## Love Russian Style:

The Battle of the Sexes Russian Style Nadezhda Ptushkina, 2018-01-01 Ptushkina's plays reflect her keen interest in constructing multidimensional characters that reflect the myriad ways people are affected by today's turbulent world. Often writing strong female roles she does not shy away from exploring the sometimes tragic implications that lie behind her comical almost farcical scenes. Ptushkina questions the nature of love and explores the boundaries between the spiritual and the base, the constructive and the destructive that lie within every human being. Her writing questions the relationship between ideals and reality and between truth and deception. In this new translation western readers have a chance to discover why Ptushkina's work holds such a wide appeal in the Russian theatre. The universal themes of love, the need for human closeness and multifaceted complex female characters make Nadezhda Ptushkina's plays desirable material for any professional theatre, says Slava Yastremski in the preface to this edition. Current edition contains such famous Ptushkina's plays as *I Pay Up Front Somebody Else's Candlelight*, *Momma's Dying Again*, *My Goldfish* and *Rachel's Flute*. Translated from the Russian by Slava Yastremsky and Michael M. Naydan. *Russian Style* Julie A. Cassiday, 2023-12-19 In the two decades after the turn of the millennium Vladimir Putin's control over Russian politics and society grew at a steady pace. As the West liberalized its stance on sexuality and gender, Putin's Russia moved in the opposite direction, remolding the performance of Russian citizenship according to a neoconservative agenda characterized by increasingly exaggerated gender roles. By connecting gendered and sexualized citizenship to developments in Russian popular culture, Julie A. Cassiday argues that heteronormativity and homophobia became a kind of politicized style under Putin's leadership. However, while the multiple modes of gender performativity generated in Russian popular culture between 2000 and 2010 supported Putin's neoconservative agenda, they also helped citizens resist and protest the state's mandate of heteronormativity. Examining everything from memes to the Eurovision Song Contest and self-help literature, Cassiday untangles the discourse of gender to argue that drag or travesti became the performative trope par excellence in Putin's Russia. Provocatively, Cassiday further argues that the exaggerated expressions of gender demanded by Putin's regime are best understood as a form of cisgender drag. This smart and lively study provides critical nuanced analysis of the relationship between popular culture and politics in Russia during Putin's first two decades in power. *The New Psychology of Love* Robert J. Sternberg, Karin Sternberg, 2019 This is a much needed update on the latest theory and research on love supplied by leading scientific experts. It is suitable for psychologists, neuroscientists, anthropologists, sociologists, and anyone with an interest in love and what has been learned from scientific studies of it. *Psychology of Love 101* Karin Sternberg, 2014 Print CourseSmart **Why We Love** Helen Fisher, 2005-01-02 A groundbreaking exploration of our most complex and mysterious emotion. Elation, mood swings, sleeplessness, and obsession: these are the tell-tale signs of someone in the throes of romantic passion. In this revealing new book, renowned anthropologist Helen Fisher explains why this experience, which cuts across time, geography, and gender, is a

force as powerful as the need for food or sleep Why We Love begins by presenting the results of a scientific study in which Fisher scanned the brains of people who had just fallen madly in love She proves at last what researchers had only suspected when you fall in love primordial areas of the brain light up with increased blood flow creating romantic passion Fisher uses this new research to show exactly what you experience when you fall in love why you choose one person rather than another and how romantic love affects your sex drive and your feelings of attachment to a partner She argues that all animals feel romantic attraction that love at first sight comes out of nature and that human romance evolved for crucial reasons of survival Lastly she offers concrete suggestions on how to control this ancient passion and she optimistically explores the future of romantic love in our chaotic modern world Provocative enlightening and persuasive Why We Love offers radical new answers to the age old question of what love is and thus provides invaluable new insights into keeping love alive

Bernhard Hemetsberger, Andreas Oberdorf, 2025-03-31 The West is a central concept in public discourse but its meaning is often unclear and open to manifold interpretations and ascriptions of belonging and exclusion Who is part of the West When and where is it located How did its meaning change over space and time Who are the mediators of the West and what is their interest in terms of culture and education The West is often used

without any critical questioning though This is also reflected in history of education research especially with focus on transnational or transatlantic issues Here the West is a sort of container term or fuzzy concept that can refer to a variety of historical entanglements and cultural transfers in school systems and education but also to conflicts and crises accordingly This book aims to stimulate a critical reflection and debate on ideas of the West in the history of education by gathering scholars from various fields of historical research With a reflexive historical distance to current political incidents in which ideas of the West are revived the contributions in this book are intended to enable readers to evaluate representations of the West in current academic or public discourses and debates alike

Soviet Self-Hatred Eliot Borenstein, 2023-06-15 Soviet Self Hatred examines the imaginary Russian identities that emerged following the collapse of the Soviet Union Eliot Borenstein shows how these identities are best understood as balanced on a simple axis between pride and shame shifting in response to Russia's standing in the global community its anxieties about internal dissension and foreign threats and its stark socioeconomic inequalities Through close readings of Russian fiction films jokes songs fan culture and Internet memes Borenstein identifies and analyzes four distinct types with which Russians identify or project onto others They are the sovok the Soviet yokel the New Russian the despised ridiculous nouveau riche the vatnik the belligerent jingoistic patriot and the Orc the ultraviolent savage derived from a deliberate misreading of Tolkien's epic Through these contested identities Soviet Self Hatred shows how stories people tell about themselves can tragically become the stories that others are forced to live
