Lyric Descent In The German Romantic Tradition:

Lyric Descent in the German Romantic Tradition Brigitte Peucker, 1987 **Aesthetic Vision and German Romanticism** Brad Prager, 2007 Crosses disciplinary boundaries to explore German Romantic writing about visual experience and the interplay of text and image in Romantic epistemology The work of the groundbreaking writers and artists of German Romanticism including the writers Tieck Brentano and Eichendorff and the artists Caspar David Friedrich and Philipp Otto Runge followed from the philosophical arguments of the German Idealists who placed emphasis on exploring the subjective space of the imagination The Romantic perspective was a form of engagement with Idealist discourses especially Kant's Critique of Pure Reason and Fichte's Science of Knowledge Through an aggressive speculative reading of Kant the Romantics abandoned the binary distinction between the palpable outer world and the ungraspable space of the mind's eye and were therefore compelled to develop new terms for understanding the distinction between internal and external In this light Brad Prager urges a reassessment of some of Romanticism's major oppositional tropes contending that binaries such as self and other symbol and allegory and light and dark should be understood as alternatives to Lessing's distinction between interior and exterior worlds Prager thus crosses the boundaries between philosophy literature and art history to explore German Romantic writing about visual experience examining the interplay of text and image in the formulation of Romantic epistemology Brad Prager is Associate Professor of German at the University of Missouri Columbia **The Cambridge Introduction to German Poetry** Judith Ryan, 2012-11 Exploring traditional poems alongside new examples this Introduction conveys the rich rewards that come with reading German poetry **Tsvetaeva's Orphic Journeys in the Worlds of the Word** Olga Peters Hasty, 1996 Tsvetaeva's Orphic Journeys in the Worlds of the Word explores the rich theme of the myth of Orpheus as master narrative for poetic inspiration and creative survival in the life and work of Marina Tsvetaeva Olga Peters Hasty establishes the basic themes of the Orphic Complex the poet's longing to mediate between the embodied physical world and an elsewhere the poet's inability to do so the primacy of the voice over the visual world the insistence on concrete imagery the costs of the poet's gift and orders her arguments in the tragic shape of the Orpheus myth as it worked itself out organically in Tsvetaeva's own life Hasty delineates the connections between the Orpheus myth and other key mythological and literary figures in the poet's life including Alexander Blok Anna Akhmatova Alexander Pushkin and Rainer Maria Rilke to make an important and original critical contribution **The Feminist Encyclopedia of German Literature** Friederike Eigler, Susanne Kord, 1997-02-28 Today a multiplicity of feminist approaches has become an integral part of the fields of German literary and cultural studies This comprehensive reference provides a much needed synthesis of the contribution women have made to German literature and culture In entries for more than 500 topics the volume surveys literary periods epochs and genres critical approaches and theories important authors and works female stereotypes laws and historical developments literary concepts and themes and organizations and archives relevant to women and women's studies Each

Friedrich Leopold Graf Zu Stolberg and the German Romantics Eleoma Joshua, 2005 This study examines the life and works of the poet Friedrich Leopold Graf zu Stolberg 1750-1819 It begins with an analysis of Stolberg's essays on poetic expression in relation to Romantic thinking and the impact of his poetic style on Novalis's early poetry Stolberg's aesthetic education in Italy is examined as well as his challenge to the idea that classical sculpture was always the pinnacle of beauty and that the culture of antiquity was the highest form of humanity The detection of melancholy in Greek sculpture which arises from the transfer of anxieties about redemption from the artist to the artefact affected his response and detracted from the beauty of the sculpture This view amounted to an attack on Goethe and Schiller as it identified the issue of salvation and death as a weakness in the classical paradigm The picture of Italy that Stolberg offered was overshadowed by a crisis of confidence in the aesthetic insights both of Winckelmann and of Lessing and was also the basis for his reception of Raphael and Michelangelo Stolberg arrived at a response to Renaissance art and artists that marginally predates the early German Romantic worship of artists in the 1790s The book concludes with a discussion of Stolberg's support of Romantic politics and Romantic conversions
