LoveSex Cabby Laffy, 2018-05-08 This book looks at how our brains minds bodies and emotions interact to create our experience of sexuality and how we can create a sense of sexual self esteem and a nutritious sexual diet for ourselves As the author notes in her Introduction we think and talk about sex as something we do rather than sexuality being something that we have and being sexual as something that we are We talk little about feeling sexual or the emotional and relational reasons for sexual desire about the fact that it is usually an other that we want to be sexual with Our focus seems to be on how much sex we can have rather than how we want to express ourselves sexually This book challenges the cultural commodification of sex and sexuality and encourages the reader to experience being sexual rather than doing sex or looking sexy This is crucial to our development of sexual self esteem particularly in an era of ubiquitous online pornography **Technologies of Sexuality, Identity and Sexual Health** Lenore Manderson, 2012 *Technologies of Sexuality Identity and Sexual Health* highlights the complex ways in which sexuality is expressed and enacted through local ideologies global identities and material cultures and their influence on people s sexual health and well being Its impetus is the renewed interest in technology and the social life of things including pharmaceuticals expanded sexual and related surgery the growing exploitation of markets for sexual and contraceptive products and the impact of these on sexual and health practices and outcomes Organised loosely into three parts the opening chapters concentrate on female contraception its availability and the varied cultural significance attached to the ability to control its use exploring the politics of reproductive health and birth control and the ties between technology and power The middle section turns its attention to men and the impact of traditional and contemporary concerns about masculinity and the social and sexual roles of men The final chapters look at the commonalities across cultural borders and sexual gendered identities how products and procedures travel not only through the formal channels of globalisation but also informally carried by individuals across cultural and social boundaries through sexual social and commercial interactions The volume brings together anthropologists sociologists and cultural studies scholars both senior and emerging from around the globe Offering an important and topical contribution to the developing global literature on sexuality sexual identity culture and health it is of interest to researchers and advanced

students in these areas **Love Sex & Marriage in the Middle Ages** Conor McCarthy, 2013-10-28 First published in 2004 Routledge is an imprint of Taylor Francis an informa company Love Sex & Marriage Middle Age Conor McCarthy, First published in 2004 Routledge is an imprint of Taylor Francis an informa company *Edward II and a Literature of Same-Sex Love* Michael G. Cornelius, 2016-10-21 The narrative re tellings of the life reign and death of the English King Edward II reigned 1307 1327 present a unique opportunity for scholars of sexuality in the early modern era This is because the works of authors like Christopher Marlowe Michael Drayton Sir Francis Hubert Elizabeth Cary and Richard Niccols were all inspired by the public cultural memory fashioned from Edward s same sex love affair with Piers Gaveston As such each of them presents a particular representation of and a specific discourse about male male sexual relations in the Renaissance In other words what these works present is a concentrated body of literature about same sex love in the early modern era works that openly and frankly explore the possible origins of the love the reasons and causes for it works that explore the ramifications of male male romantic relationships works that explore the sexual politics and sociocultural dynamics of same sex romantic partnerships and works that describe and denote same sex love from an English Renaissance perspective This study looks at each of the major Renaissance texts about Edward II and examines the means through which each text understands and analyzes the nature of male male same sex love From Marlowe s crafting of a lover identity for Edward to Drayton s obsession with Marlowe s version of gay history from Hubert s Augustinian construction of Edward s nature to Cary s identification with the fallen king to Niccols inspired exemplum what each of these works demonstrates is that the love that dare not speak its name would not be silenced at least not in the case of Edward and Gaveston When one sees the name Edward II one also sees his same sex loves The correlation has become ingrained into our public recall of history Thus as far as the world is concerned Edward II was and ever will be the gay king **Gender and Identity in Central and Eastern Europe** Chri Corrin, 2014-02-04 This collection highlights changes in Central and Eastern Europe since 1989 from the perspectives of gender and identity Resistance to the negative consequences of certain changes demonstrate that women s activities have played a large part in democratic developments in various countries *Sex, Identity and Hermaphrodites in Iberia, 1500-1800* Francisco Vazquez Garcia, 2015-10-06 Early modern European thought held that men and women were essentially the same During the seventeenth century medical and legal arguments began to turn against this one sex model with hermaphroditism seen as a medieval superstition This book traces this change in Iberia in comparison to the earlier shift in thought in northern Europe **Gender Identity, Sexuality and Autism** Eva A. Place and Identity in the Lives of Antony, Paul, and Mary of Egypt Peter Anthony Mena,2019-04-24 In this book Peter Anthony Mena looks closely at descriptions of space in ancient Christian hagiographies and considers how the desert relates to constructions of subjectivity By reading three pivotal ancient hagiographies the Life of Antony the Life of Paul the Hermit and the Life of Mary of Egypt in conjunction with Gloria Anzald a s ideas about the US Mexican borderlands la frontera Mena shows readers how descriptions of the desert in these texts are replete with spaces and inhabitants that render the desert a borderland or frontier space in Anzald a n terms As a borderland space the desert functions as a device for the creation of an emerging identity in late antiquity the desert ascetic Simultaneously the space of the desert is created through the image of the saint Literary critical religious studies and historical methodologies converge in this work in order to illuminate a heuristic tool for interpreting the desert in late antiquity and its importance for the development of desert asceticism Anzald a s theories help guide a reading especially attuned to the important relationship between space and subjectivity

