogical concerns This study is arranged thematically according to the method in which the owner is represented Recognizing the considerable influence these women had on the appearance of their books Hand interrogates how the manuscripts became a means of self expression beyond the realm of devotional practice She reveals how noblewomen used their private devotional manuscripts as vehicles for self definition to reflect familial political and social concerns and to preserve the devotional and cultural traditions of their families Drawing on documentation of women s book collections that has been buried within the inventories of their fathers husbands or sons Hand explores how these women contributed to the cultural and spiritual character of the courts and played an integral role in the formation and evolution of the royal libraries in Northern Europe

A Cumulative Bibliography of Medieval Military History and Technology Kelly DeVries,2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense

The Late Medieval Age of Crisis and Renewal, 1300-1500 Clayton J. Drees,2000-11-30 As part of a unique series covering the grand sweep of Western civilization from ancient to present times this biographical dictionary provides introductory information on 315 leading cultural figures of late medieval and early modern Europe Taking a cultural approach not typically found in general biographical dictionaries the work includes literary philosophical artistic military religious humanistic musical economic and exploratory figures Political figures are included only if they patronized the arts and coverage focuses on their cultural impact Figures from western European countries such as Italy France England Iberia

the Low Countries and the Holy Roman Empire predominate but outlying areas such as Scotland Scandinavia and Eastern Europe are also represented Late medieval Europe was an age of crisis With the Papacy removed to Avignon the schism in the Catholic Church shook the very core of medieval belief The Hundred Years War devastated France The Black Death decimated the population Yet out of this crisis grew an age of renewal leading to the Renaissance The great Italian city states developed Humanism reawakened interest in the cultures of ancient Greece and Rome Dante and Boccaccio began writing in their Tuscan vernacular Italian artists became humanists and flourished As the genius of Italy began spreading to northern and western Europe at the end of the 15th century the age of renewal was completed This book provides thorough basic information on the major cultural figures of this tumultuous era of crisis and renewal **The Life and Death of Richard**

III Anthony Cheetham, 2025-08-14 With a new introduction and concluding chapter from bestselling medieval author Dan Jones Richard III is one of the most mysterious figures in English history and as such is the source of perennial fascination Comparatively little is known of his early life his appearance his interests for up to 1483 he played second fiddle to his more glorious older brothers Edward this sun of York and the feckless Clarence Anthony Cheetham cuts through the legend and the propaganda to try to retrace the life of Richard the neglected years before he assumed the throne and thus to place in context the twenty six stormy months of his reign before the last of the Plantagenets died on Bosworth Field He considers three critical questions in particular Did he really believe his brother and nephews were illegitimate Why did he seize the throne What happened to the princes in the tower This new edition of a classic royal biography includes an account of the discovery of Richard's remains in a Leicester car park in September 2012 and what his skeleton revealed about the physical condition of the last Plantagenet and the manner of his death First published in 1992 and acknowledged as the inspiration behind Philippa Gregory's portrayal of Richard in her bestselling *The White Queen* this new edition brings the story of England's most infamous monarch fully up to date *Contested Canonizations* Ronald C. Finucane, 2011-10-12 Pope John Paul II famously canonized more saints than all his predecessors combined Several of these candidates were controversial To this day there remain holy men and women on the books of the Vatican's Congregation for the Causes of Saints whose canonization would provoke considerable debate This was no less true during the period covered in this pioneering study by renowned medieval historian Ronald C. Finucane This work which forms an important bridge between medieval and Counter Reformation sanctity and canonization provides a richly contextualized analysis of the ways in which the last five candidates for sainthood before the Reformation came to be canonized Finucane uncovers the complex interplay of factors that lay behind the success of such campaigns success that could never be taken for granted even when the candidate's holy credentials appeared uncontroversial and his backers politically powerful Written by a master of the historical craft whose studies on miracles and popular religion for the high Middle Ages have long been an important point of reference for students this work presents brilliantly reconstructed case studies of the last five successful canonization petitions of the

Middle Ages Bonaventure Leopold of Austria Francis of Paola Antoninus of Florence and Benno of Meissen ABOUT THE AUTHOR Ronald Finucane died at the height of his critical powers in 2009 shortly after he submitted this work for publication Distinguished professor of history at Oakland University he was the author of four books including Miracles and Pilgrims Popular Beliefs in Medieval England and Soldiers of the Faith Crusaders and Moslems at War both History Book Club selections This book was brought to publication by Simon Ditchfield reader in history at the University of York PRAISE FOR THE BOOK In this meticulously researched and carefully structured study Finucane establishes his work as a critical touchstone for future studies of canonization procedures and their revision in the early modern period David Collins S J associate professor of history Georgetown University On the surface the book is a meticulous detailed but fairly traditional discussion of the processes or politics if you will of saint making However Finucane s use of a case study approach allows him to find important commonalities among successful canonization cases without losing the inevitable complexity involved in the pursuit of each one There is a great deal to learn from this book American Historical Review *English Princesses* Compiled from Wikipedia entries and published by DrGoogelberg,2012-06-06 This book is completeley compiled from Wikipedia pages Learn about Diana Spencer Kate Middleton and all the other UK Princesses from then and now **The Works of Robert Louis Stevenson - Swanston Edition Vol. 3** Robert Louis Stevenson,2020-08-13 Reproduction of the original The Works of Robert Louis Stevenson Swanston Edition Vol 3 by Robert Louis Stevenson *The Vailima Edition of the Works of Robert Louis Stevenson* Robert Louis Stevenson,1912 The Church in the Republic: Gallicanism & Political Ideology in Renaissance France Church in the Republic Jotham Parsons,2004-12 This book presents an examination of the ways in which Renaissance humanism and the Catholic and Protestant Reformations interacted to create the modern state BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Key Figures in Medieval Europe** Richard K. Emmerson,2013-10-18 From emperors and queens to artists and world travelers from popes and scholars to saints and heretics Key Figures in Medieval Europe brings together in one volume the most important people who lived in medieval Europe between 500 and 1500 Gathered from the biographical entries from the on going series the Routledge Encyclopedias of the Middle Ages these A Z biographical entries discuss the lives of over 575 individuals who have had a historical impact in such areas as politics religion or the arts Individuals from places such as medieval England France Germany Iberia Italy and Scandinavia are included as well as those from the Jewish and Islamic worlds A thematic outline is included that lists people not only by categories but also by regions For a full list of entries contributors and more visit the Routledge Encyclopedias of the Middle Ages website
