both been laying claim to representations of the past arguably since Antiquity but certainly since the Renaissance At a time when narratology challenges historiographers to differentiate their emplotments White from literary inventions this thirteen essay collection takes a fresh look at the production of historico political knowledge in literature and the intricacies of reality and fiction Written by experts who teach in Germany Austria Russia and the United States the articles provide a thorough interpretation of early modern drama with a view to classical times and the 19th century as an ideological platform that is as open to royal self fashioning and soteriology as it is to travesty and subverting the means and ends of historical interpretation The comparative analysis of metapoetic and historiosophic aspects also sheds light on drama as a transnational phenomenon demonstrating the importance of the cultural net that links the multifaceted textual examples from France Russia England Italy and the Netherlands

The Great Powers and Global Struggle, 1490-1990 Karen A. Rasler, William R. Thompson, 2014-07-11 In *The Great Powers and Global Struggle* Karen A Rasler and William R Thompson focus on two themes the rise and fall as well as the relative decline of major world powers over the past five hundred years and the way in which these processes have set the stage for the outbreak of global war Their interdisciplinary approach encompasses political science economics sociology geography and history The most significant wars occur when regional leaders historically in Western Europe challenge global leaders By studying the wars of Napoleon Louis XIV Phillip II and the Italian Indian Ocean wars of the sixteenth century through World Wars I and II to the present the authors challenge the long held idea that prosperity leads to over consumption and underinvestment and thus decline a theory traceable to ancient times that remains the principal explanation for global decline today Arguments about global structural change and its implications abound but rarely is the abstract translated into concrete historical terms with emphases on specific actors and empirical documentation Rasler and Thompson reinterpret the past five hundred years of major power warfare and provide extensive tests of the eighteen generalizations critical to their argument They conclude that those who argue that global war and repositioning are no longer a concern among the major powers lack critical understanding of the behavior that contributes to such conflict

Library Media Connection ,1991 Political Leadership in a Global Age Jean-Pascal Daloz, 2019-06-11 Title first published in 2003 Responses to globalisation in politics and governance at national regional and local levels of government in France and Norway are explored in this engaging study

History and Leadership Mark E. Blincoe, John R. Shoup, 2022-06-19 Leaders and managers are rightly tasked to take their organizations and communities to a desired future They are expected to be forward looking with compelling vision statements As a result they are often too busy in the present managing the future to be bothered with the past Yet it is organizational histories that provide the contexts and clues for the future *History and Leadership The Nature and Role of the Past in Navigating the Future* demonstrates that intentional historical perspective taking provides a sort of wisdom for doing business in the present and future and equips leaders to leverage the past to help their organizations thrive This book appeals to several audiences It will serve as a

supplementary text for undergraduate and graduate students in both the humanities and leadership studies The book also appeals to practicing leaders and managers who wish to develop their emotional cultural and social intelligence by exploring perennial issues and lessons found in well developed histories This book also serves as a stand alone read for a range of professionals who want a more recreational and non traditional read on history and leadership The book cultivates an appreciation for history and equips readers to be connoisseurs of history for the betterment of themselves and society

The History of Nations Henry Cabot Lodge,1913 **The Limits of Private Governance** Florian Grisel,2021-09-09 Is there a future for the law In this book Florian Grisel addresses one of the most fascinating questions raised by social scientists in the past few decades Since the 1980s socio legal scholars have argued that governance based on social norms or private governance can offer an alternative to regulation by the law On this account private governance could be socially efficient and even optimal compared with other modes of governance The Limits of Private Governance supplements this optimistic analysis of private governance by assessing the long term evolution of a private order in the fishery of Marseille In the last eight centuries the fishers of Marseille have regulated their community without apparent means of legal support from the French state In the early 15th century they even created an organisation called the Prud homie de P che in order to regulate their fishery Based on archival evidence interviews and ethnographic data Grisel examines the evolution of the Prud homie de P che and argues that the strong social norms in which it is embedded are not only powerful tools of governance but also forces of inertia that have constrained its regulatory action The lessons drawn from this book will appeal to academics policy makers and members of the general public who have an interest in the governance of our modern societies