Same Sex Intimacies Catherine Donovan, Brian Heaphy, Jeffrey Weeks, 2003-09-02 Our families are increasingly a matter of choice and the choices are widening all the time This is particularly true of the non heterosexual world where the last ten years have seen a popular acceptance of same sex partnerships and to a lesser extent of same sex parenting Based on extensive interviews with people in a variety of non traditional relationships this fascinating new book argues that these developments in the non heterosexual world are closely linked to wider changes in the meaning of family in society at large and that each can cast light on the other Same Sex Intimacies gives vivid accounts of the different ways non heterosexual people have been able to create meaningful intimate relationships for themselves and highlights the role of individual agency and collective endeavour in forging these roles as friends partners parents and as members of communities This topical book will provide compelling reading for students of the family sexuality and lesbian and gay studies

Virtue as Identity Aleksandar Fatic, 2016-07-11 Virtue as Identity offers a study of how virtue is learned and identity acquired through the selection and internalization of values A large part of this process is externally imposed through culture Another perhaps more important part of the process is the result of individual and collective sensibilities The book emphasizes the role of emotions and emotional sensibility in our choice of values The book reaffirms traditional morality as the foundation of our individual and collective identities The author argues that emotions as well as rational decisions guide the value choices we make and the ideals of character that we presuppose on a political level as much as they

do in our private lives Thus the societies we live in are a reflection of our identities or the identities of the majority This opens up radical questions about the identities of the dissenting minorities the proper concept of a moral or value community and the real reach and value of tolerance in modern democracy **Check It While I Wreck It** Gwendolyn D.

Kabbalah and psychoanalysis are conceptions about the nature of reality The former is over two thousand years old The latter has been formalized less than a hundred years ago Nonetheless they are parallel journeys of discovery that have forever altered not only what we see but the very nature of seeing itself The domain of Kabbalah is the spiritual and material macrocosm In contrast the concern of psychoanalysis is the microcosm the innermost recesses of the human mind However both are convergent and complementary theories Kabbalah asserts as above so below meaning the Godhead the source of everything is reflected in the smallest details of existence Similarly psychoanalysis traces the evolution from inner objects to family feuds and social fields More than theories however Kabbalah and psychoanalysis test the limits of direct experience They are contemplative meditative and introspective methods for restoring shattered worlds and fragmented lives These are material as well as spiritual entities which have been separated from their source on one hand the Godhead and on the other personal praxis The purpose of this study is to explore how Kabbalah and psychoanalysis converge and diverge complement and conflict with each other in order to amplify their impact and enable mankind to gain a greater understanding of reality
