Danger in the Path of Chic brings this disturbing imagery to light for the first time proposing new directions for historians of fashion violence and culture in the interwar years Concentrating on London Paris and New York as fashion centres and political allies the volume explores why horror manifested itself in this way at this time and in a sphere that is usually perceived as being built on fantasy and escape In doing so Danger in the Path of Chic situates fashion within the very real social psychological economic and political traumas of the period **The Publisher and Bookseller** ,1929 Official organ of the book trade of the United Kingdom **The Spectator** ,1913 A weekly review of politics literature theology and art
