Love and Theft Eric Lott, 2023 Lott's study of the origins of the blackface minstrel provides a sophisticated analysis of US antebellum race relations **The Politics of Romantic Theatricality, 1787-1832** D. Worrall, 2007-04-12 This book sets out the political and cultural conditions regulating dramatic writing during an era of censorship and monopolistic royal theatres Using a range of plays and manuscripts it argues for the centrality of burletta the theatrical locus of the attacks on the Cockney school of poetry and the vitality of the metropolitan dramatic scene **Stairway to Paradise** Ari Katorza, 2021-09-07 Stairway to Paradise reveals how American Jewish entrepreneurs musicians and performers influenced

American popular music from the late nineteenth century till the mid 1960s From blackface minstrelsy ragtime blues jazz and Broadway musicals ending with folk and rock n roll The book follows the writers and artists real and imaginative relationship with African American culture s charisma Stairway to Paradise discusses the artistic and occasionally ideological dialogue that these artists writers and entrepreneurs had with African American artists and culture Tracing Jewish immigration to the United States and the entry of Jews into the entertainment and cultural industry the book allocates extensive space to the charged connection between music and politics as reflected in the Jewish Black Alliance both in the struggle for social justice and in the music field It reveals Jewish success in the music industry and the unique and sometimes problematic relationships that characterized this process as their dominance in this field became a source of blame for exploiting African American artistic and human capital Alongside this the book shows how black Jewish cooperation and its fragile alliance played a role in the hegemonic conflicts involving American culture during the 20th century Unintentionally it influenced the process of decline of the influence of the WASP elite during the 1960s Stairway to Paradise fuses American history and musicology with cultural studies theories This inter disciplinary approach regarding race class and ethnicity offers an alternative view of more traditional notions regarding understanding American music s evolution

Sonidos Negros K. Meira Goldberg, 2019 How is the politics of Blackness figured in the flamenco dancing body What does flamenco dance tell us about the construction of race in the Atlantic world Sonidos Negros traces how in the span between 1492 and 1933 the vanquished Moor became Black and how this figure enacted in terms of a minstrelized Gitano paradoxically came to represent Spain itself The imagined Gypsy about which flamenco imagery turns dances on a knife s edge delineating Christian and non Christian White and Black worlds This figure s subversive teetering undermines Spain s symbolic linkage of religion with race a prime weapon of conquest Flamenco s Sonidos Negros live in this precarious balance amid the purposeful confusion and ruckus cloaking embodied resistance the lament for what has been lost and the values and aspirations of those rendered imperceptible by enslavement and colonization

Unfinished Business Judith Hamera, 2017-10-02 How does structural economic change look and feel How are such changes normalized Who represents hope Who are the cautionary tales Unfinished Business argues that U S deindustrialization cannot be understood apart from issues of race and specifically apart from images of and works by and about African Americans that represent or resist normative or aberrant relationships to work and capital in transitional times It insists that Michael Jackson s performances and coverage of his life plays featuring Detroit plans for the city s postindustrial revitalization and Detroit installations The Heidelberg Project and Mobile Homestead have something valuable to teach us about three decades of structural economic transition in the U S particularly about the changing nature of work and capitalism between the mid 1980s and 2016 Jackson and Detroit offer examples of the racialization of deindustrialization

how it operates as a structure of feeling and as representations as well as a shift in the dominant mode of production and how industrialization's successor mode financialization uses imagery both very similar to and very different from its predecessor

Epistemic Justice and Creative Agency Sarah Colvin, Stephanie Galasso, 2022-09-12 Foundational theories of epistemic justice such as Miranda Fricker's have cited literary narratives to support their case But why have those narratives in particular provided the resource that was needed And is cultural production always supportive of epistemic justice This essay collection written by experts in literary philosophical and cultural studies working in conversation with each other across a range of global contexts expands the emerging field of epistemic injustice studies The essays analyze the complex relationship between narrative aesthetics and epistemic justice referencing texts film and other forms of cultural production The authors present without seeking to synthesize perspectives on how justice and injustice are narratively and aesthetically produced This volume by no means wants to say the last word on epistemic justice and creative agency The intention is to open out a productive new field of study at a time when understanding the workings of injustice and possibilities for justice seems an ever more urgent project
