**The Missing Girls and Women of China, Hong Kong and Taiwan** Hua-Lun Huang, 2014-01-10 In the past century tens of millions of women and girls have disappeared in China Hong Kong and Taiwan There are many reasons the women variously were sold as foreign spouses imprisoned for their political beliefs taken to night clubs or massage parlors to work as escorts provided as comfort women to soldiers or murdered by female corpse dealers and sold as ghost brides to families looking to give their deceased sons wives in the afterlife The youngest girls fell victim to infanticide the tragic result of a one child law in a male dominated society As a result of the gender imbalance these disappearances created countless young males now suffer from the marriage squeeze remaining single without families of their own This sociological study explores the institutional factors develops a typology for these populations and lays a foundation for the examination of lost populations in the future

Gender Bias, Missing Girls and Population Imbalance Sneh Sangwan, Randhir Singh Sangwan, Mahima, 2015-01-01 Even in 21st century sex imbalance sex discrimination female foeticide and sexselective abortions continue unabated despite the efforts made by governments Union as well as State from time to time The book based on empirical research is intended to examine differentials in sex composition and to plead for balancing of population sex component with specific reference to the State of Haryana which always stood for adverse sex ratio indicating status of women in the society This volume raises the emotive issue of thousands of missing girls in a developed State of Haryana who fail to appear on the social scene even before their birth The girls are being aborted at a massive scale in recent decades simply for a strong desire to have a son This raises many questions Does the issue of son preference still dominate the scene in a patriarchal society despite the substantial progress in female literacy Does the gender bias still persists among the educated and betteroff sections of society Are the sex selective technologies helping the couples to achieve the desired family size and sex composition To answer these questions it is imperative to highlight the socio economic and cultural factors responsible for daughter discrimination and the resulting implications The present book very succinctly has intended to emphasize the importance of population sex balance in improvement of regional socio

economic systems and to suggest strategies to achieve the same based on adequate comprehension of conceptual grasp and analytical discourse on socio economic and demographic characteristics of regional population perception and awareness among people issues and concerns of skewed child sex ratio      **The Forest of Missing Girls** Nichelle Giraldez,2025-11-11
