Maya Angelou Genius The Artist And The Process:

Dreamers, Discoverers & Dynamos Lucy Jo Palladino, Ph.D.,2010-12-01 Does your imaginative computer proficient daughter tune out in the classroom Does your spirited son become headstrong and aggressive when faced with the simplest decisions Does your bold energetic child have trouble focusing on basic tasks Millions of children one in five have what psychologist Lucy Jo Palladino Ph D calls the Edison trait dazzling intelligence an active imagination a free spirited approach to life and the ability to drive everyone around them crazy Named after Thomas Edison who flunked out of school only to harness his talents and give the world some of its finest inventions the Edison trait is on the rise in our younger generation The heart of the issue is that they think divergently they overflow with many ideas while schools organized activities and routines of daily living reward convergent thinking which focuses on one idea at a time Drawing on examples from more than two decades of private practice Dr Palladino helps us cope with this challenging aspect of our child s intellect and personality explaining in clear terms The three Edison trait personality types dreamers discoverers and dynamos The eight steps to understanding reaching and teaching your Edison trait child The connection between the Edison trait and A D D *Failing at Fairness* Myra Sadker,David Sadker,2010-05-11 Failing at Fairness the result of two decades of research shows how gender bias makes it impossible for girls to receive an education equal to that given to boys Girls learning problems are not identified as often as boys are Boys receive more of their teachers attention Girls start school testing higher in every academic subject yet graduate from high school scoring 50 points lower than boys on the SAT Hard hitting and eye opening Failing at Fairness should be read by every parent especially those with daughters **Hooray for Heroes!** Dennis Denenberg,Lorraine Roscoe,1994 Combines creative activities with a comprehensive list of biographies written for children Organized by age group pre school ages 3 5 primary 6 8 intermediate 9 11 and young people 12 14 *The Edison Trait* Lucy Jo Palladino,1997 An award winning clinical psychologist is the first to codify a pattern of thinking that puts one in five children on a collision course with a conforming world Millions of children one in five possess dazzling intelligence an active imagination a free spirited approach to life and the ability to drive everyone around them completely crazy Such kids Lucy Jo Palladino argues possess the Edison Trait Unlike their peers they think divergently generating many ideas at once rather than convergently focusing on one idea at a time While such kids have the same restless creative urges that helped Thomas Edison Bill Gates Ted Turner Maya Angelou and others succeed in later life their brain storming minds often cause distress in school where conformity rules the classroom Further some Edison kids have ADD attention deficit disorder which puts them at greater risk for dysfunction Dr Palladino helps parents identify and appreciate the Edison Trait in their children and determine whether their child is a Dreamer Discoverer or Dynamo She offers eight steps designed to help understand and support the gifts of the Edison Trait and minimize its deficits She also includes a special section for parents whose Edison kids have ADD **Unlock Your Creative Genius** Bernard Golden,2010-04-06 A Noted Psychologist Shows You How to

Embrace Your Passion Maximize Your Courage to Create Identify and Overcome Personal Barriers Awaken Your Natural Curiosity Increase Your Emotional Intelligence to Create Prepare to Be Inspired Bernard Golden has provided a comprehensive manual of cognitive behavioral therapy for alleviating creative block This book is a must read for all students of creativity as well as for writers artists inventors and all individuals who feel their creative powers percolating just out of reach It will become required reading for my course SHELLEY H CARSON Ph D HARVARD UNIVERSITY Lecturer and Assistant Head Tutor Psychology Instructor for the course Creativity Madmen Geniuses and Harvard Students Creativity is one of life s great sources of fulfillment whether it is expressed in the arts science business or sheer entertainment When we are at our creative best we experience emotions of joy excitement anticipation hope and deep satisfaction Unfortunately for many people such moments of uninhibited creative drive are all too rare Often when we try to be creative we also experience the inhibiting emotions of anxiety self doubt judgmental attitudes or even shame guilt and physical discomfort Psychologist Bernard Golden helps us to be our authentic selves by pursuing our individual creative paths in this motivational guide Filled with the insights and practical techniques culled from his almost thirty years as a psychotherapist Unlock Your Creative Genius gives you the tools to unleash your creative imagination and manage the tension and negative mind body reactions that often impede the creative flow Golden first offers a variety of strategies that help the reader become aware of the often unconscious obstacles to creative fulfillment Among these are fear of failure survivor s guilt when friends or loved ones are ill or have died the shame of failing to meet our own or others unrealistic expectations grandiose fantasies problems with self discipline a pattern of dependency that impedes self motivation and an aversion to being alone even though creative expression usually demands time by ourselves To counter these negative reactions Golden provides guidelines to enhance positive emotions such as openness to change trust and the commitment essential for creativity He also stresses the need to promote physical calm to offset tension and the importance of developing self compassion a vital resource in dealing with fear shame and guilt This inspiring helpful and very practical book offers readers the freedom to live authentically as they access accept and act on their creative genius Bernard Golden Ph D Chicago IL a clinical psychologist since 1977 is the author of Healthy Anger How to Help Children and Teens Manage Their Anger and the coauthor with Jan Fawcett MD and Nancy Rosenfeld of New Hope for People with Bipolar Disorder *Beyond Genius* Bulent Atalay, 2023-11-07 An in depth and unified exploration of genius in the arts and sciences through the life and works of five seminal intellectual and cultural figures Leonardo da Vinci William Shakespeare Isaac Newton Ludwig von Beethoven and Albert Einstein Who among us hasn t read Hamlet listened to the Fifth Symphony gazed at the Mona Lisa or marveled at the three laws of physics and the Theory of Relativity and been struck with the same simple question how on Earth did they do it Where did these masters draw inspiration to produce some of the most stunning achievements in human history Were their brains wired differently than ours Did they have special traits or unique experiences that set them on the path to greatness Genius is a broad and elusive

concept one that is divisive and hard to define and gravely misunderstood There are ordinary geniuses who achieve remarkable feats of brilliance as well as magicians a term James Gleick invoked to describe Richard Feynman who make an outsize impact on their given field But highest among them are transformative geniuses those rare individuals who redefine their fields or open up new universes of thought altogether These are the masters whose genius Bulent Atalay decodes in his engrossing enlightening and revelatory book *No* Atalay doesn't have a road map for how we might become the next Einstein or Leonardo but his revolutionary study of genius gives us a stunning new lens through which to view humanity's most prolific thinkers and creators and perhaps pick up some inspiration along the way At first it seems that transformative geniuses don't follow any sort of topography Their prodigious output looks effortless they leap from summit to summit and they probably couldn't explain exactly how they went about solving their problems They might not even recognize themselves in the ways we talk about them today Atalay argues that these heroes fit more of a mold than we might think As evidence he rigorously dissects the lives traits habits and thought patterns of five exemplars Leonardo Shakespeare Newton Beethoven and Einstein to map the path of the transformative genius How did Beethoven who could not perform basic multiplication innately encode the Fibonacci Sequence in his symphonies Is it possible that we understate Shakespeare's poetic influence How did Leonardo become equally prolific in both the arts and the sciences How did Newton formulate the universal laws of physics the basis of so many other sciences And what prompted TIME Magazine to declare Einstein a man whose very name is synonymous with genius the Individual of the 20th Century With great clarity and attention to detail Atalay expertly traces how these five exemplars ascended to immortality and what their lives and legacies reveal about how transformative geniuses are made
