Louis Xiv An Informal Portrait:

Louis XIV Warren Hamilton Lewis, 1959 *The Fabrication of Louis XIV* Peter Burke, 1994-01-01 Louis XIV was a man like any other but the money and attention lavished on his public image by the French government transformed him into a godlike figure In this engrossing book an internationally respected historian gives an account of contemporary representations of Louis XIV and shows how the making of the royal image illuminates the relationship between art and power Images of Louis XIV included hundreds of oil paintings and engravings three hundred odd medals struck to commemorate the major events of the reign sculptures and bronzes as well as plays ballets in which the king himself sometimes appeared on stage operas odes sermons official newspapers and histories fireworks fountains and tapestries Drawing on an analysis of these representations as well as on surviving documentary sources Peter Burke shows the conscious attempt to invent the image of the king and reveals how the supervision of the royal image was entrusted to a committee the so called small academy This book is not only a fascinating chronological study of the mechanics of the image making of a king over the course of a seventy year reign but is also an investigation into the genre of cultural construction Burke discusses the element of propaganda implicit in image making the manipulation of seventeenth century media of communication oral visual and textual and their codes literary and artistic and the intended audience and its response He concludes by comparing and contrasting Louis's public image with that of other rulers ranging from Augustus to contemporary American presidents

Louis XIV's Architect Richard Ballard, 2023-12-30 A must read for those seeking to understand the intersection of politics and art in a pivotal moment of European history This is a study of royal absolutism in a most extreme form in modern European history and of the nature of Louis XIV's concept of personal glory and of the embodiment of France as a new superpower It is a study of political ideas expressed in architecture to establish Versailles as the centre of French world power and royal prestige It is also a personal story full of social cultural and economic history of the period as seen in the life and work of Louis Le Vau from a humble family of craftsmen who was a self taught architect in the early history of the profession skilled in technical craft skills and even grand design He was a major contributor to the architectural glories of Paris including the Louvre Vincennes Versailles and the College of the Four Nations And all achieved despite interference from the great magnates of the age like Mazarin and Colbert and constant mind changing by the King who wanted every feature in the buildings to reflect his concept of personal royal prestige Le Vau was Louis XIV's First Architect from 1654 until his death and disgrace in 1670 The social cultural economic and political backdrop is striking with court intrigue scandal corruption luxury indulgence and the rise of a rich bourgeoisie but the main thrust of the story concerns Louis XIV and the royal personal ambition and the work of a stone cutter's son who became the Sun King's instrument The study is good on the more technical features of architectural history reminiscent of Pevsner's marvellous Buildings of England series [A Compendium of World Sovereigns: Volume III Early Modern](#) Timothy Venning, 2023-06-30

and reasons behind his sister's lifelong malice and envy of him. The final note is necessarily tragic, detailing in full the deaths of both Princess Grace and Princess Caroline's husband in sudden and shocking accidents.

The Collected Letters of C.S. Lewis, Volume 3 C. S. Lewis, 2004. The letters found in Volume II reveal inside accounts of how The Screwtape Letters came to be written, the early meetings of the Inklings with J. R. R. Tolkien giving readings about hobbits and Middle Earth, how C. S. Lewis became popular through BBC radio talks, but mostly how this quiet professor in England touched the lives of many through an amazing discipline of personal correspondence.

Strategies for Showing Marcia R. Pointon, 1997. In this unusual and original study, Marcia Pointon examines the cultural effects and consequences of the participation by women in acts of representation in the late seventeenth and eighteenth centuries. She explores their lives and work and a cultural environment in which images of female saints and goddesses established indices of femininity in the homes of wealthy men. Did the women portrayed also possess artefacts and did they use the power of gifts and bequests to determine social relations? Did they themselves participate in the processes of creating images of the seen world? Pointon sets out to answer some of these questions through a series of novel and vividly recounted case studies of women such as Emma Hamilton, wife and mistress, Mary Moser, the artist, Dorothy Richardson, the antiquarian. She shows that the relationship of these women to the world of consumption was affective and imaginative as well as economic.
