Machado De Assis Reflections On A Brazilian Master Writer:

Machado de Assis Richard Graham, 2010-07-22 Joaquim Maria Machado de Assis 1839 1908 never left Brazil and rarely traveled outside his native city of Rio de Janeiro yet he is widely acknowledged by those who have read him as one of the major authors of the nineteenth century His works are full of subtle irony relentless psychological insights and brilliant literary innovations Yet because he wrote in Portuguese a language outside the mainstream of Western culture those with access to his writings are relatively few This book is designed not only to call new attention to this master but also to raise questions about the nature of literature itself and current alternative views on how it can be approached Four essays address the question of Machado's realism in the five masterpiece novels of his maturity especially *Dom Casmurro* The noted contributors include John Gledson University of Liverpool Jo o Adolfo Hansen Universidade de S o Paulo Sidney Chalhoub Universidade de Campinas and Daphne Patai University of Massachusetts at Amherst Dain Borges of the University of California at San Diego says This is the only collection explicitly debating the question that polarizes contemporary Brazilian criticism of Machado de Assis was he a sophisticated late realist or was he a pioneering anti realist even a postmodernist The essayists marshal their evidence and argument with virtuosity and arrive at sharply opposing conclusions **Honor,**

Status, and Law in Modern Latin America Sueann Caulfield, Sarah C. Chambers, Lara Putnam, 2005-06-08 This collection brings together recent scholarship that examines how understandings of honor changed in Latin America between political independence in the early nineteenth century and the rise of nationalist challenges to liberalism in the 1930s These rich historical case studies reveal the uneven processes through which ideas of honor and status came to depend more on achievements such as education and employment and less on the birthright privileges that were the mainstays of honor during the colonial period Whether considering court battles over lost virginity or police conflicts with prostitutes vagrants and the poor over public decorum the contributors illuminate shifting ideas about public and private spheres changing conceptions of race the growing intervention of the state in defining and arbitrating individual reputations and the enduring role of patriarchy in apportioning both honor and legal rights Each essay examines honor in the context of specific historical processes including early republican nation building in Peru the transformation in Mexican villages of the cargo system by which men rose in rank through service to the community the abolition of slavery in Rio de Janeiro the growth of local commerce and shifts in women's status in highland Bolivia the formation of a multiethnic society on Costa Rica's Caribbean coast and the development of nationalist cultural responses to U S colonialism in Puerto Rico By connecting liberal projects that aimed to modernize law and society with popular understandings of honor and status this volume sheds new light on broad changes and continuities in Latin America over the course of the long nineteenth century Contributors Jos Amador de Jesus Rossana Barrag n Sueann Caulfield Sidney Chalhoub Sarah C Chambers Eileen J Findley Brodwyn Fischer Ol via Maria Gomes da Cunha Laura Gotkowitz Keila Grinberg Peter Guardino Cristiana Schettini Pereira Lara Elizabeth Putnam

Machado de Assis and Female Characterization , Earl E. Fitz, 2014-11-19 This book examines the nature and function of the main female characters in the nine novels of Machado de Assis The basic argument is that Machado had a particular interest in female characterization and that his fictional women became increasingly sophisticated and complex as he matured and developed as a writer and social commentator This book argues that Machado developed especially after 1880 and what is usually considered the beginning of his mature period a kind of anti realistic new narrative one that presents itself as self referential fictional artifice but one that also cultivates a keen social consciousness The book also contends that Machado increasingly uses his female characterizations to convey this social consciousness and to show that the new Brazil that is emerging both before and after the establishment of the Brazilian Republic 1889 requires not only the emancipation of the black slaves but the emancipation of its women as well

Clarice Lispector Earl E. Fitz, 2024-04-15 Clarice Lispector From Brazil to the World explains why the

Brazilian master was so transformative of modern Brazilian literature and why she has become such a celebrity in the world literature arena This book also shows why Lispector is not one writer as many think but many writers By offering close readings of her novels stories and nonfiction pieces Earl E Fitz shows the diverse sides of her literary world Chapters cover Lispector s devotion to language and its connection to identity her political engagement and her humor eroticism and struggle with the concept of God The last chapter seeks to explain why this most singular of modern Brazilian writers commands such a passionate global following *Feeding the City* Richard Graham,2010-10-15 On the eastern coast of Brazil facing westward across a wide magnificent bay lies Salvador a major city in the Americas at the end of the eighteenth century Those who distributed and sold food from the poorest street vendors to the most prosperous traders black and white male and female slave and free Brazilian Portuguese and African were connected in tangled ways to each other and to practically everyone else in the city and are the subjects of this book Food traders formed the city s most dynamic social component during the late eighteenth and early nineteenth centuries constantly negotiating their social place The boatmen who brought food to the city from across the bay decisively influenced the outcome of the war for Brazilian independence from Portugal by supplying the insurgents and not the colonial army Richard Graham here shows for the first time that far from being a city sharply and principally divided into two groups the rich and powerful or the hapless poor or enslaved Salvador had a population that included a great many who lived in between and moved up and down The day to day behavior of those engaged in food marketing leads to questions about the government s role in regulating the economy and thus to notions of justice and equity questions that directly affected both food traders and the wider consuming public Their voices significantly shaped the debate still going on between those who support economic liberalization and those who resist it

Finalist for the National Book Critics Circle Award in Criticism. Shortlisted for the Christian Gauss Award. Phi Beta Kappa Society. A history of the chapter from its origins in antiquity to today. Why do books have chapters? With this seemingly simple question, Nicholas Dames embarks on a literary journey spanning two millennia, revealing how an ancient editorial technique became a universally recognized component of narrative art and a means to register the sensation of time. Dames begins with the textual compilations of the Roman world where chapters evolved as a tool to organize information. He goes on to discuss the earliest divisional systems of the Gospels and the segmentation of medieval romances, describing how the chapter took on new purpose when applied to narrative texts and how narrative segmentation gave rise to a host of aesthetic techniques. Dames shares engaging and in-depth readings of influential figures from Sterne, Goethe, Tolstoy, and Dickens to George Eliot, Machado de Assis, B.S. Johnson, Agnès Varda, Uwe Johnson, Jennifer Egan, and Leszli Krasznahorkai. He illuminates the sometimes tacit, sometimes dramatic ways in which the chapter became a kind of reckoning with time and a quiet but persistent feature of modernity. Ranging from ancient tablets and scrolls to contemporary fiction and film, *The Chapter* provides a compelling, elegantly written history of a familiar compositional mode that readers often take for granted and offers a new theory of how this versatile means of dividing narrative sculpts our experience of time. Automatic Religion Paul Christopher Johnson, 2021-01-12 What distinguishes humans from nonhumans Two common answers free will and religion are in some ways fundamentally opposed Whereas free will enjoys a central place in our ideas of spontaneity authorship and deliberation religious practices seem to involve a suspension of or relief from the exercise of our will What then is agency and why has it occupied such a central place in theories of the human Automatic Religion explores an unlikely series of episodes from the end of the nineteenth century when crucial ideas related to automatism and in a different realm the study of religion were both being born Paul Christopher Johnson draws on years of archival and ethnographic research in Brazil and France to explore the crucial boundaries being drawn at the time between humans nearhumans and automata As agency came to take on a more central place in the philosophical moral and legal traditions of the West certain classes of people were excluded as less than human Tracking the circulation of ideas across the Atlantic Johnson tests those boundaries revealing how they were constructed on largely gendered and racial foundations In the process he reanimates one of the most mysterious and yet foundational questions in trans Atlantic thought what is agency
