think Jonah Lehrer arms us with the tools we need drawing on cutting edge research as well as the real world experiences of a wide range of deciders from airplane pilots and hedge fund investors to serial killers and poker players Lehrer shows how people are taking advantage of the new science to make better television shows win more football games and improve military intelligence His goal is to answer two questions that are of interest to just about anyone from CEOs to firefighters How does the human mind make decisions And how can we make those decisions better
