Louis Farrakhan Made In America:

Louis Farrakhan A. Marshall, 1996 This biography unfolds Louis Farrakhan's odyssey from the streets of Roxbury to becoming America's most outspoken black leader. It traces his controversial relationship with Malcolm X and examines how Farrakhan rebuilt the Nation of Islam and established himself as the spokesperson for millions of disgruntled African Americans. It details Malcolm X's daughter's alleged plot to have Farrakhan assassinated and the unique way it united opposing factions in the black community. This biography describes Farrakhan's often volatile relationship with black leaders including Jesse Jackson, Khalid Muhammad, and Ben Chavis. It culminates with the historic Million Man March and Farrakhan's subsequent World Friendship Tour. From Amazon.com

The debate on black civil rights in America Kevern Verney, 2024-01-16 This book examines the historiography of the African American freedom struggle from the 1890s to the present. It considers how and why the study of African American history developed from being a marginalized subject in American universities and colleges at the start of the twentieth century to become one of the most extensively researched fields in American history today. There is analysis of the changing scholarly interpretations of African American leaders from Booker T. Washington through to Barack Obama. The impact and significance of the leading civil rights organizations are assessed, as well as the white segregationists who opposed them and the civil rights policies of presidential administrations from Woodrow Wilson to Donald Trump. The civil rights struggle is also discussed in the context of wider political, social, and economic changes in the United States and developments in popular culture.

Islam in the African-American Experience, Second Edition Richard Brent Turner, 2003-11-20 Sure to become a classic in the field. Highly recommended. Library Journal full of surprises and intrigues and written in a beautiful style, a breath of fresh air on the African Islamic American connection. Journal of the American Academy of Religion The involvement of black Americans with Islam reaches back to the earliest days of the African presence in North America. Part I of the book explores these roots in the Middle East, West Africa, and antebellum America. Part II tells the story of the Prophets of the City, the leaders of the new urban-based African American Muslim movements in the 20th century. Turner places the study of Islam in the context of the racial, ethical, and political relations that influenced the reception of successive presentations of Islam, including the West African Islam of slaves, the Ahmadiyya Movement from India, the orthodox Sunni practice of later immigrants, and the Nation of Islam. This second edition features a new introduction which discusses developments since the earlier edition, including Islam in a post-9/11 America.

A Nation Can Rise No Higher Than Its Women Bayyinah S. Jeffries, 2014-04-04 *A Nation Can Rise No Higher Than Its Women* African American Muslim women in the Movement for Black Self-Determination, 1950-1975, challenges traditional notions and interpretations of African American, particularly women who joined the Original Nation of Islam during the Civil Rights/Black Power era. This book is the first major investigation of the subject that engages a wide scope of women from The Nation and utilizes a wealth of primary documents and personal interviews to reveal the importance of

women in this community Jeffries reveals that women were respected in the movement and maintained a very clear and often sought after voice in the advancement of the Original Nation of Islam A Nation Can Rise No Higher Than Its Women replaces the typical portrait of the subservient and irrelevant African American Muslim woman with a far more accurate picture of their integral leadership and substantial contributions to the rise of Islam and black consciousness in the self determination movement in the United States and beyond during the Civil Rights Black Power era **Urban Apologetics** Eric

Mason,2021-04-06 Urban Apologetics examines the legitimate issues that Black communities have with Western Christianity and shows how the gospel of Jesus Christ rather than popular socioreligious alternatives restores our identity African Americans have long confronted the challenge of dignity destruction caused by white supremacy While many have found meaning and restoration of dignity in the black church others have found it in ethnocentric socioreligious groups and philosophies These ideologies have grown and developed deep traction in the black community and beyond Revisionist history conspiracy theories and misinformation about Jesus and Christianity are the order of the day Many young African Americans are disinterested in Christianity and others are leaving the church in search of what these false religious ideas appear to offer a spirituality more indigenous to their history and ethnicity Edited by Dr Eric Mason and featuring a top notch lineup of contributors Urban Apologetics is the first book focused entirely on cults religious groups and ethnocentric ideologies prevalent in the black community The book is divided into three main parts Discussions on the unique context for urban apologetics so that you can better understand the cultural arguments against Christianity among the Black community Detailed information on cults religious groups and ethnic identity groups that many urban evangelists encounter such as the Nation of Islam Kemetic spirituality African mysticism Hebrew Israelites Black nationalism and atheism Specific tools for urban apologetics and community outreach Ultimately Urban Apologetics applies the gospel to black identity to show that Jesus is the only one who can restore it This is an essential resource to equip those doing the work of ministry and apology in urban communities with the best available information Bibliography of African American Leadership Cedric

Enemies Within Robert Alan Goldberg, 2008-10-01

divdivThere is a hunger for conspiracy news in America. Hundreds of Internet websites, magazines, newsletters, even entire publishing houses disseminate information on invisible enemies and their secret activities, subversions, and coverups. Those who suspect conspiracies behind events in the news, the crash of TWA Flight 800, the death of Marilyn Monroe, join generations of Americans from the colonial period to the present day who have entertained visions of vast plots. In this enthralling book, Robert Goldberg focuses on five major conspiracy theories of the past half century, examining how they became widely popular in the United States and why they have remained so. In the post World War II decades, conspiracy theories have become more numerous, more commonly believed, and more deeply embedded in our culture. Goldberg contends. He investigates conspiracy theories regarding the Roswell UFO incident, the Communist threat, the rise of the Antichrist, the assassination of President John Kennedy, and the Jewish plot against black America, in each case taking historical, social, and political environments into account. Conspiracy theories are not merely the products of a lunatic fringe, the author shows. Rather, paranoid rhetoric and thinking are disturbingly central in America today. With media validation and dissemination of conspiracy ideas and federal government behavior that damages public confidence and faith, the ground is fertile for conspiracy thinking.
