care about the source of our food as much as the preparation so it is no surprise that foodies have discovered wild edibles. From the most upscale restaurants in New York to humble farm stays in Europe, chefs and restaurant goers alike are seeking pleasure in food found in the wild. In *Pursuit of Wild Edibles: A Forager's Tour*, tells the story of one man passionate about finding wild edibles and creating recipes to highlight their unique flavors. An American expatriate poet and gourmet living in France, Jeffrey Greene has scoured the fields, rivers, and beaches of Europe and his native New England in search of foods ranging from puffballs and periwinkles to stone pine nuts and gooseneck barnacles. For many, foraging is the latest trend in foodie culture, but for Greene, this journey stretches back to his childhood when his parents fled New York City to a shack-like house in rural Connecticut. Convinced they could live off the land, the family raised goats, planted gardens, gathered seafood at the nearby coast, and foraged for food from the woods. Inspired by these childhood experiences, Greene and his wife Mary bought and restored an old priory in rural Burgundy. Surrounded by forests, they learned to identify mushrooms and greens and devoted themselves to inventing recipes for them. Thus began a pursuit that took Greene to the Polish Carpathians, the Appennines overlooking the Ligurian coast, the shores of Normandy and Brittany, and to Plymouth, Massachusetts, where the Pilgrims eked out their first winter in near starvation. Greene's captivating book offers experienced foragers and novices alike an extensive sampling of his own recipes and a chance to come along with him on his international adventures. From razor clams and wild sea urchins to young nettles and dandelion greens to wild strawberries and cherries, Greene showcases the beauty of what one can cook up in a truly wild recipe.

The American Church Monthly, 1920 **Prelude to War**

Norma Jean Lutz, 1998. Edie and Carl Schmidt didn't think things could get worse at school. But that was before the German navy began blowing American ships out of the water. That was before the rumors started, whispers that said Germany was going to invade the United States through Mexico. That was before their good friend Truman Vaught left to drive an ambulance on the battlefield in France. Now their best friends think Carl and Edie may be traitors just because their father is German. What can Carl and Edie do to prove their loyalty?

1950s. Sue Harper, Vincent Porter, 2003-09-11. In this definitive and long-awaited history of 1950s British cinema, Sue Harper and Vincent Porter draw extensively on previously unknown archive material to chart the growing rejection of post-war deference by both film makers and cinema audiences. Competition from television and successive changes in government policy all forced the production industry to become more market sensitive. The films produced by Rank and Ealing, many of which harked back to wartime structures of feeling, were challenged by those backed by Anglo-Amalgamated and Hammer. The latter knew how to address the rebellious feelings and growing sexual discontents of a new generation of consumers. Even the British Board of Film Censors had to adopt a more liberal attitude. The collapse of the studio system also meant that the screenwriters and the art directors had to cede creative control to a new generation of independent producers and film directors. Harper and Porter explore the effects of these social, cultural, industrial, and economic changes on 1950s British
