Nurses and Midwives in Nazi Germany Susan Benedict, Linda Shields, 2014-04-24 This book is about the ethics of nursing and midwifery and how these were abrogated during the Nazi era Nurses and midwives actively killed their patients many of whom were disabled children and infants and patients with mental and other illnesses or intellectual disabilities The book gives the facts as well as theoretical perspectives as a lens through which these crimes can be viewed It also provides a way to teach this history to nursing and midwifery students and for the first time explains the role of one of the world s most historically prominent midwifery leaders in the Nazi crimes

Social Outsiders in Nazi Germany Robert Gellately,Nathan Stoltzfus,2018-06-05 When Hitler assumed power in 1933 he and other Nazis had firm ideas on what they called a racially pure community of the people They quickly took steps against those whom they wanted to isolate deport or destroy In these essays informed by the latest research leading scholars offer rich histories of the people branded as social outsiders in Nazi Germany Communists Jews Gypsies foreign workers prostitutes criminals homosexuals and the homeless unemployed and chronically ill Although many works have concentrated exclusively on the relationship between Jews and the Third Reich this collection also includes often overlooked victims of Nazism while reintegrating the Holocaust into its wider social context The Nazis knew what attitudes and values they shared with many other Germans and most of their targets were individuals and groups long regarded as outsiders nuisances or problem cases The identification the treatment and even the pace of their persecution of political opponents and social outsiders illustrated that the Nazis attuned their law and order policies to German society history and traditions Hitler s personal convictions Nazi ideology and what he deemed to be the wishes and hopes of many people came together in deciding where it would be politically most advantageous to begin The first essay explores the political strategies used by the Third Reich to gain support for its ideologies and programs and each following essay concentrates on one group of outsiders Together the contributions debate the motivations behind the purges For example was the persecution of Jews the direct result of intense widespread anti-Semitism or was it part of a more encompassing and arbitrary persecution of unwanted populations that intensified with the war The collection overall offers a nuanced portrayal of German citizens showing that many supported the Third Reich while some tried to resist and that the war radicalized social thinking on nearly everyone s part In addition to the editors the contributors are Frank Bajohr Omer Bartov Doris L Bergen Richard J Evans Henry Friedlander Geoffrey J Giles Marion A Kaplan Sybil H Milton Alan E Steinweis Annette F Timm and Nikolaus Wachsmann

is essential to understand whether the Holocaust has always been seen as an insurmountable barrier against fascism is the idea of the genocide's constant antifascist use actually a dangerous assumption and if so what are the implications of this for Antifa as its battle with the contemporary far right unfolds This book provides a political and structural history of the Holocaust's relationship to antifascist organisations and questions whether networks of solidarity formed around Holocaust memory including analysing the impact of the genocide in Jewish antifascists motivations and rhetoric It also assesses the Holocaust's political capital in wider antifascism and connected anti racism including in defence of the Black and Asian communities increasingly victimised by fascists over the postwar period This book will appeal to scholars and students with interests in antifascism fascism racism and Jewish and left wing history in Britain and how these intersect with Holocaust consciousness *1968 Annual Supplement* John B. Simeone, Alfred de Grazia, Carl E. Martinson, 2013-12-01 **Genocide** Donald Bloxham, A. Dirk Moses, 2022-03-24 The growth of scholarship on the pressing problem of genocide shows no sign of abating This volume takes stock of Genocide Studies in all its multi disciplinary diversity by adopting a thematic rather than case study approach Each chapter is by an expert in the field and comprises an up to date survey of emerging and established areas of enquiry while highlighting problems and making suggestions about avenues for future research Each essay also has a select bibliography to facilitate further reading Key themes include imperial violence and military contexts for genocide predicting preventing and prosecuting genocide gender ideology the state memory transitional justice and ecocide The volume also scrutinises the concept of genocide its elasticity limits and problems It does not provide a definition of genocide but rather encourages the reader to think critically about genocide as a conceptual and legal category concerned with identity based violence against civilians Framing the moron Gerald O'Brien, 2015-11-01 Many people are shocked upon discovering that tens of thousands of innocent persons in the United States were involuntarily sterilized forced into institutions and otherwise maltreated within the course of the eugenic movement 1900-30 Such social control efforts are easier to understand when we consider the variety of dehumanizing and fear inducing rhetoric propagandists invoke to frame their potential victims This book details the major rhetorical themes employed within the context of eugenic propaganda drawing largely on original sources of the period Early in the twentieth century the term moron was developed to describe the primary targets of eugenic control This book demonstrates how the image of morosity in the United States was shaped by eugenicists This book will be of interest not only to disability and eugenic scholars and historians but to anyone who wants to explore the means by which pejorative metaphors are used to support social control efforts against vulnerable community groups *The Cumulative Book Index*, 1996 A world list of books in the English language **Nazi Antisemitism and Jewish Legal Self-Defense** David Fraser, 2023-09-01 One of the first to provide a socio legal comparative history of understudied or ignored Jewish attempts in the 1930s Anglosphere to counter the rise in fascist and Nazi antisemitism this book examines the ways in which Jewish individuals and organized communal bodies in the mid to late 1930s sought to counter

this increasing antisemitic violence physical and verbal by using the law against their fascist and Nazi attackers This is the first study to explore how Jews in these countries organized themselves brought their oppressors to court while seeking to convince their governments that an attack on Jews was a threat to the social order The book analyzes the networks of knowledge and the personal relationships between and among key actors and institutions of the Antisemitic International Nazi nationalists always participated in networks that transcended borders Case studies from Canada South Africa the United Kingdom and the United States illustrate the ways in which different mechanisms of Jewish resistance were deployed throughout the mid to late 1930s They embody significant concerns about the turn to law and the importance of litigation and legislation Grounded in original archival research on three continents the book examines the ways in which professional legal discourse about public order and democratic citizenship proffered by Jewish communities and individual Jews was countered by their Nazi opponents with legal and political arguments about truth persecution and Jewish perfidy The book will be of interest to students academics and researchers working in the areas of Legal History History Jewish Studies the study of Antisemitism and the History of the far right fascism and Nazism Death and the Quest for Meaning Stephen Strack, Herman Feifel, 1997 Essays in tribute to pioneering researcher Herman Feifel cover all aspects of thanatology the study of death and dying and the care of the dying and bereaved Topics include the role of the caregiver the process of grief religious and spiritual perspectives how children cope with death and assisted death Of interest to social workers nurses psychotherapists physicians clergy and educators Annotation copyrighted by Book News Inc Portland OR