War: A Short History Jeremy Black,2014-03-04 In this concise history of war Jeremy Black ranges widely giving due attention to non western as well as western traditions The history of war is inextricably bound to the history of the world Through a detailed exploration of world scale issues of warfare presented within a chronological framework that spans human history Jeremy Black skilfully illustrates this fact whilst providing the reader with other astute insights and compelling interpretations of war War A Short History is a dramatic move away from the formulaic western approach to military history Too narrow in its focus on wars specific to the west and too simple because of an over reliance on a technologically deterministic reading of warfare this approach has been rejected by Jeremy Black in favour of a global model that takes all factors into account when considering the strengths and weaknesses of a particular military tradition This is a book that is as important for its relevance to current world issues of conflict as it is for its thorough consideration of a monumentally significant aspect of human history <http://history.black.continuumbooks.com> **War and State Making** Karen A. Rasler,William R. Thompson,2021-03-30 Originally published in 1989 this is an empirical study of the impact of global war on the expansion and shaping of nation states Individual chapters examine the effects of such wars and the preparation for them on debt financing expansion military spending welfare spending GNP and domestic violence The authors conclude that by

virtue of the changes they spurn global wars are inherently accelerators of social change **Global Convergence Cultures** Matthew Freeman, William Proctor, 2018-05-03 Today's convergent media industries readily produce stories that span multiple media telling the tales of superheroes across comics film and television inviting audiences to participate in the popular universes across cinema novels the Web and more This transmedia phenomenon may be a common strategy in Hollywood's blockbuster fiction factory tied up with digital marketing and fictional world building but transmediality is so much more than global movie franchises Different cultures around the world are now making new and often far less commercial uses of transmediality applying this phenomenon to the needs and structures of a nation and re thinking it in the form of cultural political and heritage projects This book offers an exploration of these national and cultural systems of transmediality around the world showing how national cultures including politics people heritage traditions leisure and so on are informing transmediality in different countries The book spans four continents and twelve countries looking across the UK Spain Portugal France Estonia USA Canada Colombia Brazil Japan India and Russia **Uncoveted Power** Caitlin Reynolds, 2024-07-20 About The Book In *Uncoveted Power* Strategically Navigating Complexity of Leadership Caitlin Reynolds explores what it truly means to lead It's not only about having power it's about inspiring others with a vision building trust and respecting diverse perspectives Reynolds explores how emotional intelligence critical thinking and social understanding play key roles in effective leadership Drawing from her experiences and conversations with leaders Reynolds offers insights into the challenges and rewards of leadership She highlights that leadership isn't a solo journey but it's about empowering others to reach their full potential The book features stories of leaders from all backgrounds highlighting the inclusive and transformative nature of leadership Reynolds encourages readers to reflect on timeless wisdom reminding us that leadership is about guiding others to become the best versions of themselves Through engaging narratives and practical advice *Uncoveted Power* inspires readers to embrace leadership with conviction delegation resilience and fulfillment It sets the stage for a journey of self discovery and growth inviting readers to join in shaping the future of leadership Manitoba Muslims Ismael Ibrahim Mukhtar, 2021-07-26 *Manitoba Muslims* A History of Resilience and Growth is both a look back at the history of Muslims in the province of Manitoba and a look forward into the future The Muslims of Manitoba have a presence that reaches back beyond a century They are a fast growing demographic and continue to make many positive contributions to their community and country The history of Manitoba Muslims is an integral part of the history of Manitoba and Canada with a better collective understanding of our history all Canadians can work together to create a more respectful tolerant and welcoming nation This book opens with a history of the community beginning in 1900 The second section examines some of the issues and challenges facing the Islamic community in Manitoba The author examines the challenges faced by specific segments of the community such as women youth and converts In addition address affiliations controversies social issues halal alternatives integration and Islamophobia This book will appeal to members of the public interested in

Systemic Transitions W. Thompson, 2009-01-05 We are all familiar with the popular and academic analyses of the ongoing and future ascent of China Two of the associated questions are whether and when China might succeed the United States as the lead state in the world system These are interesting questions albeit ones that are not likely to be answered in the immediate future An alternative focus examines instead periods of systemic transition eras in which it is conceivable that a new leader might emerge at the expense of an older system leader Framing the question this way presumes that a future systemic transitions remain a possibility and b transitions do not occur abruptly but may require several decades to set up structural situations in which a transition might take place Neither of these assumptions are carved in stone and are open to question It may be that future systemic transitions are unlikely Or it may be that they will not occur as they have in the past All of these possibilities are assessed from a variety of different perspectives
