Missing Pieces Stories:

Missing Pieces James Lee, 199? **Missing Pieces** Natalie Reeves Billing, 2024-10-17 *The Missing Piece* Shel Silverstein, 1976-04-14 It was missing a piece And it was not happy So it set off in search of its missing piece And as it rolled it sang this song Oh I m lookin for my missin piece I m lookin for my missin piece Hi dee ho here I go Lookin for my missin piece What it finds on its search for the missing piece is simply and touchingly told in this fable that gently probes the nature of quest and fulfillment **Master of His Fate** James Tobin, 2021-03-23 Master of His Fate by James Tobin is an inspiring middle grade biography of Franklin Delano Roosevelt with a focus on his battle with polio and how his disease set him on the course to become president In 1921 FDR contracted polio Just as he began to set his sights on the New York governorship and with great hope the presidency FDR became paralyzed from the waist down FDR faced a radical choice give up politics or reenter the arena with a disability something never seen before With the help of Eleanor and close friends Roosevelt made valiant strides toward rehabilitation and became even more focused on becoming president proving that misfortune sometimes turns out to be a portal to unexpected opportunities and rewards even to greatness This groundbreaking political biography richly weaves together medicine disability narratives and presidential history Christy Ottaviano Books **What Was I Thinking?** Chris Gates, 2014-05-02 Description The 1990s were presidentially proclaimed the decade of the brain Owing in large part to the work on the neuroscience and clinical applications from that initiative we are now on the verge of breakthroughs in learning how the subconscious mind affects the decisions we re continually making For instance your unconscious mind has already made the decision whether to buy this book but you probably don t know that yet First you got a feeling an intuitive nudge supplied from the unconscious mind Next the conscious mind defends or disagrees with that emotion Your final decision may not be as completely straightforward as you would like to believe I m sure this introduction to the world of your mind as a product of yet distinct from your brain has a few surprises in store for you Whether you think of yourself as more of a rational person or someone who tends to go more with your feelings and intuition you ll find these two ways of thinking intertwined in a rich fabric made for your enjoyment Blue Ink Review Gates divides our decision making processes into two systems System 1 is intuitive unconscious fast acting and effortless System 2 is rational conscious deliberate slower than System 1 and susceptible to fatigue While many people think that their decisions are based on the discursive rational System 2 in fact the intuitive System 1 is often in control and in ways that are elusive Gates explores not only the particular heuristics that tend to fool us but also why it is so hard to change them Full of anecdotes and snippets from revealing psychological experiments Gates s work is no dry philosophical tome It is written in a popular style and will be accessible to a wide audience Readers of Malcolm Gladwell s work especially his popular book Blink are likely to find Gates s work a breezy thought provoking read Foreword Review This accessible book is for those who are intrigued by the human mind and want to know why they and others do what they do What Was I Thinking The Subconscious in Decision Making by

Chris Gates brings the insight and mystery of brain science and psychology to the masses While decision making is a skill that people can develop and articulate over time most people experience mystifying moments when they ask the question in the title Gates tackles the mystery with facts compiling research that explores how people make decisions why the mind prioritizes the inputs it does and to what extent the mind adapts to new information This book will appeal to other first person researchers who are intrigued by the human mind and want to know why they and others do what they do Anyone fascinated by the innovations in brain science and understanding will find Gates s devotion to detail compelling The back matter is uncommonly useful The glossary presents in depth thoroughly explained definitions for people new to the material The appendixes offer interesting almost brainteaser like studies of the mind What Was I Thinking asks and explores the answer to the question that haunts ordinary thinkers Kirkus A thoroughly researched pop culture laden exploration of how people make choices A surprisingly poignant intellectually rigorous study of how our thought processes shape our lives

Restoring the Story Anne van Gend,2024-03-29 Are we getting too squeamish about the atonement There is a quiet crisis of confidence in many Western churches Confusion debates and changing sensibilities have thrown doubt on whether one of our central doctrines can be reliably communicated as good news today This book approaches atonement through story allowing imagination to illuminate the multi faceted meanings in Christ s atoning work and exploring how those rich stories can be good news for the complex issues of our day

Looking Glasses and Neverlands Karen Coats,2004-04 A Choice Outstanding Academic Title This groundbreaking study introduces and explores Lacan s complex theories of subjectivity and desire through close readings of canonical children s books such as Charlotte s Web Stellaluna Holes Tangerine and The Chocolate War providing an introduction to an increasingly influential body of difficult work while making the claim that children s textual encounters are as significant as their existential ones in constituting their subjectivities and giving shape to their desires

Lessons from the Porch Ed Poole,2003 Lessons from the Porch is Ed Poole s thoughtful memoir of life s lessons which he shares with endearing charm and good natured heart The book is a thoughtful journey and an engaging reminiscence Lessons from the Porch will allow the reader to consider questions such as Have you wondered how you arrived at your current stop along your journey Have you ever asked the question What am I supposed to be learning from this experience How can I leave this world a bit better than it was when I found it Although written about his own experience battling depression the book is meant for anyone embarking on a journey to know themselves and cultivate new friendships We all have places from which we learn life s lessons For some it may be sitting beside a meandering stream For this author the place to which he returned to understand his journey was the porch that surrounded his house as he grew up Metaphorically Poole s porch represents how he either has or has not accepted changes in his life The dilemma about how and when to leave his porch goes back to his early boyhood when his mom would always say Eddie don t get too close to the edge of the porch because you might fall off

The Story of Reality Gregory Koukl,2017-01-10 Biblical Christianity is more than just another private religious view It s more than just a personal relationship with God or a source of moral teaching Christianity is a picture of reality It explains why the world is the way it is When the pieces of this puzzle are properly assembled we see the big picture clearly Christianity is a true story of how the world began why the world is the way it is what role humans play in the drama and how all the plotlines of the story are resolved in the end In The Story of Reality bestselling author and host of Stand to Reason Gregory Koukl explains the five words that form the narrative backbone of the Christian story He identifies the most important things that happen in the story in the order they take place God Man Jesus Cross Resurrection If you are already a Christian do you know and understand the biblical story And for those still seeking answers to the questions of life this is an invitation to hear a story that explains the world in a way nothing else will This story can change your life forever

The beautiful and the dark side of a love story Adrian Gabriel Dumitru, The book is trying to define the beautiful and the dark side from a man and a woman that are in love of each other but not as theory but as a result of analyzing facts that are happening on the timeline of the love story It s a book about a fairy tale with 2 lovely characters that are not understanding but also are not accepting that the meaning of an abstract love or an imposible story is to enjoy only the beauty of what is going on The 2 people from the essays get lost so many times that not even the people around them can t see if the story itself is real or not But it s all a journey of accepting the beautiful and the dark side from the person that you love so much After the first period when you are blinded by love it comes the second episode when you see that you are not in love with a god but with a human being and just as you have millions of imperfections the same has also that magic person that you fall in love with It s a book that defines the fact that we should accept the things just as they are and love with an opened heart no matter what is going on The nice part is that the book is not a collection of imaginary stories but essays that talks about a real story between 2 adults that wants to redefine and also restart their lives but in the end just enjoy the fact that they met losing any expectation at all as the story to become a real one Today you are happy tomorrow you are not and the essays describes this in a very honest but also beautiful way all those amazing moments spent together
