links to the state s storied past Who Gets a Childhood? William S. Bush, 2010 Using Texas as a case study for understanding change in the American juvenile justice system over the past century the author tells the story of three cycles of scandal reform and retrenchment each of which played out in ways that tended to extend the privileges of a protected childhood to white middle and upper class youth while denying those protections to blacks Latinos and poor whites On the forefront of both progressive and get tough reform campaigns Texas has led national policy shifts in the treatment of delinquent youth to a surprising degree Changes in the legal system have included the development of courts devoted exclusively to young offenders the expanded legal application of psychological expertise and the rise of the children s rights

movement At the same time broader cultural ideas about adolescence have also changed Yet the author demonstrates that as the notion of the teenager gained currency after World War II white middle class teen criminals were increasingly depicted as suffering from curable emotional disorders even as the rate of incarceration rose sharply for black Latino and poor teens He argues that despite the struggles of reformers child advocates parents and youths themselves to make juvenile justice live up to its ideal of offering young people a second chance the story of twentieth century juvenile justice in large part boils down to the exclusion of poor and nonwhite youth from modern categories of childhood and adolescence

Sketches from the Five States of Texas A. C. Greene,1998 When veteran columnist A C Greene turns his eyes on Texas he sees a variety of experiences and a scope of history that fascinate the rest of us Under its annexation terms Texas is allowed to divide itself into as many as six states While that is not ever likely to happen Greene masterfully shows that several cultural states do exist within the one political entity of Texas and have throughout the state s history Greene has a wide ranging curiosity about the facts of Texas history what lies behind them what quirks of human nature they reveal how the people who lived there might have experienced them roads not taken and why things have come to be as they are His historical writing has helped make Texas past accessible and even interesting to the public for over forty years Spotlighting individuals places and events that make for distinctiveness Sketches from the Five States of Texas features oddities and little known facts that present a kind of history within history Several sketches look at inventions or innovations such as plows and Other pieces focus on historic moments the first long distance telephone service the last messenger from the Alamo Transportation is a theme that runs through this book trains planes including a box kite contraption early automobiles and roads and steamboats ice boats and war boats Place names get attention too peculiar names unexpected sources and long lost places Naturally the wars of Texas are also covered the Revolution the Indian wars the Civil War and the Texas Navies The pieces in this collection originated for the most part in Greene s popular Dallas Morning News columns several sketches and all the regional introductions are completely new Aficionados of Texas history will already know some of what they read here but they will not know all of it Greene s nuggets of history will inform and entertain a wide reading public They represent A C Greene at his best and most engaging and the states of Texas at their best too

Jane's Window Jane Dunn Sibley,2013-04-02 On the southern portion of what was known as the Sibley s Pezuna del Caballo Horse s Hoof Ranch in West Texas Culberson County are two mountains that nearly meet forming a gap that frames a salt flat where Indians and later pioneers came to gather salt to preserve foodstuffs According to the US Geological Survey the gap that provides this breathtaking and historic view is named Jane s Window In *Jane s Window My Spirited Life in West Texas* and *Austin Jane*

Dunn Sibley the inimitable namesake of that mountain gap gives readers a similarly enchanting view she tells the story of a small town West Texas girl coming into her own in Texas capital city where her commitment to philanthropy and the arts and her flair for fashion epitomized by her signature buzzard feather have made her name a society staple Growing up during the Depression in Fort Stockton Jane Sibley learned first hand the value of hard work and determination In what she describes as a more innocent age she experienced the pleasant life of a rural community with good schools friends and neighbors and daily dips in the Comanche Springs swimming pool She arrived as a student at the University of Texas only ninety days before the bombing of Pearl Harbor and studied art under such luminaries as sculptor Charles Umlauf Her enchanting stories of returning to Fort Stockton working in the oil industry marrying local doctor D J Sibley and rearing a family evoke both her love for her origins and her clear eyed aspirations The Sibleys never discussed the details of their good fortune and to their gratitude no one ever asked In Jane s Window Sibley narrates travel adventures shares vignettes of famous visitors and tells of her favorite causes among which the Austin Symphony and the preservation of lower Pecos prehistoric rock art are especially prominent Peopled with vivid characters and told in Sibley s uniquely down to earth and humorous manner Jane s Window paints a portrait of a life filled to the brim with events both heartwarming and heartbreaking *Ima Hogg* Virginia Bernhard,1984

You Meet Such Interesting People Bess Whitehead Scott,2008-08-28 It wasn t easy in those days for a woman to get her foot in the city room door Bess made it because she understood one of the basic principles of the newspaper business everyone has a story You have only to discover it and tell it well She will tell you in this book about meeting interesting people You will learn that there are few more interesting than Bess Scott herself William P Hobby At the age of twenty five Bess Whitehead Scott became the first woman reporter for the city desk of the Houston Post The year was 1915 The author s memoir of the first ninety seven years of her life illustrates how determination courage hard work and caring family and friends propelled her past enormous obstacles including poverty and a hearing impairment Born near Blanket Texas in 1890 she grew up on a small farm held together by her widowed mother and eight brothers and sisters Scott graduated from Baylor University and taught school briefly before she persuaded the Post editors to give her a chance Her success led to other jobs in the then unnamed field of public relations Then even before the filming of the silent movie classic Birth of a Nation she went to the little film colony called Hollywood to try her hand at writing scenarios Fame and fortune kept their distance from Bess Scott but she did encounter many individuals whose fame or infamy whose friendship or failures made a deep impression on her Clark Gable and Lyndon Johnson were her friends her best friend Lila Danforth was always there during rough times when her marriage failed and she had to support her two small children by double moonlighting to supplement her meager earnings as a reporter The opportunities and rights of women the handicapped and single working mothers that are today taken for granted did not exist for Bess Whitehead Scott s mother or for her Their talents and stamina in fighting rural and urban hardships exemplify a century of women s progress and highlight the roles

played by the interesting people strung along the thread of their lives *Notable American Women* Barbara Sicherman, Carol Hurd Green, 1980 Modeled on the Dictionary of American Biography this set stands alone but is a good complement to that set which contained only 700 women of 15 000 entries The preparation of the first set of *Notable American Women* was supported by Radcliffe College It includes women from 1607 to those who died before the end of 1950 only 5 women included were born after 1900 Arranged throughout the volumes alphabetically entries are from 400 to 7 000 words and have bibliographies There is a good introductory essay and a classified list of entries in volume three

Reflections on People, Policy, and Practices in Curriculum History Deborah L. Morowski, Lynn M. Burlbaw, 2024-03-01 America's schools are constantly in the news today for safety concerns contested curricula teacher quality test scores and a variety of other topics Although most people spend at least 12 years in school systems they know little of the history or evolution of American schooling The collection of papers assembled in this book are divided into three categories which greatly impacted American schooling people policy and practices This work seeks to shed light on what has occurred in curriculum history in the past so as to help readers develop a deeper understanding of how our system of schooling arrived at its current state The first section of the book examines the stories of people who had an influence on schooling and education The second section focuses on the curricula and programs that were utilized in schools and districts throughout the country The final chapter of the book looks at decisions that had long ranging impact on educational policies The chapters of this book offer a glimpse into the history of American schooling and those people policies and practices that influenced its development It is the editors hope that the work will spark interest in scholars and students of educational history to examine other past as well as present stories of educators to expand our understanding of the saga that is the American schooling experience
