Mackinnon, 1997-01-28 In this 1997 book Alison Mackinnon traces the history of women s challenges to changes in education employment reproductive science and law She shows the connection between the lives of the first generation of women university graduates and the sudden decline in the national birthrate So dramatic was this shift that it sparked a Royal Commission into its cause Alison Mackinnon s extensive research shows that the declining birthrate was not simply the result of selfish educated young women refusing to bear the burdens of motherhood but was symptomatic of a larger questioning of the role of women in procreation the role of women in marriage and the institution of marriage itself Utilising social and government history autobiography and statistical analysis this book shows that the Marriage Problem exists as much in the 1990s as it did in the 1890s Men and women today are still challenging the boundaries between work and home profession and private life trying to find a way to have it all *Portraying Lives* Tanya Fitzgerald, Josephine May, 2016-04-01 The expansion of women s higher education in the late 19th and early 20th centuries in Australia and New Zealand offered educated women opportunities to broaden their aspirations horizons and experiences across many professional fields Engaged in the public activity of teaching in a range of educational institutions women were able to exercise a level of professional expertise authority and independence Paradoxically women were both empowered by the possibilities of educational careers yet at the same time restricted by the historical era in which they lived and the feminized positions they occupied In this book we draw on Sarah Lawrence Lightfoot and Jessica Hoffmann Davis methodological adoption of the use of portraits and portraiture to frame our history of women educators and highlight their unsettled acceptance of contemporary constraints and pressures exerted on educated women This book will be essential reading for those involved or interested in the historiography of women s education women teachers and headmistresses women s higher education educational biography and visual methodologies This book will also be of particular relevance to those engaged in the study of history sociology women and gender studies teacher education educational research and history of education

Outsiders Or Equals? Tanya Fitzgerald, 2009 Shortlisted for the Anne Bloomfield Prize 2010 Across the ninety years of its history the University of New

Zealand 1871 1961 appointed four women professors to the academic staff From the outset while the woman professor was an insider to the Academy based on her qualifications and professional credentials on the basis of her gender she was a relative outsider to this deeply patriarchal institution Accordingly academic women and in particular this first generation of women professors were officially invisible both to their male colleagues and to the institution This is not to suggest that the presence of a woman professor was unproblematic or that she sat easily on the margins of men's scholarly worlds This book traces the personal and professional histories of each woman professor and examines their contribution to the expansion of higher education for women On the basis of extensive archival research in New Zealand England and the United States the author uses Bourdieu's notions of habitus field and capital to analyse this intellectual community of women and the professionalisation of academic work The book rehabilitates the woman professor from the margins of historical scholarship and offers an insight into a forgotten aspect of the history of women's higher education the history of women and the professoriate
