architects Luis Barragán 1902-1985 was a preeminent Mexican architect known for spare formulations and documentation of his design ideas. He was born in Guadalajara where he practiced in the early years of his career and later traveled extensively in Europe where he became influenced by concepts of early twentieth century modernism. His ideas were especially shaped by the time he spent with Le Corbusier. He developed a design aesthetic that elevated the serenity of spaces above functionality. He spent most of his career in Mexico City and his work went widely unrecognized for most of his life though he enjoyed quiet acclaim from Louis Kahn, Álvaro Siza and other prominent figures. His home and studio in Mexico City are a popular museum and have been named a UNESCO World Heritage Site. Yet little is known about this influential and highly regarded modern architect. A Conversation with Luis Barragán, an insightful interview conducted by Alejandro Ramírez Ugarte in 1962, offers an account of Barragán's career, travels and primary aesthetic and architectural design concerns. Published for the first time in English, it provides a critical if brief look into the mind of Barragán. The only lecture the architect ever delivered and the illuminating acceptance speech he delivered upon receiving the prestigious Pritzker Architecture Prize accompany the interview. Taken together, this trio of documents forms a succinct corpus that goes to the heart of Barragán's vision, providing a better understanding of his work and reinforcing his importance in the architecture world.

The architecture of Luis Barragán Luis Barragán, 1976 *The Life and Work of Luis Barragán* José María Buendía Júlvez, Juan Palomar, Guillermo Eguarte, 1997

Luis Barragán is an icon of contemporary architecture, a genius of color, light, walls, the garden, the tower, the rooftop. He has influenced an entire generation of current architects, not least of them his one-time collaborator Ricardo Legorreta. Admirers of his work note its serenity, its harmony. In 1979 when Barragán was presented the Pritzker Prize, his work was referred to as a sublime act of the poetic imagination. It is this aspect of Barragán's work that is presented in *The Life and Work of Luis Barragán*, a biographical portrait that reveals Barragán as a master of what he himself called emotional architecture. Barragán's impressions and influences are recorded here from his early years in Guadalajara to his work in Mexico City and his highly inspiring travels in the Alhambra, the villages of Greece and northern Africa. His rejection of the concepts of Le Corbusier and the International Style and his embrace of the ideas of the French intellectual painter and landscape architect Ferdinand Bac provided a valuable framework for understanding both the theory and form of Barragán's oeuvre. Brilliant color photographs record Barragán's vibrant work as it has never been seen before, including generous interior shots of such varied projects as Casa Cristo in Guadalajara and Casas Galvez, Egerstrom and Meyer, all from his Mexico City years. Barragán was perhaps first and foremost a landscape architect, and this book spotlights his gardens and his vanguard landscape-based approach to architecture itself, centered on the close relationship between landscape, color and architecture in Mexico and the other lands that inspired him. Text and photographs combine in *The Life and Work of Luis Barragán* for a personal and evocative portrayal of the Mexican master that will fascinate everyone familiar with his legacy and intrigue those who are only just discovering the power and influence of his work.
